SUPPLEMENTAL:

On 7/29/22, at approximately 1030 hours, I was alerted to a critical incident involving the Sonoma County Sheriff's Department. A short time later I received a phone call from Captain Marincik who stated Deputies from the Sonoma County Sherriff's Office had been involved in an officer involved shooting. He advised the subject shot was pronounced deceased and the Sonoma County Critical Incident Protocol was invoked.

I made a variety of phone notifications and responded to the Sonoma County Sheriff's Office for a briefing. Prior to the briefing I met with SCSO VCI Sergeant Les Bottomley and SCSO Lieutenant Jason Lucas. Sergeant Bottomley provided me with details about the event that lead up to the shooting and the locations involved in the investigation. This information was later provided in a law enforcement briefing that the Sonoma County Sheriff's Office conducted at approximately 1330 hours.

At the conclusion of the law enforcement briefing, Sergeant Bottomley provided me with what he believed was the most accurate location where the officer involved shooting occurred ([redacted]'). Because of the remote location in which the shooting occurred, Sergeant Bottomley only had latitude and longitude coordinates obtained from the SCSO helicopter during rescue efforts.

As I was responding to the scene and staging location (5600 block of Thomas Road, Healdsburg), Sergeant Bottomley advised they believed the location was owned by [redacted]. He provided contact information for [redacted], a representative for [redacted]. [redacted] met us at the staging location, and I spoke with him upon arrival. [redacted] told me he conducts property management for [redacted] vineyard properties. I provided [redacted] with the approximate location of the shooting and location of which the suspect was believed to have traveled. [redacted] reviewed parcel maps that he brought and confirmed the area was owned by [redacted]. [redacted] showed me the parcel map covering the area which displayed Sonoma County APN #[redacted]. [redacted] provided consent for law enforcement to conduct our investigation on the property and provided assistance with accessing different roadways and routes.

Due to the remote location of the shooting scene, the quickest and best access was via helicopter transport. At approximately 1540 hours, I was flown to the shooting location and "long lined" into the scene by the Sonoma County Sheriff's Helicopter "Henry 1." I signed into the crime scene log and conducted a walk around investigation of the scene. After photos and video were taken of the scene by FET's, I assisted with locating 2 spent shell casings on the ground in the area where Deputy Dietrick fired his weapon. I then signed out of the crime scene log and was transported back to the staging location by Henry 1.
