INITIAL NARRATIVE
Written by: **Borges, Wade 1101440**
Date/Time: **07/29/2022 16:57:00**

On 07/29/2022 at approximately 1000 hours, I responded to the end of Thomas Lane in Geyserville to assist north beat patrol deputies with an OIS. Upon my arrival, I contacted on scene Sgt. Toney who asked me to set up a landing zone for H1. Once the LZ was established, TFO Hass long lined Deputy Powers to the LZ. Sgt. Toney then asked me to sequester Deputy Powers and transport him to [redacted] Industrial Dr. Santa Rosa. I stood by with Deputy Powers until SRPD Detectives completed their interviews.

Nothing further.

SUPPLEMENT
Written by: **Goforth, Kalvin 1102117**
Date/Time: **07/29/2022 20:18:00**

On 7/29/2022 at approximately 1111 hours I arrived in the area of [redacted] Thomas Lane outside Geyserville to assist with a critical incident. Sgt. Berg requested that I secure the scene near an unoccupied vehicle from an earlier call for service (see SD222100037.) The call was received at approximately 0730 hours on 7/29/2022 at [redacted] Highway 128. The caller reported that at 0530 hours, someone had dumped a car in the vineyard and ran from it. Based on the location and other circumstances, it appeared to be connected to the critical incident.

I arrived at [redacted] Highway 128 at approximately 1125 hours and secured the scene around the vehicle, which was a 2008 Nissan Sentra with a California license plate of [redacted].

I later spoke with Abraham Azevedo, who originally saw the vehicle enter the property. Azevedo lives on the property, and works in the vineyards there. At approximately 0530-0540 hours that morning, he was working in an adjacent field and saw the silver Nissan drive into the vineyard at a high rate of speed, which he estimated to be 40-45 miles per hour. He wondered what was going on, and walked closer to take a look. By the time he walked over, the driver had exited the vehicle and was no longer in sight. He believed the driver to be a male, but could not provide a better description as it was dark at the time.

I completed a crime scene log, which I later scanned into RMS and evidence.com. SRPD Detective O'Neill later arrived on scene and assumed the investigation.

DISPOSITION: Supplemental report only.

Narrative

SUPPLEMENT

Written by: **Campos, Hector 1102281**

Date/Time: **07/29/2022 17:47:00**

On 7/29/22, at approximately 0910 hours, I was assisting Detectives with an unrelated matter in Cloverdale. While assisting them I was also listening to the call that Deputy Dietrick was on. Once I was cleared from assisting the Detectives. I began to respond to Thomas Rd "Code 3" as it appeared to me there was a strong possibility a K9 maybe needed. While enroute I heard Deputy Deitrick announce that shots were fired.

Upon arrival to the area, I escorted North County Fire and a Bell ambulance up to [redacted] Thomas Rd. I assisted with getting the Fire and Medical Personal in the area where Sheriff's helicopter "Henry 1" was going to drop off Deputies.

Supplement Report

Agency: **Sonoma County Sheriff's Office**

Case #: **SD220729008.003**

At the landing site I contacted a subject, later identified as [redacted] who was riding around in a side by side UTV. [redacted] informed me that he was the one who confronted the suspect at his house, located at [redacted] Tre Monte Ln. [redacted] said the suspect appeared "Strung out." [redacted] said he had a picture of the suspect with rocks. [redacted] said he had surveillance cameras on his property that caught the suspect on video.

[redacted] said when he confronted the suspect the suspect said something like "Someone is trying to kill me." [redacted] said the suspect was barefoot and completely dirty and had a shaved head. [redacted] said he spoke to the suspect in Spanish but the suspect would talk back to him in broken English. [redacted] said he was armed with a pistol as the suspect was on his property with three rocks.

I explained to [redacted] someone would talk to him to get his story as I knew this was a critical incident and Detectives were going to take over the investigation. [redacted] said okay and that the suspect "Appeared meth'd out and didn't know what was going on."

[redacted] later informed me at least one of his two neighbors had their houses broken into by the suspect. [redacted] said his one of his neighbors was identified as [redacted] and owned [redacted] and [redacted] Tre Monte Ln. The other neighbor was identified as [redacted] who lived at [redacted] Tre Monte Ln.

[redacted] also informed me he had driven the Deputies in a side by side to help look for the suspect.

I took down [redacted] contact information and later handed over to Santa Rosa Police Detective N. Gillotte.

I then spoke with a subject on a ATV, later identified as [redacted] informed me he was the caretaker to the ranch located at [redacted] Thomas Rd. [redacted] said he did not see anything other then when he saw the Deputies coming into the property.

[redacted] assisted us for most of the day trying to locate roads to get closer to the area of the critical incident as well as helping shuttling Deputies back and forth on the property.

I contacted Paramedic Eric Constantine (P-27508) from Bell Ambulance. Paramedic Constantine had just been brought back by "Henry 1" from the area of the critical incident. Paramedic Constantine informed me that he had left all his medical equipment at the scene. Paramedic Constantine informed me that he had pronounced the suspect deceased at 1029 hours.

Later once the scene was documented by Santa Rosa Police Evidence Technicians, I drove Paramedic Constantine's equipment to their office located in Healdsburg.

Sgt. Berg gave me two sets of keys that belonged to two different side by sides. One set of keys belonged to the side by side Deputies used and the other set belonged to the side by side that the suspect had stolen. The keys to the stolen side by side were given to SRPD Detectives.

I provided all the above information to SRPD Detective N. Gillotte.

I stayed at the staging area with Deputy Clegg until we were released by Sgt. Berg.

Narrative

SUPPLEMENT
Written by: **Haas, Christopher 1101649**
Date/Time: **08/06/2022 12:57:00**

On 07-29-2022, at approximately 0912 hours, I was off duty, but available on call as the Tactical Flight Officer for the Sheriff`s Helicopter "Henry-1." In addition to myself, the aircrew consisted of Pilot N. Cooper.

On the above noted date and time, I was contacted, via telephone, by Sheriff's Office Dispatch who requested we respond to the area of [redacted] Trey Monte Lane, Geyserville, to assist with searching for a person/suspect in a remote area.

I responded to the Sheriff's Hangar and subsequently flew to the above noted area.

Upon our arrival we began a search for said suspect and eventually located them in a creek bed while they were being contacted/detained be patrol Deputy Sheriffs.

Shortly after locating the above noted suspect, one of the deputies on scene advised, via radio, that the suspect had been shot and that deputies were initiating lifesaving measures.

Due to the remoteness of the location, and lack of vehicle access to the scene, I felt it necessary to rendezvous with a Bell's Ambulance, staged out of the area, in order to airlift a paramedic to the scene.

We flew to and landed in a driveway off Chalk Hill Road, where we picked up a Bell's Ambulance Paramedic. I loaded the paramedic and their medical supplies/equipment into the aft passenger compartment of the helicopter.

We subsequently flew to a hilltop closer to the scene and I simultaneously coordinated with both Sheriff's Dispatch and REDCOM to start a medevac helicopter to said hilltop to potentially airlift the suspect to the hospital.

Upon landing at said hilltop, I set the helicopter up with a 100-foot-long line. After setting up the long line, I connected the above noted medical supplies/equipment to the line, as well as additional rescue equipment. Additionally, I placed the paramedic in a "Hot Seat" rescue device and attached both the paramedic and me to the line.

Pilot Cooper then flew us to the location of the incident, and I disconnected everything and everyone from the line. The paramedic began providing patient care to the suspect and I flew, via 100-foot-long line, to the location of Sergeant N. Berg, as well as an additional Deputy Sheriff, who were located in a creek bed north of our location. Once at their location, I placed Sergeant Berg in a "Horse Collar" rescue device and the deputy in a "Hot Seat" rescue device. Pilot Cooper then flew us to the location of the scene, and I disconnected us from the line.

Shortly after my arrival back at the scene, the paramedic advised me the suspect was dead.

Due to our poor radio reception, I relayed to Pilot Cooper to advise Sheriff's Dispatch that the suspect was deceased.

A short time later, and at Sergeant Berg's direction, I flew both deputies involved in the critical incident, via long line, to a landing zone (LZ) north of our location (2 separate flights, with each flight being one of the involved deputies and I). Once at said LZ the

involved deputies were received by deputies who would be coordinating the sequestering of the involved deputies.

Throughout the remainder of the day, we conducted numerous long line operations from the above noted LZ, to the location of the scene. This included long lining deputies assigned to crime scene security, a Santa Rosa Police Department Detective and Evidence Technicians, District Attorney Investigator, and both Sonoma and Marin County Coroners.

At the direction of the Marin County Coroner, I assisted in packaging the decedent into a "Traverse Stretcher" rescue device and subsequently flew the decedent, Marin Coroner, and I to the LZ; via 100-foot-long line.

It should be noted that all our long line operations throughout the day were necessitated by the remote location of the incident. The location was such that it was inaccessible by ground vehicles and hiking to the location was tedious, time consuming, and difficult task. This hike would also expose ground personnel to potential injury.

On 7/29/2022 I responded to [redacted] Tre Monte Ln in rural Healdsburg to assist with this incident. I arrived at this location at approximately 1035 hrs.

Both Deputy Powers and Deputy Dietrick had their assigned patrol vehicles parked at this location. I stayed at this location with the patrol vehicles until Santa Rosa Police Department Evidence tech's and Detectives arrived. Once Santa Rosa Police personnel were done processing the patrol vehicles, Deputy Allison and Deputy Aiken drove the vehicles back to the Sheriff's Office (2796 Ventura Ave) and I left this location.

Supplemental Report

SCSO Case #: 220719-008

Sergeant N. Berg

On 7/29/2022 I was on duty as the dayshift sergeant assigned to the SCSO main office. At approximately 0820 hours, I heard a call for service in the unincorporated Geyserville/ Healdsburg area. The call was regarding a suspicious circumstance where a suspect had thrown a large rock through an occupied residence window. Further, the reporting party (21 year old [redacted]) indicated their father was armed with a firearm and was out looking for the suspect. The RP also indicated their property was 60 acres.

Prior to this call, I was aware that a deputy had responded to a somewhat close in proximity residence where a subject had parked their vehicle and abandoned it before running off into the woods. This vehicle was registered to a Hispanic subject out Clearlake. The vehicle was not towed and was left on scene since there was no authority to tow it. I later believed these two incidents were likely connected.

As this second call progressed and deputies arrived to the area, I continued to monitor its progress. I shortly after heard Deputy Dietrick indicate over the radio that he had learned the same suspect who had thrown the rock, had also just stolen a gardener's truck from the same property ([redacted] Tre Monte Ln). Deputy Dietrick indicated that he learned the suspect had rammed through several gates on the property and he was attempting to catch up to the suspect. Deputy Dietrick then provided an update that a neighbor (also armed with a firearm) had called in to report that suspect was now on his property ([redacted] Tre Monte Ln) and was on his knee's and yelling something in Spanish. Deputy Dietrick indicated he then observed the suspect running down a hill and described him as a Hispanic male adult wearing gray pants/ blue shirt, barefoot, and armed with several rocks. Deputy Dietrick further indicated that the second resident had indicated the suspect was begging to be killed by the resident.

At this point, I had begun responding to this incident. Based on the direction of travel Deputy Dietrick provided, I inquired from dispatch what property it appeared the suspect was heading towards. They indicated [redacted] Thomas Rd. After reviewing the map on my MDC, my knowledge of the area, and the progression of this call I inquired about an air unit to assist. I knew that our helicopter was on a 30 minute call back and requested CHP's air unit if it was available. After waiting approximately 10 minutes, CHP indicated they not available. I then requested to call out our helicopter (Henry-1) to assist. I knew that based on the terrain alone, it would have been difficult for me and other resources to reach Deputy Dietrick and Deputy Powers (who had also responded). I had also early on requested Deputy Clegg respond with me to the area.

Due to the circumstances and the threat to the public (suspect's demonstrated aggressive/ erratic behavior and being armed with rocks), I requested SCSO dispatch send out a Nixle to the area with the suspect's description with the intention of warning the public and to ask for assistance if he was spotted.

Deputy Clegg and I arrived to the area and made our way to [redacted] Thomas Rd. Deputy Dietrick indicated the suspect had stolen a side by side UTV from a property and had continued to ram through gates on properties. I learned that Deputy Dietrick and Deputy Powers had been provided transport via a resident's side by side. Deputy Dietrick indicated patrol vehicles would not be able to access where they were and heading. Deputy Dietrick eventually located the unoccupied stolen side by side on the property of [redacted] Thomas Rd and indicated the suspect was moving east. For reference, [redacted] Thomas Rd is a very large property consisting of very rural terrain.

The location of this incident provided us with radio difficulties, and it was often times impossible/difficult to have clear radio contact with Deputy Dietrick and Powers. Deputy Clegg and I utilized a property owner's ([redacted] Thomas Rd) side by side to attempt to catch up with Deputy Dietrick. At one point I heard either Deputy Dietrick or Powers indicate the suspect had armed himself with a hatchet or hammer and was continuing east (after clarification with initial westbound reports). Deputy Dietrick and Powers later indicated they had become somewhat close to the suspect and were monitoring him from a distance. Meanwhile Deputy Clegg and I reached a point where the side by side could not proceed and we proceed on foot. I heard Deputy Powers indicate he observed the suspect striking a tree with one of the above mentioned weapons.

When Henry-1 arrived I attempted for some time to assist them in finding Deputy Dietrick, Powers, and/or the suspect. My intention at this point was for Henry-1 to locate the deputies and then have them either fly and/or longline in additional resources. Due to the terrain and dense tree line, Henry-1 was not able to immediately locate them. Henry-1 eventually located them in a river bed, which I later learned was approximately ½ mile from where Deputy Clegg and I had hiked into. Shorty after Henry-1 located them, I heard Deputy Dietrick indicate shots fired, suspect down, and life saving measures were implemented.

I requested Henry-1 longline Deputy Clegg and I to their location after they were done transporting a waiting nearby paramedic to the scene. The access to the scene from where Deputy Clegg and I were at was blocked due to a body of water and very steep embankments on either side.

Henry-1 eventually longlined us in and I made contact with the Deputies Dietrick and Powers. I observed a Hispanic male adult lying supine in a rock bed. At this point the paramedic had pronounced the suspect deceased. I observed both Deputies Dietrick and Powers, who were visibly exhausted. I obtained a public safety statement from both separately and collected their body worn camera's just prior to them being longlined out.

I left Deputy Clegg on scene and coordinated further crime scene security. Prior to clearing the scene, I took several overall photos of the scene. I later placed them onto the evidence.com server.

After being longlined out, I immediately responded to the SCSO main office and placed Deputy Dietrick and Powers' BWC's on the docking station. I was also equipped with a BWC which had been activated and later placed onto the docking station.

I later assisted with the incident briefing at the SCSO main office with Santa Rosa Police attending.

I later responded back out [redacted] Thomas Rd where I assisted with coordinating the investigative team to the scene via Henry-1. Due to the extremely remote location, access by any other method would either have been extremely difficult (if not impossible) and also exposed those responding to injury.

Sonoma County Sheriff's Office

Violent Crime Investigations Unit (VCI)

Detective Adrian Anaya

RE: SCSO Case Report No. SD220729008

CASE NOTIFICATION to VCI:

On July 29th, 2022, at approximately 1100 hours, the Sheriff's Violent Crime Investigations Unit (VCI) was notified of a deputy involved shooting that occurred in unincorporated Geyserville, Sonoma County. The deputy involved shooting resulted in the death of an individual who was later identified as David Pelaiz Chavez. As a result, the Sonoma County Sheriff's Office invoked the Sonoma County Law Enforcement Critical Incident Protocol. VCI Sergeant Les Bottomley advised that the Santa Rosa Police Department (SRPD) - Violent Crime Investigations Unit would assume responsibility as the lead investigating agency. Sgt. Bottomley tasked me and other VCI Detectives with preparing a critical incident briefing for SRPD VCI at the Sheriff's Main Office. Sheriff's VCI and Patrol Sgt. N. Berg briefed SRPD personnel with the information to known at the time of the briefing.

During this investigation, I provided SRPD VCI Detective Gino Rantissi with body worn camera footage of the involved Deputies, Sheriff's CAD notes, as well as the 911 dispatch audio.

On January 4, 2023, SRPD VCI Det. Rantissi advised me that the SRPD report was complete. Refer to Santa Rosa Police Department case report No. (SR220008672) for their complete investigation.
