Summary of Incident:

On January 30, 2017 at approximately 2035 hours, Sonoma County Sheriff`s dispatch received a 9-1-1 wireless call in the area of [redacted] Alden Lane, Windsor, CA. Two Windsor Police patrol units were dispatched to investigate the emergency call.

At approximately 2043 hours, Deputy Ryan Patrick and his deputy trainee, Ryan Wang, arrived on scene at [redacted] Old Redwood Highway, the [redacted]. While checking the area, they walked to the parking lot and observed a maroon colored Nissan bearing CA. license plate number [redacted], registered to Luis Santiago Olmedo. They found a single Hispanic male (Olmedo) seated in the driver`s seat crying, and talking on his cellular phone.

Deputy Patrick approached the vehicle and announced his presence, while knocking on the driver's window. At that time, the deputies observed a black semi-automatic handgun in the suspect's lap. At approximately 2122 hours, after an approximate 29 minute negotiation attempt with Olmedo to surrender himself unarmed, he exited his vehicle and placed his hands on top of the driver's door post. Olmedo then removed his hands from the door post and began reaching back into the driver`s compartment. Deputy Eric Seibold deployed a single sponge projectile from his Sheriff`s Office issued .40 mm less lethal launcher at Olmedo. The projectile struck Olmedo`s upper torso, but he continued to turn his body towards the deputies and displayed a black handgun. Olmedo turned his body and brandished the handgun towards the deputies.

Deputy Brian Parks deployed one round from his duty firearm at Olmedo, which struck his torso and caused him to fall to the ground. Deputy Parks then deployed his department canine. Olmedo was ultimately taken into custody and received immediate medical aid. Olmedo was transported to Santa Rosa Memorial Hospital where it was determined he sustained a single non-life threatening gunshot to his abdomen.

Deputies Parks and Seibold were immediately sequestered and transported [redacted], located at [redacted] Santa Rosa, CA.

Background Summary

This is an Administrative Review of an Officer Involved Shooting that occurred on January 30, 2017, at approximately 2035 hours, at [redacted] Old Redwood Highway, in Windsor.

Overhead of [redacted] Old Redwood Highway.
(Not to scale)

At that time, Sonoma County Sheriff`s dispatch received a 9-1-1 wireless call from telephone number [redacted] The location of the call was identified to be in the area of [redacted] Alden Lane, Windsor, CA. Two Windsor Police patrol units were dispatched to respond to this area to investigate the emergency call.

During an immediate call back to the number, the Sheriff`s dispatch call taker received a Spanish outgoing message. The call taker left a message in English. At approximately 2039 hours, Sheriff`s dispatch received another 9-1-1 call from the same telephone number. A Spanish speaking male was heard asking for an interpreter and said he was at the [redacted]. The Sheriff`s dispatcher immediately acquired a Spanish translator and through their communications, it was confirmed the caller was saying he was at [redacted].

At approximately 2043 hours, Deputy Ryan Patrick and his deputy trainee, Ryan Wang, arrived on scene at the church where they walked to the parking lot and observed a maroon colored Nissan sedan bearing CA. license plate number [redacted] registered to Luis Santiago Olmedo, parked facing west. They noted the windows were mostly fogged up, but they were able to determine it was occupied by a single Hispanic male (Olmedo) seated in the driver`s seat crying and talking on his cellular phone.

Deputy Patrick approached the vehicle and announced his presence, while knocking on the driver`s window. At that time, the deputies observed a black semi-automatic handgun in the subjects lap. Deputy Patrick drew his duty firearm, pointed it toward the Olmedo while shouting commands to the subject to show his hands. At approximately 2050 hours, Deputy Patrick advised via radio broadcast he had a subject at gun point.

Within minutes, Deputies Maikranz, Gillette, and Valencia arrived on scene and established a safe perimeter around the occupied vehicle. At approximately 2053 hours, Deputy Valencia utilized the PA system in his patrol vehicle ordering Olmedo to surrender by exiting his vehicle with his hands in the air. Deputy Valencia repeated the directives several times in English and Spanish, but the Olmedo did not respond. Over the next few minutes, Deputies Aldridge, Houser, J. Peterson, L. Matelli, Blount, Seibold, Atallah, Mathias, Parks, Sergeant Salas, and Sergeant Jim Ryan arrived on scene.

At approximately 2104 hours, Sonoma County Sheriff`s Office Hostage Negotiation Deputy Brent Kidder was summoned and began responding to the scene. Deputy Valencia continued efforts to negotiate with Olmedo, calling him by his first name, Luis, however Olmedo failed to comply as instructed. On two occasions, Olmedo opened the driver`s door and then closed it. At one point he threw a crumpled piece of paper onto the ground. At approximately 2106 hours, emergency medical personnel were summoned to stage in the area.

At approximately 2122 hours, after an approximate 29 minute negotiation attempt with Olmedo to surrender himself unarmed, he exited his vehicle and placed his hands on top of the driver's

door post. Olmedo then removed his hands from the door post and began reaching back into the driver`s compartment.

Based on Olmedo`s unwillingness to comply with verbal orders to keep his hands on the vehicle and his continued action to advance into the driver compartment of the vehicle, Deputy Eric Seibold deployed a single Sponge round from his Sheriff`s Office issued .40 mm less lethal launcher at Olmedo. The sponge round struck Olmedo`s upper torso, at which time he turned his body towards the deputies, revealing he was holding a black handgun. Olmedo turned his body and brandished the handgun towards the deputies.

Deputy Brian Parks deployed one round from his duty firearm at Olmedo, which struck his torso and caused him to fall to the ground. Deputy Parks then deployed his canine which also engaged Olmedo until he was taken into custody. Deputy L. Matelli began rendering medical aid to Olmedo. Deputy Matelli was relieved within seconds by Windsor Fire personnel and Bells Ambulance paramedics. Ultimately, Olmedo was transported to Santa Rosa Memorial Hospital where it was determined he sustained a single non-life threatening gunshot to his abdomen.

During the evidence collection process by Crime Scene Investigation Detectives, the paper Olmedo threw from the vehicle prior to sustaining the gunshot wound was recovered and booked into evidence. It stated the following:

> "Thank you for doing this favor for me because I did not have the courage to do it. My life has no meaning on this land, this was the only way to leave this land that everything was a disaster for me. And to my family and mother, I ask forgiveness, I had to do this. But, I don`t want you to be sad for this and remember that I will always be with you my loving mother."

On April 10, 2017, Olmedo pled "Guilty" to two counts of 69 PC. He was subsequently sentenced to three years probation after serving six months in the Main Adult Detention Facility.

Authorities

As a part of this administrative review, correlating appropriate policies that govern some of the actions taken by employees during the incident in order to compare and contrast actions is necessary. Based on those policies, the actions of the employees are examined to determine if the policies were followed or if any policy can be improved upon.

The following policy, procedures, or protocols will be reviewed:

Sonoma County Sheriff's Office Department-Wide Policy and Procedure:

- Press Release Policy
- Radio Policy
- Critical Incident Debriefing/Defusing
- Major Incident Notifications
- 300-Use of Force

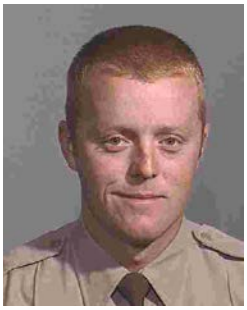

Authorized Firearms

Sonoma County Sheriff's Office Law Enforcement Division Policy:

308- Less Lethal Control Devices
318-Canine
400-Patrol Functions
414-Hostage and Barricade Incidents
450- Body Worn Camera

Involved Parties—Deputies

Deputy Brian Parks

Investigation

On January 31, 2017, I was directed by Lieutenant James Naugle to conduct an internal administrative review of this incident.

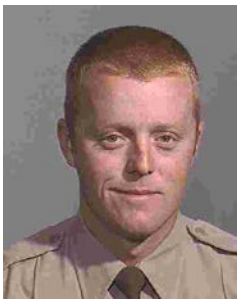

Case Overview

The Sonoma County 'Fatal Incident Protocol' was not invoked based on the non-threatening gunshot wound the suspect sustained. Sheriff Freitas directed the Sheriff's Office Violent Crimes Investigative unit, in conjunction with the Sonoma District Attorney's Office, to investigate the circumstances surrounding this officer involved shooting.

After the shooting, those deputies involved in this incident were questioned by VCI detectives along with investigators from the District Attorney's Office.

Interview Summaries

Deputy Brian Parks

On January 30, 2017, at approximately 0212 hours, Detective Toney and Detective Fowler arrived [redacted], Santa Rosa to conduct interviews with Deputies Parks and Seibold.

At approximately 0436 hours, they conducted the interview in accordance with the "Involved Officer Interviews". Present in the room during the interview was Deputy Parks, his attorney, Michael Rains, Detective J. Toney, and Detective Fowler.

The following is an excerpt taken from the transcribed interview of Deputy Parks:

Deputy Parks provided a voluntary statement, was free to leave at any time, and he was not obligated to answer any questions. Deputy Parks stated he understood his rights and he had ample time to gather his thoughts and prepare himself for the interview.

At the time of the incident, Deputy Parks was not sick or injured. He did not receive any injuries as a result of the incident. He was not suffering from any medical condition or taking any medication that may have impaired his abilities as a law enforcement officer. Deputy Parks slept the evening prior to the incident and had not consumed any alcohol in the 24 hours preceding the incident.

At the time of the incident, Deputy Parks had been employed as a Deputy with the SCSO for approximately 12 and a half years. Deputy Parks had been employed in the field of law

enforcement for approximately 15 years and was employed by the Santa Rosa Junior College for approximately three years prior to his employment at the SCSO.

Deputy Parks held the collateral assignments of SWAT team member, Use of Force instructor, and canine handler at the SCSO.

At the time of the incident, Deputy Parks was working as a canine handler with his partner "Jags". Deputy Parks was assigned to Windsor Police Department cover shift Saturday through Tuesday, 1400 until 0200 hours and started his shift on 01/30/2017 at 1300 hours and utilized the call sign K8. Deputy Parks' assignment was a uniformed assignment he had been in the assignment for approximately three years and was driving his assigned patrol vehicle, W40.

Deputy Parks described the event, including the time of the event, names of witnesses, names of officers as best as he could recall, including all the information he could remember relative to the circumstances.

Deputy Parks stated he was working at a computer at Windsor Police Department when he heard a 911 disconnect dispatched in Windsor. A few moments later, he heard the responding deputy state he was out with a man with a gun. Deputy Valencia, who was also present at WPD and Deputy Parks communicated the location to each other and he responded to the scene code 3.

Deputy Parks arrived on scene and noted that the parking lot was basically vacant, observing only two patrol vehicles and the suspect's Nissan. Upon arrival, Deputy Parks exited his vehicle, obtained his canine partner from vehicle and began surveying the scene. He then began coordinating incoming patrol units and evaluating possible avenues of escape for the suspect. He began to coordinate with other personnel present, describing what their actions would be based upon the suspect's actions. Actions such as if the suspect stepped out of the vehicle unarmed and how they could prevent him from returning back to the vehicle to access the handgun and arm himself.

While Deputy Valencia communicated with the suspect, Deputy Parks formulated the belief that the suspect may want to commit suicide by instigating the use of lethal force by the law enforcement present. He also continued to formulate contingency plans for to ensure the safety of the public such as evacuating the area in front of the suspect and requesting spike strips be placed at the exits of the parking lot. He also discussed with Deputy Matelli on the appropriate time to deploy his canine.

After approximately 25-40 minutes, the suspect exited the vehicle but retreated back within before an action could be taken by deputies. Deputy Parks recognized he had been holding his canine in preparation for deployment as well as his handgun for most of the time and that fatigue could be setting in for both he and his partner, he decided to change his position. As he was preparing to do so, the suspect exited the vehicle again.

The suspect then stood in the open threshold of the car door, looking into the car at which time he reached in and grabbed an unknown object. Deputy Parks described how he was almost

certain it was a handgun but he was not positive and although he felt a dangerous threat was present, he was aware enough to remain calm and, "see if we can get through this."

At that time, he observed Deputy Seibold deploy a 40 millimeter sponge projectile at the suspect which struck him in the torso but failed to incapacitate or gain his compliance. As the suspect turned, Deputy Parks recognized the black handgun with "99.9%" certainty and fearing the suspect presented too great of a threat to the safety of the personnel present and Deputy Parks fired one round from his handgun.

Deputy Parks stated he could see his shot impact the suspect which caused an immediate change in the suspect's threat posture, which resulted in Olmedo turning toward the ground and dropping the handgun. The suspect then went into a crouched position with the handgun near his person. Deputy Parks deployed his canine to the suspect as a way of preventing him from retrieving the handgun off of the ground.

Deputy Parks ordered the canine to retrieve the suspect which resulted in the canine pulling the suspect 3-5 feet away from the handgun, thereby allowing deputies to approach and Deputy Parks to remove the canine from the engagement. Deputy Parks stated he then walked away, leading his canine out of the incident to prevent the canine from reengaging the suspect or engaging a deputy. Deputy Parks then placed his canine into his patrol vehicle before be sequestered by Deputy Negri.

<u>Deputy Eric Seibold</u>

The following is an abbreviated excerpt taken from Detective Fowler's report;

At approximately 0338 hours, VCI conducted the interview in accordance with the "Involved Officer Interviews". Present in the room during the interview was Deputy E. Seibold, his attorney, Michael Rains, Detective J. Toney, and Detective Fowler. The interview was monitored by closed circuit television from room 2701 by DDA J. Murray, DAI E. Hemphill, and SCSO PCI Sgt. S. Murphy. The interview was audio recorded and was later transferred to a CD-R, marked for future identification as JF01, and placed into evidence. The following, in essence, is what Deputy Seibold stated. For exact statements refer to the CD-R marked JF01.

Deputy Seibold provided a voluntary statement, was free to leave at any time, and he was not obligated to answer any questions. Deputy Seibold stated he understood his rights and he had ample time to gather his thoughts and prepare himself for the interview. Deputy Seibold advised there was nothing from hindering him from providing a statement.

At the time of the incident, Deputy Seibold was not sick or injured. He did not receive any injuries as a result of the incident. He was not suffering from any medical condition or taking any medication that may have impaired his abilities as a law enforcement officer. Deputy Seibold

slept the evening prior to the incident for approximately eight hours and had not consumed any alcohol in the 24 hours preceding the incident.

At the time of the incident, Deputy Seibold had been employed as a Deputy with the SCSO for approximately nine and a half years. Deputy Seibold had been employed in the field of law enforcement for approximately thirteen years to include employment with the Los Angeles County Sheriff`s Office for approximately three years.

Deputy Seibold held the collateral assignments of SWAT team member, Use of Force instructor, and Field Training Officer at the SCSO. Deputy Seibold attended an 80 hour SWAT School as part of his training as a SCSO SWAT team member. As a member of the SWAT team, Deputy Seibold had received extensive firearms and less lethal weapons system training including specific training on the use of the 40 mm less lethal munitions delivery system.

At the time of the incident, Deputy Seibold was working as a Field Training Officer and had Deputy Trainee Aziz Atallah with him. Deputy Seibold was assigned to Main Office cover shift Sunday through Wednesday, 1400 until 0200 hours and started his shift on 01/30/2017 at 1400 hours and utilized the call sign J34. Deputy Seibold`s assignment was a uniformed assignment and he had been in the assignment for approximately five months. Deputy Seibold`s assigned patrol vehicle was A824, which he utilized as additional cover while the incident unfolded.

Deputy Seibold was wearing his assigned Sonoma County Sheriff's Office uniform. He was equipped with a forty millimeter less lethal munitions launcher he used in both his roles as a SWAT team member and Patrol Deputy. Deputy Seibold deployed his 40 millimeter less lethal munitions launcher during the incident. Deputy Seibold was also equipped with a body worn camera.

Deputy Seibold described the event, including the time of the event, names of witnesses, names of officers as best as he could recall, including all the information he could remember relative to the circumstances.

Deputies Seibold and Atallah were at the SCSO Main Office report writing room when he overheard via patrol radio a fellow deputy, who`s voice he didn`t recognize, transmit he was out with a man with a gun in a parking lot. Deputy Seibold heard the deputies on scene request a less lethal munitions launcher be brought to the scene and that Sam-3 (Sergeant J. Ryan) was responding with the supervisor's 40 mm. Not knowing where Sgt. Ryan was responding from, Deputy Seibold retrieved a less lethal munitions launcher from the SWAT locker at the SCSO Main Office and placed it in his patrol car. Hearing the circumstances the man was armed with a firearm, Deputy Seibold also retrieved his rifle. As Deputy Seibold was retrieving his equipment he remembered overhearing radio traffic something to the effect the armed subject in the vehicle was non-compliant.

Deputies Seibold and Atallah responded to the scene and pulled into the parking lot on the south side as they were requested to. Deputies Seibold and Atallah exited their patrol vehicle and started moving up to where the other deputies were positioned. As Deputy Seibold did this he

realized there was no less lethal munitions launcher on scene so he ran back to his patrol car and retrieved the one he brought.

Deputy Seibold knew Deputy Parks and his canine partner were on scene from hearing radio traffic transmitted by Deputy Parks. Knowing Deputy Parks' canine partner, "Jags" was on scene, Deputy Seibold believed "Jags" would be the first line of defense if the subject got out of the vehicle. Deputy Seibold explained in a tactical situation, it is a normal practice to simultaneously fire a sponge round/less lethal projectile at the same time the canine is sent to engage the suspect. Deputy Seibold positioned himself to the side of the patrol car Deputies Parks and Matelli were using as cover. Deputy Seibold realized there were too many people using that patrol car as cover and the patrol car was positioned in such a way he was unable to locate adequate cover for he and Deputy Atallah for the circumstance the subject was armed with a firearm. Deputy Seibold had Deputy Atallah go back and retrieve their patrol car and bring it up closer to the scene so they could use it as cover. Deputy Seibold took a position of cover on the right side of the vehicle behind the passenger side door, leaving Deputies Parks and Matelli at the previous patrol vehicle. From his vantage point, Deputy Seibold had a good view of the foggy back window of the suspect vehicle and could see driver`s side back window, the driver`s window, and a view of the suspect`s arm.

Deputies Parks, Matelli, and Seibold formulated a plan that if the subject exited his vehicle, moved approximately five feet from the vehicle and was still non-compliant, Deputy Seibold would fire a less lethal projectile while Deputy Parks released his canine. The goal in doing so would be to prevent the suspect from re-entering his vehicle.

Deputy Seibold described how the suspect would open and close the door to his vehicle several times throughout the duration of the incident. Deputy Seibold remembered that on each occasion, deputies on scene announced whether or not they could see the suspect`s hands and if the suspect was holding anything. Deputy Seibold believed if the suspect turned towards personnel with the gun in his hand, any one of them could have been shot. Deputy Seibold stated if the suspect were to shoot through the back window of the vehicle, the only object available for cover was the passenger door to his patrol car.

Deputy Seibold continued to formulate the plan with Deputies Parks and Matelli and confirmed if the suspect exited his vehicle and was non-compliant, Deputy Seibold would fire a less lethal sponge round at the suspect. If the suspect were to exit his vehicle and complied, they would use verbal commands to take him into custody.

Deputy Seibold remembered hearing Deputy Valencia using the PA system on a patrol car, speaking in Spanish, and trying to coerce the suspect to exit his vehicle. Deputy Seibold described the tone utilized by Deputy Valencia as being not aggressive, but was more of a sympathetic tone.

At one point, the suspect opened the door to his vehicle and put one foot out but Deputy Seibold could only see one of the suspect`s hands. Deputy Seibold described how the suspect did this several times and believed he was contemplating exiting the vehicle because the suspect kept

looking at the deputies. While the suspect did this, Deputy Seibold overheard several of the deputies say they could see something in this lap which they ultimately determined to be a cell phone.

An unknown amount of time went by and the suspect opened his door again and placed both feet outside of the vehicle. Deputies Seibold and Parks had a conversation about only seeing the suspect`s hands and one leg and how a sponge round at twenty yards would only bother the suspect and not incapacitate or coerce him to exit his vehicle. It would more than likely make the suspect retreat back into his vehicle. Deputy Seibold decided not to fire the sponge round at that time. The suspect shut the door again.

Another unknown amount of time went by as Deputy Valencia continued to coerce the suspect out of his vehicle. At that time, Deputy Seibold remembered the door of the suspect`s vehicle opened again and the suspect stood up in the opening of the doorway. Deputy Seibold stated they needed the suspect to clear (walk away from) the doorway of the vehicle so if Deputy Parks` canine engaged the suspect, he would not be able to pull it into the vehicle or retrieve the firearm.

Deputy Seibold knew there was approximately 20 people in the church though he did not know if they had been evacuated. Deputy Seibold was also mindful there were several houses/residences behind where the suspect's vehicle was located.

Deputy Seibold continued to explain how the suspect was standing in the open doorway of his vehicle continually changing where he would look, from looking at the deputies and looking into the passenger compartment of his vehicle. Deputy Seibold said the suspect did not look confused, but more like he was trying to figure out what he was planning to do.

Deputy Valencia convinced the suspect to step away from his vehicle. As the suspect began to walk towards the deputies, but not having cleared the door to his vehicle, Deputies Parks and Seibold said they couldn`t let the suspect back in the car. Deputy Seibold remembered talking about the suspect coming out of the vehicle with a gun at this point, but it was determined to be a cell phone. Deputy Seibold described the suspect as standing in the doorway to his car with his hands on the post of the car and as he saw this, he noticed there is nothing in the suspect`s hands. The suspect then started to go back into the vehicle and knowing he couldn`t let the suspect back into his car, Deputy Seibold fired one sponge projectile from his less lethal munitions launcher. The suspect arched his body and the next thing Deputy Seibold heard was another round going off next to him. Deputy Seibold discarded the 40 mm less lethal munitions launcher and grabbed his rifle from the passenger seat of the patrol vehicle. Deputy Seibold focused back onto the suspect and heard talk of a gun and that "Jags" had been deployed. Deputy Seibold stated the canine pulled the suspect away from the firearm and his hands came out from underneath him.

The suspect did not respond to the deputies` commands to come back to them so Deputy Seibold stated they had to approach. Several deputies approached the suspect from different angles and Deputy Seibold remembered one of them saying "Get the gun out of the way! Get the gun out of the way!" Deputy Seibold did not know who got the gun away and when he realized there were

plenty of deputies tending to the suspect he stepped away. Deputy Seibold saw Deputy Matelli get on top of the suspect, flip him over, and start life saving measures. Deputy Seibold knew the fire department/EMS was staged nearby and heard someone say clear the spike strips (which had been placed in the exits to the parking lot in case the suspect attempted to drive his vehicle from the scene) so fire and EMS could enter the scene. Knowing the situation was secured, Deputy Seibold returned to his patrol car, checked on his trainee, and sat down in his patrol car awaiting further instruction from supervisors on scene.

Deputy Seibold described the parking lot as sporadically lit, but explained the scene was pretty well lit from the lights of the patrol cars, specifically the spotlights and takedown lights. Deputy Seibold described it being dark outside and knew the incident occurred after 1900 hours because SCSO Graveyard deputies were on duty when the incident occurred.

Note: At the time of the incident the scheduled SCSO Graveyard shift was from 1900 hours until 0700 hours.

Deputy Seibold estimated his distance from the suspect at roughly 20 yards.

Deputy Seibold stated Deputy Valencia was giving commands in Spanish, but while responding to the scene, heard over the radio that deputies were giving commands in both English and Spanish.

During the incident, Deputy Seibold felt the risk to the deputies on scene was "pretty high". Deputy Seibold explained how the suspect turned his head, covered his eyes, and looked around which made Deputy Seibold believe the suspect was "target seeking". Deputy Seibold further described how he felt he was underpowered with the 40 millimeter less lethal munitions launcher since he didn`t have good coverage from the engine block of the patrol vehicle due to the way it was positioned.

Deputy Seibold stated the incident was recorded on his Body Worn Camera and he had not reviewed the footage prior to the interview.

Deputy Seibold stated he has been trained and certified in the use of the 40 millimeter less lethal munitions launcher.

<u>Deputy Juan Valencia</u>

Based on the aforementioned statements, a review of Deputy Valencia's report was conducted. The following is an excerpt from his report:

"On 01/30/2017, at approximately 2050 hours, Windsor Deputy Patrick advised via Sheriff`s radio he had a suspect at gunpoint in a parking lot ([redacted]). Deputy Patrick advised that the suspect was armed with a handgun and not responding to commands.

Windsor K-9 Deputy Parks and I responded with lights and sirens from the Windsor Police Department to [redacted] Old Redwood Highway. Prior to our arrival someone on scene asked for the next incoming unit to approach the parking lot via the south entrance located on Old Redwood Highway. I arrived on scene at approximately 1852 hours, and activated my department issued Body Worn Camera (BWC). I drove to the back parking lot and observed a dark colored sedan in the middle of the lot. I illuminated the vehicle with the patrol vehicle`s overhead spot light and observed a male sitting in the driver seat, who was later identified as (OF) Luis Alberto Santiago Olmedo. Luis appeared to be distraught and crying. I parked my marked patrol vehicle with the front end-facing in a northern direction. I exited my patrol vehicle which was now being used as cover.

I was able to provide dispatch the vehicle`s license plate information. Dispatch stated the vehicle was registered to Luis. I began giving orders to Luis via-the P.A. in English and Spanish. Within a minute of arriving on scene, the driver`s door opened. I identified myself as a Deputy Sheriff. I observed a black phone on his lap, the phone was plugged in and on. Luis ignored my commands and closed the driver`s door. During the incident, I repeatedly ordered Luis to get out of the vehicle with his hands up and without a handgun. I also told Luis we were here to help him.

I requested for a Sheriff`s unit to respond to [redacted] Road, which was the address associated with the vehicle`s registration. At the residence they contacted a family member who stated Luis was suicidal and had attempted suicide in the past. It was also discovered that Luis only spoke Spanish. After obtaining this information, I only engaged Luis in Spanish. At times, I asked Luis to roll down his window to engage in a conversation.

At 23 minutes, Luis opened the driver`s door. I continued ordering Luis to exit the vehicle. During the contact he had a black item on his lap which I recognized as a cell phone. Luis shut the door to the vehicle at 27 minutes. A few seconds later, Luis then exited his vehicle and it appeared as if he was trying to see where patrol units were located. It appeared as if Luis was building up the courage to confront law enforcement. Luis had every opportunity to surrender. Luis was shot with a less lethal round and handgun during the incident. First Aid was provided to Luis for his gunshot wound. I notified dispatch that shots had been fired and medical personnel were needed.

Bells Ambulance Medic 681 responded to the scene and rendered aid to Luis. Luis was transported via-ambulance to Santa Rosa Memorial Hospital. I rode in the back of the ambulance to obtain a dying declaration. It should be noted that I had my BWC on the entire ride to the hospital.

Lieutenant Duke asked for my assistance in interviewing one of Luis` family members at the Windsor Police Department since they only spoke Spanish.

INTERVIEW WITH [redacted]:

I initially called [redacted] to obtain his physical address to contact him for an interview. I responded to his residence in Windsor and arrived at 0111 hours. [redacted] provided the following, in summary. [redacted] and Luis are related and speak often. On 01/30/2017, at approximately 2030 hours, [redacted] received a phone call from Luis. [redacted] invited Luis to come over and hangout with him. Luis stated that he might not make it to the residence. [redacted] stated that something did not seem right with Luis. After waiting approximately 15 minutes, [redacted] called Luis after he had not arrived. Luis did not answer. Luis then called [redacted] back and began asking for forgiveness. Luis told him that he was going to commit suicide. Luis stated that he was attempting to talk Luis out of it. [redacted] asked Luis if he was armed and he said, "No." Luis stated he couldn`t live any longer. Luis told [redacted] that he was at [redacted], in Windsor. [redacted] drove to the Church and when he got there observed the police activity. [redacted] was on the phone with Luis as negotiations were going on. [redacted] was afraid that Luis was possibly armed with a gun. [redacted] was trying to convince Luis to surrender. [redacted] stated Luis was afraid to surrender. [redacted] observed and heard me attempting to engage Luis and have him surrender. [redacted] stated he continued telling [redacted] that he wanted to die during the incident. [redacted] stated that he has spoken with Luis in the past and was aware of his prior suicide attempt. [redacted] stated that Luis was suicidal because of his homosexuality.

[redacted] also mentioned that [redacted], Luis` roommate had located a hand written note which read, "Te amo quiquito Bebe E Y L." The shirt was located in Luis` bedroom on top of his bed. The interview was concluded 0126 hours.

INTERVIEW WITH [redacted]:

On 01/31/2017, at approximately 0205 hours, I responded to [redacted], to speak with [redacted], regarding Luis. [redacted] provided the following, in summary. Luis moved into the residence in April of 2016, and rents one of the bedroom located next to the kitchen. [redacted] met Luis through family and was aware of his prior suicide attempt. Luis has never given [redacted] any problems at the residence and keeps to himself. [redacted] has seen Luis in the past playing with a black handgun which he described as shooting a small round projectile similar to a bb gun. [redacted] told Luis not to play with the gun in the house because he has a young daughter. [redacted] stated the handgun looked real.

[redacted] last spoke with Luis on 01/30/2017 between 1800-1900 hours, as he exited the residence. Luis told [redacted] he was going out. Luis did not seem distraught at the time.

[redacted] stated he received a call from [redacted] about what had happened. [redacted] walked into Luis`s bedroom and located a Grey T-shirt with a phrase written on it with a black marker. The shirt had "Te amo quiquito Bebe E Y L" written on it. The shirt said "I love you little baby." [redacted] gave the shirt to me. I later photographed the shirt. I booked the shirt into evidence as item # 1-JV. The interview was recorded by my BWC. The interview was concluded at 0219 hours."

End of narrative.

Conclusions and Findings

In comparing and contrasting the actions of Deputies Parks and Seibold with the Sonoma County Sheriff Office's policy and procedures; I believe the deputies acted within the best practices of the industry standards, within the expectations of the Sonoma County Sheriff's Office and within the parameters of the Sheriff's Office policy and procedures.

Federal Case Law, Graham v. Connor, concludes in its findings that;

> "The right to make an arrest carries with it the right to use objectively reasonable force. In determining whether force used by an officer is objectively reasonable, all of the facts and circumstances with which the officer was confronted are considered including:
>
> 1. The information available to the officer at the time of the incident;
> 2. The actions of the suspect;
> 3. Whether the suspect reasonably appeared to be a threat to the officer or to other persons;
> 4. The severity of the crime of which the individual was suspected.

California Penal Code Section 835a states:

> "A peace officer who makes or attempts to make an arrest need not retreat or desist from his efforts by reason of the resistance or threatened resistance of the person being arrested; nor shall such officer be deemed an aggressor or lose his right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance."

Following the guidelines in the aforementioned federal case and California law; Deputy Parks' use of deadly force was reasonable based on Olmedo's actions of presenting a firearm as he exited his vehicle, subsequently creating the perception of a threat to life.

The following policy, procedures, or protocols were reviewed:

Sonoma County Sheriff's Office Department-Wide Policy and Procedure:

Press Release Policy
Radio Policy
Critical Incident Debriefing/Defusing
Major Incident Notifications
300-Use of Force
Authorized Firearms

Sonoma County Sheriff's Office Law Enforcement Division Policy:

308- Less Lethal Control Devices
318-Canine
400-Patrol Functions

414-Hostage and Barricade Incidents
425- Body Worn Camera

Sonoma County Sheriff's Office 'Department-Wide Policy and Procedure':

Press Release Policy

The purpose of this policy is to ensure that we, as a Department, provide a fair and consistent release of information regarding the Department's activity to the community.

Suicidal Windsor resident armed with replica firearm shot by deputy. https://local.nixle.com/alert/5838787/
On Monday, January 30, 2017 at approximately 8:33 PM the Sonoma County Sheriff's Dispatch Center received a 911 wireless hang up call. 911 Dispatchers attempted to call the number back and there was no answer. A dispatcher left a message on the voicemail and at 8:39 PM they received another call from the same number. The caller spoke Spanish, stating he was at the [redacted] in Windsor and asked for an interpreter. As 911 dispatchers were connecting him with a Spanish interpreter the caller hung up again.

Deputies responded to the church to check on the welfare of the caller. There was a function taking place at the church upon their arrival at 8:43 PM. Deputies contacted the parishioners and there didn't appear to be any problem. The deputies then checked the rear parking lot and noticed one car, a red Nissan Maxima was occupied by a man sitting in the driver's seat. As the deputies approached the car they noticed the man was crying and talking on his cellular phone. As they got closer they saw that the man had what appeared to be a black semiautomatic handgun in his right hand, holding it to his side.

Deputies retreated and called for backup. Several more deputies responded, including a Spanish speaking deputy. The man opened the car door several times, got out then retreated back into his car, disobeying the deputy's commands. During this time, deputies staged an ambulance and attempted to keep the public safe by evacuating the church and several residences in the immediate area. CHP Officers also assisted by blocking roads. Deputies also blocked the exit so the suspect wouldn't be able to drive out and endanger the public.

Deputies continued to negotiate and deescalate the situation until 9:21 PM, at which point they had the man out of the car but he kept concealing his hands. The man went back towards his car at which point a deputy expended a less lethal foam tip projectile against the man. The man turned towards another deputy with the handgun at which point the deputy fired one round from his handgun, striking him in the center torso area causing the suspect to drop his weapon. The man fell to the ground and concealed his hands under him and the deputy deployed his canine and the man was quickly taken into custody. Deputies then immediately rendered first aid. The awaiting ambulance responded and took him to Memorial Hospital where he is being treated and is expected to recover from his injuries.

The deputies later determined that the man's handgun was in fact a BB gun that was a replica of an actual semiautomatic handgun. The man is identified as Luis Alberto Olmedo, a 25-year-old Windsor resident.

This incident is still under investigation by the Sonoma County Sheriff's Office's Violent Crimes Unit. The county-wide fatal incident protocol was not invoked as Mr. Olmedo is expected to survive his injury.

Depression and suicide are a serious health concern. If you or a loved one are experiencing thoughts of suicide, you are encouraged to call the Sonoma County Emergency Mental Health Hotline at 1-800-746-8181. There are trained counselors on duty 24/7 to help you with your immediate concerns and interpreters are available. For more information about suicide prevention, please see the County of Sonoma Health Services website: http://www.sonoma-county.org/health/topics/suicideprevention.asp.

Media Inquiries: Chief Carlos Basurto, Windsor Police Department
707-838-1234
Prepared by: Sgt. Spencer Crum

Findings: No violation noted.

Radio Policy

The purpose of this policy is to set guidelines for the radio system and the conduct of those using it. The radio system is designed to utilize the radio to communicate "calls for service, to enhance and support officer safety, to coordinate information and activity between field units, and to provide incident documentation."

A review of this incident did not reveal any policy violations. A copy of the Computer Automated Dispatch (CAD) log was attached to this report. The original CAD log was 70 pages however, I attached only 16 pages, discontinuing the event at the point the event was over and the suspect was at the hospital.

Findings: No violation noted.

Critical Incident Defusing/Debriefing

The purpose of this policy is to provide members, who have been exposed to incidents that involve traumatic injury or death, a means to minimize potential health problems by discussing and receiving support for their involvement.

Deputy Parks was aware of the peer support program however he could not recall if he was made aware of the availability of a chaplain or peer support prior to the criminal investigation interview. He was aware there was a debriefing and attended it.

A review of this incident did not reveal a policy violation.

Findings: No violation noted.

Major Incident Notifications

The purpose of this policy is to ensure everyone who is required to be notified within the Department about a major incident be advised of such. In this case everyone was notified as required by this policy.

A review of this policy did not reveal any policy violations.

Findings: No violation noted.

Use of Force

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation; every deputy of the Sonoma County Sheriff's Office is expected to use these guidelines to make such decisions in a professional, impartial and reasonable manner. Even at its lowest level, the use of force is a serious responsibility and the Sonoma County Sheriff's Office recognizes the need for constant evaluation.

The policy states that:

> "Deputies shall use only that amount of force that reasonably appears necessary given the facts and circumstances perceived by the deputy at the time of the event to accomplish a legitimate law enforcement purpose.
>
> "The reasonableness of force will be judged from the perspective of a reasonable deputy on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that deputies are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain, and rapidly evolving.
>
> "Given that no policy can realistically predict every possible situation a deputy might encounter, deputies are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident.
>
> "It is also recognized that circumstances may arise in which deputies reasonably believe that it would be impractical or ineffective to use any of the tools, weapons, or methods provided by the Office. Deputies may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate law enforcement purpose.
>
> "While the ultimate objective of every law enforcement encounter is to avoid or minimize injury, nothing in this policy requires a deputy to retreat or be exposed to possible physical injury before applying reasonable force."

When determining whether to apply force and evaluating whether a deputy has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit. These factor include, but are not limited to:

(a) Immediacy and severity of the threat to deputies or others.
(b) The conduct of the individual being confronted, as reasonably perceived by the deputy at the time.
(c) Deputy/suspect factors (age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of deputies available vs. suspect(s).
(d) The effects of drugs or alcohol.
(e) Suspect's mental state or capacity.
(f) Proximity of weapons or dangerous improvised devices.

(g) The degree to which the suspect has been effectively restrained and his/her ability to resist despite being restrained.
(h) The availability of other options and their possible effectiveness.
(i) Seriousness of the suspected offense or reason for contact with the individual.
(j) Training and experience of the deputy.
(k) Potential for injury to deputies, suspects, and others.
(l) Whether the person appears to be resisting, attempting to evade arrest by flight, or is attacking the deputy.
(m) The risk and reasonably foreseeable consequences of escape.
(n) The apparent need for immediate control of the suspect or a prompt resolution of the situation.
(o) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the deputy or others.
(p) Prior contacts with the suspect or awareness of any propensity for violence.
(q) Any other exigent circumstances.

In regards to when a deputy may use that force, and when it is justified, the policy states:

> "A peace officer who makes or attempts to make an arrest need not retreat or desist from his/her efforts by reason of resistance or threatened resistance of the suspect being arrested; nor shall such officer be deemed an aggressor or lose their right to self-defense by the use of reasonable force to effect the arrest or to prevent escape or to overcome resistance."

A deputy may use deadly force to protect him/herself or others from what he/she reasonably believes would be an imminent threat of death or serious bodily injury.

Deputy Parks was aware of several factors that led him to believe Olmedo presented a threat of great bodily injury or death to personnel present on scene to include the suspect's possession of a handgun, his distressed behavior and his failure to comply with orders.

Findings: No violation noted.

Authorized Firearms

The purpose of this policy is to ensure that there is an established procedure for the use and reporting of incidents involving the discharge of firearms. It also ensures that a member of this Department who uses a firearm, has successfully passed a Department approved qualification course.

In reviewing Deputy Parks' shooting records, they indicate he qualified for the third and fourth quarter of 2016, as required by this policy.

The policy also describes when a deputy may use a firearm;

> "To protect him or herself or others from what they reasonably believe would be an imminent threat of death or serious bodily injury."

Deputies Parks, provided a verbal account as to what happened to VCI detectives. Deputy Parks used the firearm he qualified with when he believed his life and the lives of others were

threatened based on Olmedo's actions, in that, he possessed a handgun, and his actions with that handgun threatened the lives of the deputies.

In further review of this policy, under sections 304.2 Reporting and 304.3 Investigations, it states that the involved deputy (who uses his firearms) as well as his supervisor shall write memorandums regarding the use and circumstances respectfully. The only exception is if the Sonoma County Law Enforcement Chiefs Association countywide Protocol 93-1 (commonly known as the 'Employee Involved Fatal Incident Protocol') is invoked.

In this instance, the Employee Involved Fatal Incident Protocol was not invoked based on a decision by Sheriff Freitas since Olmedo's injuries were not life threatening. Members of the Sonoma County Sheriff's Office Violent Crimes Unit completed the criminal investigation utilizing the format of the Sonoma County Sheriff's Office Critical Incident Guidelines Manual. Internal Affairs investigators completed this administrative review.

A review of this policy did not reveal any policy violations.

Findings: No violation noted.

Sonoma County Sheriff's Office Law Enforcement Division Policies

308 – Less Lethal Control Device-40 Millimeter

The purpose of this policy is to ensure there is an established procedure for the use and reporting of incidents involving the deployment of such weapons. In this incident, Deputy Seibold deployed one sponge projectile from his 40 millimeter less lethal control device. The projectile impacted Olmedo in the torso. I have included a portion of the policy reviewed;

308.1 PURPOSE AND SCOPE

To reduce and minimize altercation-related injuries to deputies and suspects, the Sheriff's Office authorizes the use of selected less lethal control devices. Certain less lethal control devices are provided in order to control violent or potentially violent suspects. It is anticipated that the use of these devices will generally result in fewer altercation-related injuries to deputies and suspects. The below procedures are for the use and maintenance of less lethal control devices (i.e. baton, oleoresin capsicum spray, tear gas, kinetic energy projectiles, PepperBall projectiles or XREP Shotgun projectiles). Deputies shall use only that amount of force that appears reasonable to effectively bring an incident under control, in accordance with the Use of Force policy.

308.13 WHEN DEVICES MAY BE USED

When a decision has been made to restrain or arrest a violent or threatening suspect, an approved less lethal control device may only be used when its use appears reasonable under the circumstances.

308.14 REQUEST FOR USE OF LESS LETHAL CONTROL DEVICES – LAUNCHED PROJECTILES

The request for a launched projectile less lethal control device to be used should be made through the on-duty Watch Commander or shift supervisor. The shift supervisor or the Watch Commander may authorize the use of such a less lethal control device by selected personnel or members of specialized units provided the person(s) authorized has/have the required training.

308.6 USE OF KINETIC ENERGY PROJECTILE(S)

The Sheriff's Office is committed to reducing the potential for violent confrontations with the suspects we encounter. Less lethal force technology and equipment are those items which, when used properly, are less likely to result in death or serious physical injury.

Less lethal technology includes several types of kinetic energy projectiles, approved by the Sheriff's Office, that fire from 12 gauge shotguns, 37 mm or 40 mm launchers. Kinetic energy projectiles can be used in an attempt to de-escalate a potentially deadly situation with a reduced potential for death or serious physical injury.

Kinetic energy impact weapons are restricted to trained members of the SWAT Team, Tactical Team, Patrol Supervisors and Court Security Bureau.

308.62 EXAMPLES OF CIRCUMSTANCES APPROPRIATE FOR DEPLOYMENT

Examples include, but are not limited to, the following types of situations where the suspect:

(a) Is armed with a weapon and the tactical circumstances allow for the safe application of less lethal munitions,

(b) Has made credible threats to harm himself or others,

I Is engaged in riotous behavior or is throwing rocks, bottles, or other dangerous projectiles at citizens and/or deputies.

Based on a review of this incident and the preceding policy, I have determined Deputy Seibold weighed the threat Olmedo presented to deputies, coupled with his possession of a firearm and his suicidal behavior, Deputy Seibold's 40 millimeter deployment was appropriate and within the policy of the Sheriff's Office.

Findings: No violation noted.

318 – Sheriff's Office Canine Program

The purpose of this policy is to ensure there is an established procedure for the use and reporting of incidents involving the deployment of such a canine. In this incident, Deputy Parks deployed his canine to control and assist in the apprehension Olmedo.

318.1 PURPOSE AND SCOPE

The Sheriff's Office Canine Program was established to augment patrol services to the community. Sheriff's Office canines are used to supplement patrol operations to locate and apprehend criminal offenders.

318.2 GUIDELINES FOR THE USE OF SHERIFF'S OFFICE CANINES

A Sheriff's Office canine may be used to locate and apprehend a suspect if the canine handler reasonably believes that the individual has either committed or threatened to commit any serious offense and if any of the following conditions exist:

(a) There is a reasonable belief that the individual poses an imminent threat of violence or serious harm to the public, any deputy, or the handler; or

(b) The individual is physically resisting or threatening to resist arrest and the use of a canine reasonably appears to be necessary to overcome such resistance; or

(c) The individual(s) is/are believed to be concealed in an area where entry by other than the canine would pose a threat to the safety of deputies or the public.

It is recognized that situations may arise that do not fall within the provisions set forth in this policy. In any such case, a standard of objective reasonableness shall be used to review the decision to use a canine in view of the totality of the circumstances.

Based on a review of this incident and the preceding policy, I have determined Deputy Parks weighed the threat Olmedo presented to deputies, coupled with his possession of a firearm and his suicidal behavior, Deputy Parks' canine deployment was appropriate and within the policy of the Sheriff's Office.

Findings: No violation noted.

400 – Patrol Function

The purpose of this policy is to define the functions of the Patrol Bureau. Based on the information gathered through this investigation, the deputies realized they were dealing with a suicidal subject who wanted the deputies to kill him to fulfill his desire to commit suicide. The deputies fulfilled the requirement to "respond to citizen calls for assistance." (400.11)

A review of this policy did not reveal any policy violations.

Findings: No violation noted.

414 – Hostage and Barricade Incidents

The purpose of this policy is to provide guidelines for barricade situations. A barricade is defined as, "An incident where a person maintains a position of cover or concealment and ignores or resists law enforcement personnel, and it is reasonable to believe the subject is armed with a dangerous or deadly weapon."

In this incident, the suspect barricaded himself in his vehicle, was armed with a handgun and ignored the commands of the law enforcement present. A review of this policy did not reveal any policy violations.

Findings: No violation noted.

425 – Body Worn Camera

The purpose of this policy is to provide guidelines for the use of the recording device. The policy states:

> "The purpose of body worn cameras (BWC) and audio recorders is to provide documentary evidence for criminal investigations, internal or administrative investigations and civil litigation. Members shall utilize the BWC's and audio recorders in accordance with the provisions in this policy to maximize the effectiveness of the audio/video documentation to achieve operational objectives and to ensure evidence integrity."

I completed a review of the BWC footage. The footage was consistent with the statements and evidence provided in this case.

A review of the BWC footage did not reveal any violations of the policy.

Body Worn Camera recordings available upon request.

Findings: No violation noted.

End of review.

SUBJECT: Administrative Review Investigation # 17-AR-0001

This memorandum will formally notify you that this office has been directed to conduct the above investigation, and further that you are the subject of that investigation.

This investigation is an Administrative Review of the circumstances surrounding an Officer Involved Shooting (OIS) which took place on January 30, 2017, near [redacted] Old Redwood Highway, Windsor.

There have been no allegations of misconduct or policy violations on your part. As the subject of an Internal Affairs Investigation, you have certain rights and obligations as provided for by the policy and law. For your convenience, I have included a copy of those rights and obligations.

You are not to discuss this investigation, or the allegations, with anyone other than your legal representative, Assistant Sheriff Rob Giordano, Captain Clint Shubel, Lieutenant Jim Naugle, Sergeant Brandon Austin, Sergeant Larry Doherty, or myself. This is a potentially serious matter and you would be wise to carefully follow these directives. Any violation of these directives will be considered an act of insubordination, and will certainly lead to disciplinary action against you, up to and including a termination of your employment with this Department.

In order to complete the investigation it may be necessary to formally interview you. If so, a representative of Internal Affairs may be in contact with you in the future to schedule the date and time of your interview.

Interviewer: Detective Jeff Toney with the Sonoma County Sheriff's Office.

Interviewee: Deputy Brian Parks with the Sonoma County Sheriff's Office.

Attorney: Michael Rains with Rains Lucia Stern St. Phalle & Silver.

Additional Interviewer: Detective Jayson Fowler with the Sonoma County Sheriff's Office

Interview Date January 31, 2017 @ 0436 hours

JT: Uh, go ahead and get started. If you go on the record. The time now is 0436 hours on Tuesday, January 31, 2017 and we're at, uh, [redacted] located at [redacted] Santa Rosa. Uh, this will be in reference to, uh, Windsor Police Department, Case No. 170130-005. Before we get started, I'm gonna have everybody go around the room, pardon me, and introduce their selves for the record. Uh, my named is Detective Jeff Toney. I'm with the Sonoma County Sheriff's Office Violent Crimes Unit.

BP: Uh, Brian Parks, uh, currently assigned to Windsor Police Department.

Other Speaker: Michael Rains, attorney and I am representing Deputy Parks.

Other Speaker: Detective Jason Fowler with the Sonoma County Sheriff's Office Violent Crimes Unit.

JT: Excellent. So, Deputy Parks this is a, a criminal investigation, uh, that we're investigating in, in, uh, you're bein' interviewed here, uh, this morning as a witness. Um, and I just wanna clarify that this statement that you are giving is, is, uh, is a voluntary statement. Is that true?

BP: Sure.

JT: Okay. And I also wanna clarify that, uh, during this, uh, this statement that you are providing at any point in time, uh, you choose to not answer any questions or you wanna take a break, uh, and stop talking and consult with your, uh, with your lawyer, you can do so. And have you had ample time to, to speak with your, your lawyer, prior to giving this statement?

BP: I have.

****

****

JT: Is there anything that would hinder you at this point from providing a statement?

BP: No.

JT: Okay. Deputy Parks, although you and I have had the opportunity, uh, to work with each other many times, uh, is it fair to say that, uh, you and I, uh, don't associate or, or, uh, do anything, uh, on a regular basis outside of work?

BP: That's correct.

JT: All right. And Deputy Parks, are you currently sick or injured? Did you receive any injuries as a result of this incident?

BP: No.

JT: At the time of this incident, were you suffering from any medical condition or taking any medication that may have impaired your ability as a law enforcement officer?

BP: No.

JT: Have you, uh, have you had ample sleep prior to this incident? Did you sleep?

BP: Yes.

JT: Uh, normal sleep?

BP: Yes.

JT: Did you consume a normal meal prior to startin' your shift?

BP: Yes.

JT: Pre-incident?

BP: ****.

JT: Have you consumed any alcoholic beverages in the last 24 hours?

BP: No.

JT: So, the nature of this investigation concerns a, a significant incident that occurred, uh, last night now, uh, in the Town of Windsor, uh, specifically in the area of, uh, around the property of our [redacted], uh, on old Redwood Highway in Alden Lane in Windsor. If you would, if you'd tell me what time you, uh, you started your shift, um, last night?

BP: I was **** just after 1:00 p.m. today. Uh, yesterday.

JT: Okay. And I'm gonna go back. I apologize, uh, how long have you, uh, worked as a, uh, a deputy with the Sonoma County Sheriff's Office?

****

****

BP: Uh, just over 12 and a half years.

JT: Okay. Any prior law enforcement, exper, experiences before that?

BP: 3 years at the Santa Rosa Junior College Campus.

JT: SRJC. Um, and if you could, um, kind of expand or tell me if you have any, uh, specialty training, um, such as, uh, firearms, uh, SWAT, um, etc.

BP: Um, I have three collateral assignments, uh, min, use of force or DT instructor for the past 5 years. Uh, I've been a canine handler for the last 3 and a half years, and in March, I would, might've been with the SWAT team, for, uh, 10 years.

JT: Okay. And if you could, just discuss your, uh, your present assignment.

BP: I'm currently assigned to, in Windsor as a canine handler –

JT: Mm hmm.

BP: – and I work Saturday, Sunday, Monday, Tuesday, 10 hour shifts. My, uh, hours are somewhat flexible but they're usually about 2 to midnight.

JT: Okay. And then if you would just tell me the nature gen, generally the nature of your duties as a patrol deputy?

BP: Uh, in there, uh, handle patrol, patrol ****, uh, primarily in Windsor, but throughout the county as well because of, uh, utilizing my canine.

JT: Okay. And your, the name of your canine partner?

BP: His name is Jags. Named after the Windsor Jaguars.

JT: Okay. And pre, pre-incident that we're speaking of now, what time did you start your shift?

BP: Uh, the shift was 2 to midnight, and, I got **** 1:00.

JT: Okay. And your call sign?

BP: King 8.

JT: And this is obviously, it's, it's a uniform assignment, correct?

BP: That's correct.

JT: Okay. How long have you held, uh, your current assignment?

BP: Uh, 3 and a half years.

JT: Okay. And you've had your partner for that long. Is that correct?

BP: That's correct.

****

****

JT: Okay. And, uh, you drive a, uh, specific vehicle, um, is that vehicle, uh, is it known as a numeric?

BP: Yeah, uh, W40.

JT: 40. Okay. And you mentioned this is a uniform assignment ****? What I'll have you do is just, uh, describe your uniform to me, um, from top to bottom, and if you would, uh, and your duty belt and what you carry on your duty belt. When you get to that point, if you just start from the center and work your way right and describe the, the tools that you have on your duty belt, please.

BP: Okay. I wear a, all green, uh, 5 11 uniform, uh, with yellow markings on the back that say, Sheriff Canine. My, uh, name is embroidered on the back around the front and I have an embroidered patch on my front as well. Um, I was wearing a body-worn camera in the center. Uh, pockets just have a, no **** handcuff key –

JT: Okay.

BP: – a pen, uh, working my way down to my belt. Uh, immediately to the right would be my handcuffs, uh, just right of that would be, uh, what we call a door pop, so it automatically opens the door on the vehicle to let my canine partner out, and then I have my Glock, uh, 17 –

JT: Okay.

BP: – 19 millimeter, and, um, two keepers back and a radio, a taser and, uh, two magazines for my Glock 17.

JT: Okay. With respect to your duty firearm, um, how many rounds do you carry, uh, in your duty firearm?

BP: Uh, 17 plus 1, 1 being in the chamber.

JT: Okay. And then your two spare magazines, what are, what are those loaded to?

BP: The normal was for me is usually 16, 16 and H just to make magazine chambers a little bit, uh, ****.

JT: Okay. And then do you, uh, do you carry a backup firearm?

BP: Normally.

JT: Okay. During this incident?

BP: Yeah.

JT: Okay. So, as I said earlier, the nature of investigation concerns a significant incident that you were involved in, and what I'd like you to do is, is, uh, kinda describe what you did,

****

****

uh, where you were when you got the call, how you reacted and just take me through it step-by-step –

BP: Okay.

JT: – uh, as detailed as possible. Um, if you know, um, the people, uh, that were with you, next to you, uh, state their names for me.

BP: Okay.

JT: Um, if you wanna describe somethin' and you're usin' your body, you might hear me, you know, pause and, and explain what your, uh, showing me, uh, because this is audio recorded, uh, and not video recorded. So, that'll just help us explain the process a little bit further. Uh, so, go ahead please.

BP: So, uh, I'll start with ****. Like I said earlier, about 1:00, about, uh, just after 8:00, uh, I was sittin' at a computer inside the Windsor Police Department and I was workin' on a Powerpoint presentation, um, Juan Valencia was sitting behind me and, uh, he was listening to an audio recording, uh, of a jail phone call. Uh, I remembered that, uh, **** training was **** to, uh, to a 911 wireless call, and, uh, at that point, I don't even know where I, I just heard that was a 911, a 911 wireless call and we get those often and it wasn't anything that really raised the hair on the back of my hair or anything like that, but, uh, you know, I, I made note of it. Uh, I would say, uh, as time went on and several minutes went by and, uh, he, uh, he got on the radio. He sounded a little bit, uh, well, excited and, uh, he said, uh, he was out with a man with a gun in the parking lot. That's what I heard. Just a man with a gun in the parking lot –

JT: Mm hmm.

BP: – um, I wasn't sure where he had responded initially, so Juan and I kinda communicated and I went to my computer and found out that he was at the intersection of Alden and Old Redwood Highway. At that point, I didn't even know that he was at the [redacted] –

JT: Mm hmm.

BP: – uh, but I yelled to Juan, hey, that's where, that's where he at so that's where I started heading. Um, I responded to Air Code 3 and, uh, on my approach I asked him what was a safe direction to come in. Um, while responding there, I overhead him say on the radio that, uh, describing what he had seen. Um, and, uh, getting into detail about the firearm, uh, a black semi-automatic handgun. Um, I didn't know the suspect at this time, we're gonna hear, uh, uh, Ryan Patrick say it, uh, that that guy was hidden in a vehicle and, uh, **** time. Uh, but I responded from the west on Old Red, so it'd be literally north on Old Red, I guess. Turned left on Alden Lane and parked behind two patrol cars, parked facing southbound towards the parking lot. I looked in the distance in the parking lot, and, uh, there wasn't many, I, I don't remember any vehicles being directly around the vehicle I saw but it was, uh, like a burgundy colored, uh, Nissan and, uh, a vehicle was

****

****

parked looking at it just to the right and it was a patrol car and, uh, the patrol car had illuminated the red vehicle with its, uh, spotlight. Um, I, uh, immediately got my canine and, uh, I assumed at that point that that's where the suspect was but I still wasn't a hundred percent positive until I got outta my patrol car and saw a gentleman sitting in the car. Um, at that point I, I kinda just basically scouted the area. I wanted to make sure that this problem was contained and, uh, public safety was my first initial thing. It was just how do we keep this, uh, how do we keep this guy contained –

JT: Mm hmm.

BP: – and keep him from leaving and make sure that this problem doesn't go into, maybe a hostage situation or something worse. I coordinated the next vehicle to approach, uh, from the south, the south entrance of [redacted], knowing that there's two exits to this church and I wanted to make sure that they had blocked the road there. As this vehicle, to my knowledge, at this point, was probably mobile. I didn't see anything that, um, any signs of obvious accident or anything like that which would indicate to me that, uh, he wouldn't be able to turn on the car and try to leave, and at this point, we were dealing with a man with gun. Um, so I kinda went around the location. I stopped at the front of the vehicle behind a patrol car and I was probably about, uh, about 60 feet away from this time and, uh, at this vantage point it wasn't too good for me so I continued to work my way south, through the parking lot until I ended up, uh, until I ended up at the rear of the vehicle, but closer to the driver's side. So, if I were to draw a picture, the vehicle would be pointing straight ahead to my north. I would be off to the left where I can have a good vantage point, uh, right when the driver's side door opened, I'd be looking directly into it and it just so happened, Juan Valencia's car, Juan Valencia was at a patrol car. I don't know if it was his car or not. He had the driver's side door open and, uh, he was communicating with the gentleman in the vehicle, via PA in both Spanish and English. Uh, just prior to that, actually back up, let me back up a little bit, just prior to that, prior to making **** at that point, uh, I asked just a few questions 'cause dispatch had come up with a name, the name I did not hear. Um, maybe the registered owner. I don't know at this point. I'm just making assumptions –

JT: Mm hmm.

BP: – and, uh, came up with a name, so I asked dispatch to, uh, run a record's check on the man to see if there was any firearms or **** –

JT: Mm hmm.

BP: – **** and run a criminal history check on him as well **** tryin' to, hey, what's this guy's mindset, you know, what, what is he here for. Uh, a minute or two passed and that's when, uh, and they came back and, uh, there was no criminal history and no firearms registered to him. Um, but the intelligence at hand right now was from Ryan

****

****

Patrick, was when he approached the guy, he saw a firearm in the guy's hand, a black semi-automatic handgun. So that's what, what I was really going on. But I, I wanted to know if there was anything else that could potentially be in that car. Um, I also communicated with my partners that based on the crime at hand, um, a man that possessed a firearm, possibly brandish that firearm, I didn't get into that detail with Ryan Patrick, but if that guy were to leave his vehicle unarmed and were attempt to go back to his vehicle I communicate with the guys, hey, he's more than 5 feet out, I will send my canine partner, um, 'cause ultimately I feel that's gonna be the **** anything that happens to him and more of a story. I didn't want him to get back into that car and arm himself. So, if he was unarmed and cooperative, we'd gladly taken into custody. If he was armed, then I don't know what would have happened. Um, it would have been a different circumstance. But if, uh, he came out unarmed and try to go back to his car I wanted to make sure that I communicated with my partners, hey, I got the less lethal right now. It is my canine and I'll go ahead and send it before that guy gets, gets back into that vehicle. He opened the door a couple of times, um, you can see his hands appearing and disappearing. He looks somewhat distraught. I don't, I didn't see any obvious signs of intoxication or under the influence by the way he was moving, you know, no slow movements or anything like that. Um, but he did look distraught. I didn't see him communicating with Juan at all. For all intents and purposes, I truly believed that he, he wanted us to, he wanted to commit suicide by cop and, uh, the deputies around him were doing everything they could to prevent that from happening. Uh, we coordinated, uh, we coordinated some, uh, evacuations from residences on the backdrop, uh, where if rounds were to go would be expended, uh, that these residences would be cleared and people would be safe. So, again that was just a, kind of a public safety thought. We also, I also indicated that I wanted a plan on when the vehicle did go mobile or if it did go mobile. What was our plan to stop it? To prevent it from getting outside this perimeter and possibly causing harm to the public. Uh, we came with, uh, putting some spike strips on the, just the exits. Um, I never saw them there. I don't if that plan was actually taken into action but it's something that, uh, Gillette and I had talked about. Um, anyways, to go, go back, I ended up postin' that the passenger side of probably the closest vehicle to the, uh, the vehicle that the suspect was in, the red Nissan, and, uh, at my advantage point, I would say I was anywhere from 30 to 40 feet from the guy. That's just an estimate. I never pace it off. I didn't do anything like that, but it looked, it looked 2, 2 and a half, 3 cars length. It's hard to tell. Larry Matelli was at the same spot I was. He had deployed his long rifle. Um, I work with Larry on the SWAT team. I was comfortable with the position he had taken and I also scouted the area to make sure that most of the deputies around there, hey, are we usin' some kinda cover and, uh, from everything I saw people took pretty good positions. I deployed just on the passenger front tire, just behind an engine block and that's where I remained the majority, uh, of this situation that

****

****

probably took an estimated, uh, I'd say I was there from 25 to 35, 40 minutes. It was just me kinda givin' an estimate. Again, just he kinda, he was not showin' his hands at the time. He would crack the door. At one point, he went to go reach for somethin' and everybody on scene would say, hey look, empty hand, okay, that's just the cell phone. Um, we were doin' out best to communicate with each other when every time he moves that we, we saw what we saw and wanted to make sure everybody, that were sure of this. So nobody and everybody exercised that, uh, due diligence to not, you know, ultimately put this guy down if he were to reach for something other than a, other than a firearm, right? So, as time progressed, uh, he ultimately, uh, got outta the car once and the reason I'm kinda tellin' you all this is because there's some communication that you can probably capture on my body camera that, uh, I said, hey, look, Larry, what do you think man. You think I should sell, send my dog right now because I thought at this point that it might be lesser of anything that's gonna happen. However, I don't like to send my canine to a suicide mission. I didn't want my dog to get hurt as well, so, um, he was, had opened the door and positioned himself just between the door and the door jam, but he was outside the vehicle and he was there for probably a good minute and it looked like he was, it looked like he was gonna surrender and actually walk towards us. Um, but he ultimately didn't. He got back in the car and that opportunity was kinda lost when. So, what I did is, is since I'd been sitting there for 15, 20 minutes and my dog was not, A. Losing interest, but, B. Sometimes I just need to get a little break so I kinda actually backed off and as soon as I backed off, um, again, I kinda now was out from that position where I was behind the engine block and a little bit outside, probably not in the best spot, he'd opened the door again. So I ****, uh, I, uh, you know, had my handgun out the majority of the time. Dog in one hand. Handgun in the other, and, uh, he opened the door again. I see him come out and now he stood in the same position he was. He was, uh, basically facing the vehicle, door open, not all the way but maybe about half way facing his car. I'd seen him just kinda look and when he looked, it looked like he's just gonna, he's gonna go for whatever he's looking at in the car and, um, I couldn't see one of his hands at that point. He went in and he grabbed an object and, uh, at that point I was probably 95 percent sure it was a handgun, the black handgun that was described to me by Ryan Patrick, but I wasn't positive at this point, and, uh, so I actually, you know, uh, I don't know if the wisest decision, I gave him the benefit of the doubt and, uh, although I felt, hey, my, my life and my partner are probably in danger right now, hey, were, we were in pretty good positions right now. Let's just, let's just remain calm and see if we can get through this and, uh, he ultimately, uh, went back and when he grabbed it he kinda turned and that's when Deputy Seabolt, who's to my right, about 10 feet back with his new, uh, partner Zees, uh, Seabolt being a good training officer now deployed one 40 millimeter, uh, sponge round and which impacted the suspect. Uh, it caused him to turn. It didn't put him down or anything like that. It didn't stop any of his movement. It

****

****

caused him to turn and when he turned, ultimately I saw what, I was now 99.9 percent sure was a handgun in his hand. Um, at that point, I felt, uh, my partner's, my partner's safety and my safety was all, uh, was, was in jeopardy and, uh, I shot one round. I fired one round from my Glock 17 and I could I actually, uh, see it impact him and it had an immediate response so to me, the, the threat was somewhat stopped at that point, as when I hit him he actually turned to the ground and what I thought was a gun in his hand actually dropped to the ground. I could clearly see a gun lying down on the ground. He crunched down. I, I don't recall what position whether he actually ended up prone or what, but when I had fired that round, my canine and I probably just let go of him for a second and started to go towards the suspect and instead of callin' him back because of how the suspect had positioned himself by another firearm, again, I felt the lesser of what could happen potentially, um, meaning that other deputies shoot thinking that he's reaching for a firearm is hey, I, I stopped the threat. I got a canine on the way, um, I just gonna give him a command now. So I started givin' him his command. His command is Stalin. Um, I could, so I commanded him to apprehend the suspect. He ultimately engaged the suspect and, uh, you know, bit him a couple of times and, uh, the suspect had positioned himself over the handgun, so I started tellin' my dog, good boy. Praisin' him for what he had done because he's training, you've gotta praise dogs when they're doin' the right thing, it's like any approval or ****. So I'm praisin' him for what he was doin' and, uh, I actually gave him the command, bring. So I was tryin' to get him to bring the suspect to me and, and it actually worked because he was able to pull the suspect, probably a good 3 to 4, 5 feet maybe, away from the handgun. Guys were, guys were good at holdin' their positions and not just runnin' up there, um, because A. It, it wasn't safe yet. He could easily have reached a gun. At that point he had rolled and his back was facing away from the gun. Now I could see both of his hands so I actually had a few guys come up with me, said, hey look, I could see his hands down. Let's get my dog off this, let's get my canine off of him. So, we approached and I grabbed onto my dog, took my dog off. Um, on the way, I instantly just walked away. I didn't want my dog to try to re-engage –

JT: Mm hmm.

BP: – the suspect 'cause they'll do that, um, in training. We teach them to watch and watch 'em and stuff like that so I just, I wanted to make sure my canine didn't bite another deputy or bite the suspect again, so I started walkin' him away. When I walked away I, I told him I, I didn't know if every deputy knew, I told him I shot one round and to go ahead and start making sure that this guy is okay. Um, and I don't know the exact words. I think I said I just shot one round and, and walked away. Um, but I saw at least two deputies tending to his injuries instantaneously to see if he's okay and we'd, already had medical stay, so they were there very quickly.

JT: Okay. A few follow-up questions? I know what a 911 wireless call is but –

****

****

BP: Yeah.

JT: – and it sounds elementary but –

BP: Quite, you know, quite frequently we get them but it's a, it's a, it's a phone call from a cell phone. Um, usually the location isn't pinpointed to the exact spot, so, it's, uh, pretty much, hey, look to find where this is comin' from and, uh, the deputies in this, in this one did a good job finding where it came from. So, –

JT: And those coordinates were provided by those guys?

BP: Guys.

JT: Right. And then I have another kind of generic elementary, you said you responded Code 3, but just so I know what, what is Code 3 mean from –

BP: Yes.

JT: – to the police station to the location where you ultimately?

BP: Lights and sirens.

JT: All right. Can you describe for me, you touched on it a little bit but, uh, where you are, um, a church, correct?

BP: Yes.

JT: Um, can you describe the setting in terms of the parking lot and what's around it and what it consists of?

BP: Okay. Um, the church is, is a fairly large church, I would say. It's gotta a big hall, uh, it, uh, sits on the corner of Old Redwood Highway and Alden Lane. There's an entrance off Alden to the north or northwest of the church and then there's a, there's a entrance, uh, just south of it on Old Red, to the south I guess. The parking lot, I would say is probably a good acre. Um, it's a fairly large parking lot. Um, it's well-luminated. It's surrounded by a wooden fence, most of it. I, I can't tell you what color it is right now. Like kinda of a, like a pinkish-peaches color with while pillars maybe.

JT: Okay.

BP: Uh, yeah.

JT: And what, what borders that parking lot basically?

BP: It's a residential area.

JT: It is residential? Okay. You mentioned, um, the subject in the car. You, can you tell one subject or was it easy to see inside the vehicle?

****

****

BP: I, I take a spot where it'll be easiest for me to see what the exit is. I have a real difficult time seeing his hands from a position I was at and I relied on mostly, uh, the detail that Ryan Patrick and John Gillette were giving as far as what he was pickin' up and stuff. But when he exited the vehicle, I think Deputy Seabolt and I probably had the best vantage point from where we were, so, um, meaning that, that when he opened the door this is where Ryan, Ryan Patrick and John Gillette and a couple of other guys were off the driver's side. Well, I was positioned off the rear quarter panel of the driver's side. So, –

JT: Okay.

BP: – we opened it, um, I could, had a clear view of what he was holding.

JT: Besides your vantage point, was there anything else that was hindering your vision at, into the vehicle itself?

BP: No.

JT: Okay. You mentioned him being distraught. Can you expand on that a little bit?

BP: A little bit visually upset. He looked like he could, he could've been crying. Um, maybe he was crying. He just, uh, he had that look down.

JT: Okay. Is there any, do you remember anything being said by him?

BP: I don't remember him saying one thing.

JT: Okay. And then you mentioned that, uh, the closest point, um, your position to the vehicle was 30 to 40 feet possibly –

BP: Yeah.

JT: – in there? Okay. And you talked about him coming out and you seeing the gun. Do you remember which hand he had the gun in?

BP: I, I, I can't. I don't recall what hand, I just, I wanna say I would've been looking at his right shoulder and I just know, I felt like he reached with his right hand but I almost feel like it was in his left when he swung but I can't be positive –

JT: Okay.

BP: – I can't. I just, I'm, I'm, I'm trained to look at hands and one of them just happened to look like it had a firearm at that point and then I was, like again, 99 per, a hundred percent sure once it had fallen to the ground and almost a hundred percent sure when I, uh, ultimately fired one round from my gun fearing that it was a handgun.

****

****

JT: Okay. Do you know the personnel there that were around you? The deputies that were around you?

BP: Yeah. Uh, um, uh, I can't you Ezesus's last name, uh, but, uh, Eric Seabolt and Ezesus were to my right. Uh, Larry Matelli was to my left or behind me the majority of the time.

JT: Mm hmm.

BP: Uh, then patrol car and then, on the driver's door of that patrol car was, uh, was, uh, Juan Valencia and then there was another patrol car and it, Ryan Patrick was there. John Gillette and I believe, uh, Ryan Patrick's trainee, whose name I, I don't know. Um, a brand new guy, first day on, on the job.

JT: Mm hmm.

BP: Uh, I know Nick Fytran was there and he had positioned himself, uh, more towards the driver's, the front of the vehicle, I should say –

JT: Mm hmm.

BP: – but still off on the driver's side. So, if I was sittin' in the driver's seat, would be off in a 45-degree angle.

JT: Okay.

BP: And then we had, uh, two sergeants there who were behind the patrol car. Uh, that was Andy Salas and, uh, Jim Ryan.

JT: Okay.

BP: Uh, I, I didn't see them really up where we were. They were kinda lettin' us, uh, run the, run the, run the show, I guess. Uh, but I did look behind me at one point and saw 12 of them standing behind the patrol car I was at.

JT: Okay. And then you talked about, uh, the commands that were given and just for clarification, you mentioned both in Spanish and English.

BP: Mm hmm.

JT: Do you remember what those commands were in English?

BP: They, they went on for a long time. Uh, come out of the vehicle please. We're here to help. Those, those types of things. It just went on and on and on. I, I can't tell you exactly what he said, but, um, I was more focused on what I was doin', keepin' guys safe, but, uh, the commands were very clear, I remember. They weren't panicked. They, it wasn't from, uh, a guy who's been doin' his job for 6 months. It was from a seasoned deputy, who, uh, who did an outstanding job in my opinion and, uh, and, you know, let

****

****

the, let the cameras speak from themselves. When you guys hear it, he did a, he did a great job and anybody who was gonna surrender would've surrendered to him in my opinion. Um, he had formed, the suspect in this case had formed what he was gonna do in his mind and he ultimately carried out and, uh, Juan Valencia did a good job. So, –

JT: In fact he, you said that this dialogue with this subject went on for 25, 35 to 40 minutes. So a pretty –

BP: Yeah.

JT: – pretty long time?

BP: He didn't give up. There was, there was no real down time. It was no pause of, I'm gonna think of what I have to say next. He just continued to track and I heard other deputies actually say, amen, we don't wanna do this, just, just give up and I mean, they weren't hearin' it but they were sayin' it and I don't even know if they were realizing they were sayin' it, but I heard them sayin', you know, hey, just give up. It's not worth it. You know?

JT: Right. And then you mentioned the, the, uh, the command for, for your partner to, uh, –

BP: Yeah.

JT: – uh, to dance or, or –

BP: Yeah.

JT: – lack of a better word, –

BP: ****.

JT: – to yeah. And what is that command?

BP: German Stalin.

JT: Stalin?

BP: Yeah.

JT: And do you remember where the dog, your partner, uh, engaged on the subject?

BP: Uh, uh, he had him at the back at one point. It looked like he might've got him on the shoulder. Uh, he got him in a couple of different locations it looked like.

JT: Okay.

BP: He got some clothing when he was pulling and it was mostly on clothing.

JT: Okay. I don't think I have any **** questions. Jason?

****

****

Other Speaker: I'll just, two quick ones. Okay. You told us about the backdrop around the fence and, uh, bein' in a residential area, but what else or did you have any other knowledge of any other people **** in, in or around the church when this was all going on?

BP: Yeah. I remember. I, I believe I heard Deputy Matelli say somethin' to me about seeing somebody, um, I didn't see it. I didn't see it. Um, but I felt like he said somebody, uh, positioned by electric box or something but I'm not a hundred percent positive. Again, there was a lot goin' but, uh, I kinda felt like he said somethin' like that, but I'm not positive.

Other Speaker: And do you know if the church had something goin' on inside?

BP: And the church did have somethin' goin' on as well.

Other Speaker: Okay.

BP: Yeah.

Other Speaker: And did that concern you?

BP: Yes. It, of course it did and that's why I wanted to make sure we can do everything we can to keep that, the, to keep that suspect in the position he was at and not get in that vehicle and ultimately try to, uh, take a hostage, evade, so and so ****.

Other Speaker: And after your partner, Jags, after you, you get him off the bite, did, did you, you, your sta, your statement was that you walked away and you saw deputies rendering aid.

BP: That's correct.

Other Speaker: Do you recall what deputies rendered aid to the suspect?

BP: I know, uh, Matelli was right there.

Other Speaker: Okay.

BP: Yeah.

Other Speaker: All right. That's all I have.

JT: And ultimately, where did you ultimately go, uh, after the incident?

BP: I went to my patrol car. I put my canine partner back in the vehicle and, uh, then I walked back to the scene. Uh, when I walked back to the scene, uh, prior to that, I was under every assumption that, uh, the gun he was carrying was actually a real firearm and I learned that it was a replica firearm. Uh, so, and I actually remember even walking by it

****

****

a few feet away and I believed it was a firearm even at that point. But until I returned I learned it was a replica firearm and I knew I had shot, I told, uh, Sergeant Ryan that I shot one round and what direction I shot it in, and, uh, at that point, I was sequestered by Dan Nagri.

JT: Okay. And Dan Negri accompanied you here –

BP: That's correct.

JT: – and remained with you here?

BP: Yes.

JT: And obviously, uh, uh, you're out of your uniform now and at some point in time were you contacted by, uh, our Crime Scene Investigation detectives, and, and, uh, you were processed and photographed, um, –

BP: That's correct.

JT: – and take me through that, but –

BP: They, uh, they photographed me from, uh, four different angles and, uh, they, uh, took my firearm from me. My duty. My Glock 17, and, uh, and my magazines as well.

JT: Okay. Do you have anything else that you can think of that you'd like to add? We're gonna take a short break. Uh, I'm gonna check in with the District Attorney. Uh, we're gonna go off the record. The time is 0550 now.

DETECTIVE: Jeff Toney TYPED BY: SpeakWrite

****

Interviewer: Detective Jeff Toney with the Sonoma County Sheriff's Office (Primary Speaker).

Interviewee: Deputy Brian Parks with the Sonoma County Sheriff's Office (Primary Speaker).

Attorney: Michael Rains with Rains Lucia Stern St. Phalle & Silver.

Detective Jayson Fowler with the Sonoma County Sheriff's Office.

Interview Date 01/31/17 @ 0517 Hours

JT: We're back on record from a short break. Time now 0517 hours. Any further questions, um, Mr. Rains?

MR: Um, I just, I have a couple questions if I could, uh, Deputy Parks uh before being interviewed you had the opportunity to discuss the incident with me, but o, other than talking to me about the facts of the incident prior to getting interviewed have you discussed the facts with anybody else? So I'm the first person that you talked to **** he had to talk ****. Um, you know, you've mentioned during your interview that you, uh, were wearing a body camera?

BP: Correct.

MR: Um, before being interviewed this morning, have you looked at that body camera?

BP: No.

MR: So you don't know what it shows or what audio may be on it?

BP: I do not.

****

****

MR: Thank you. You fired, uh, as I understand from your interview, a single round from your weapon?

BP: That is correct.

MR: And when you fired the round that you fired, um, I think you said you saw what appeared to be a firearm in this man's hand?

BP: That is correct.

MR: And the firearm appeared to be, uh, a, an actual firearm, not a replica to you?

BP: Yes.

MR: Did that man, did you consider him a threat to your safety when you fired?

BP: Absolutely. Not only to me but my partners as well.

MR: All right. And is that the reason why you fired when you fired?

BP: That is correct.

MR: All right. Thank you. I don't think I have any other questions, Detective. Thank you.

JT: One last thing. You touched on the body-worn camera. Thank you. Um, you mentioned you hadn't viewed it, um, do you wish to view that at this point in time?

BP: No.

JT: Okay. That's all I have. I'm going to go ahead and conclude the interview at 0519 hours.

DETECTIVE: Jeff Toney TYPED BY: SpeakWrite

*****

*****

****

JF Okay. Uh, when did you last eat before the incident?

ES Thirty minutes.

JF Okay, and what'd you have to eat? If you remember?

ES Uh… uh, m-, one of the meals from Olivers…

JF Okay.

ES … pre-packaged meals.

JF And in the last twenty four hours have you consumed any alcohol?

ES No.

JF Okay. How long have you been, been employed by the Sonoma County Sheriff's Office?

ES Uh… roughly nine and a half years.

JF Okay. And how long in Law Enforcement total?

ES Approximately thirteen?

JF And prior to the Sonoma County Sheriff's Office, where did you…?

ES Three years with Los Angeles County Sheriff.

JF Okay. And as a, as your duties as a Law Enforcement Officer have you received specialized training in firearms, SWAT, things of that nature?

ES Yes.

JF And can you describe those for me?

ES Um, we- we, we've… do an excessive amount of firearms training on the range, I've been to, uh, a eighty hour swat school.

*****

*****

*****

*****

****

JF The less lethal, 40 milli-...

ES Less lethal, yes.

JF Okay. And were you equipped with a body worn camera?

ES I was.

JF How about an audio recorder?

ES No.

JF And you said you had a taser, correct?

ES Yes.

JF Any other equipment that you haven't talked about that you deployed during your shift?

ES I can't think of anything, no.

JF Okay. So the nature of this investigation concerns a significant incident that you were recently involved in. It occurred in the area of the Guad-, [redacted] in Windsor, um, specifically [redacted] Old Redwood Highway in Windsor. So if you can do me a favor and pl-, describe the event in as much detail as you can and including the time of the event, names of witnesses and names of officers as best as you can recall, include all the information you ca-, you can remember relative to the circumstances?

ES Okay, in a narrative form?

JF Yes, please.

ES DEPUTY AZIZ, DEPUTY ATALLAH and I, uh, when we were on our way from Los Guilicos, stopped and grabbed some food at Olivers on the way, went to the main office because he's down a couple reports, so, uh, we eat, have a little discussion and, uh, we're sittin' in the report writing room and hear someone put out that they're out with a man with a gun in the parking lot. I know it's not likely to be our parking lot, and I don't, I didn't initially recognize the voice but by the time we left the briefing room, or the report writing room and got to the car… I picked up on whether, where it was. It was at, at Our [redacted] which I'm familiar with from prior assignments. We get in the car,

****

*****

****

where I could see his arm, the, uh, drivers arm. That's my field of view though I don't have… the back window is foggy...

JF Okay…

ES … so I can't really see anything through there. DEPUTY PARKS and MATELLI and I formulate a plan which didn't have to be all of it didn't have to be verbalized we know that… I just needed, I needed to know how far out he needed to get past the car. If we had formulated a plan that once he got five feet out past the car and then he's non-compliant… hit'em, the dog and the sponge round are to go. And we're gonna try and go k-, and then we're going to have to re-formulate what happens at that point. If he…

JF Okay.

ES … we don't want him to get dragged back.. drag the dog back into the car… where the gun is. But we can't let him go back in the car, if he gets out. So we've established this, um, at one point I said, "Hey, if he clears that car…" Because of the guy had been kinda… he popped the door and then he shut the door or he popped the door and he doesn't and he doesn't get out. He's just in there, so you have a visual of one hand and we can hear… I don't know how many of the deputies were off to the left, but there was enough of them that you can hear them saying, "I don't see his hands, I see his hands, I don't see his hand, I see one hand, I don't know what he's- he's, got something in his hand." There's a lot of talk back and forth.

JF Okay.

ES It's all calm, but the puttin' out the information… if this guy turns and goes like that, he can get BRIAN, he can get LARRY, he can get.. ATALLAH or he could get me.

JF Okay.

ES Any one of us. If he just shoots out the back window, the only thing standing between him and I is my car door…

JF Okay.

ES …just the way the cars were positioned, so. We formulate this plan I know what they're going to do. I know that if he comes out and is non-compliant; I'm going to hit him with the sponge round. If he comes out and he's compliant, just follow verbal commands and

****

****

we're gonna to take him into custody. So, everything's been established it's just being dictated. Uh, VALENICA just by the voice and the Spanish speaker I know it's him on the PA, and I bel-… I don't know where he is, but he is on the PA and he's close. Calm tone, he is really talking to this guy. He's… in a tone that is not aggressive, it'd be more a… sympathetic…

JF Okay.

ES …kind of tone. He's talking to him, he's talking, he's taking to him, trying to coerce this guy out. Guy won't come out. Uh, at one point he pops the door open and… he gets his kind of feet out a little bit, one foot out, still only see one hand…

JF Okay.

ES … just one hand. He goes back and forth with this, and he it- it, you, you can tell the wheels are spinnin' because he sees us, he looks back at us but he doesn't… he, he's just look, he's just looking. There's a lot of discussion from guys on the other side that have better view of a certain portion of the door that he's got something in his lap, he's got something on his lap, we end up figuring out its a cell phone. He shuts the door and goes back in. Now we don't see any of his hands. So even I mean maybe I see this… Unknown amount of time goes by… I think the door pops again, he does the same thing, now he's two feet out and BRIAN and I are kinda talking back and forth and I said, "All's I got is his hands and his legs." A shot from the sponge round at twenty yards it's going to maybe bother him, but it, it's not getting him, it's not enough to incapacitate him or get him to coerce him to go out he's more likely goona go back in. So BRIAN knows that, I know I can't do anything with him there. He shuts the door again.

JF Okay.

ES Another amount of time goes by, they're coerceing him out, trying to coerce him, nothing's happening. The guys, s-, somebody's saying he's crying, he's upset, someth-, you could tell there's somethin' going on. Pops the door again, I can't tell, give you a timeline, like how long this whole lasts, I think my, I think the whole thing's like maybe thirty minutes or so.

JF Okay.

ES But in that time, he's back and forth with this. So he pops the door… he comes out, he didn't come out, he stands up and so he's still in the opening of the doorway, and we

*****

****

ES So all's… I was just focused on the guys head and his hands that were out. And I heard the talk of gun- , of the gun, I didn't see it cause that wasn't my focus and then my angle wasn't good…

JF Sure.

ES …enough to catch it. So… the two guys to my left which are BRIAN and MATELLI are s-, they're talking, I'm watching and they, and I remember saying, "Don't appro-, don't go up, don't go up." And then, it was going to be a stalemate at that point the guy was not responding so the dog can't drag 'em back to us. He can't, that's not….

JF Right.

ES … what he's trained to do and the guy can't-, he's not responding to coming back to us so we had to approach. I said-, they said, "We're going." So I came out of my spot, ran up on them and, uh, and another several deputies were up on the other side. They said, "Get the gun out of the way! Get the gun out of the way!" They, somebody did something with the gun, I don't know what, what it was. Uh… too many bodies in, I said "I'm off." I stepped away and walked back just kinda kept, kept my distance. Uh, I saw LARRY get on top of the guy, flip 'em over and start some kind of life saving measures of some sort. I knew fire was there already. They, I heard somebody say, "Hey, clear the puk-, spike strips so fire can come in." Uh, EMS was there really quick. Ev-, everything, at that point I backed up knowing the situation.

JF Okay.

ES Backed up, I also had AZIZ with me, so I needed to make sure he was all good. Went back tended to him said, "Hey, we're gonna be here a while." "Take a seat in the car." We both sat down, I sat my, uh, I sa-, picked up my less lethal tossed it on the hood, left it there, sat in the drivers seat and that was it and just kinda waited until…

JF Okay.

ES … until we were told further instruction.

JF Okay. So I'm gonna ask you some, some clarifying questions. Now when you, you said you recieved… you guys, you and DEPUTY ATALLAH were at the main office when you heard the, the call come out?

****

****

ES Um- hmm.

JF Who drove from the Main Office to Windsor?

ES It started out, I, I was driving…

JF Okay.

ES I flipped around within the same, I mean, I backed up and realized, uh, 'We may need another less lethal.'

JF Okay.

ES Pulled back up, ran into the SWAT locker, grabbed my…. um, forty millimeter and I said, "Hey you drive." We got about 100 f-, or yards and I realized that was a, this is a bad decision.

JF Okay.

ES It, it's his first, it's his first night, frist night he'd already passed the turn.

JF Okay.

ES I was like "Stop, Stop, let me get out." I hopped in the drivers seat, we sw-, we switched places and I drove there.

JF Okay. So when you get on scene there at the church what, can you describe the, the lighting?

ES Uh…

JF Conditions?

ES … parking lot of… Spark-, Sporadically lit…

JF Okay.

*****

*****

*****

*****

*****

****

ES Uh, I- I, felt, I felt that the… the risk to the deputies on scene was pretty high.

JF Okay.

ES There was not a lot of cover, um, the angles that we were on didn't provide a lot, a lot of cover, I mean you had s-, you had to deal with what was available at the time.

JF Sure.

ES Now that you have a guy with a gun that we can't see. Esp-, I definitely couldn't see into the back of his car, so I s-, so my movement of him was limited. If he leaned to the right I know he leaned to the right he's out of my view. So there's a lot of risk that we were taking, uh, by being as we couldn't back up but we couldn't go forward. We're stuck where we are because we can't, we can't turn and walk away because then you can't see him. Uh, if he'd w-, went forward he would drive right into a house or shoot right into a house. Those are a ton of risks for the general public. There's abandoned houses on that, that are, um, occupied by transients. We don't have phone numbers into some of these places and there's a churc-, and we're in a church parking lot that has active people inside of it.

JF Okay.

ES The risk to, to public safety was, was pretty immense.

JF Right and it sounds like the public in general.

ES Public in gener-, it's- it's, you know, 100 yards from Old Redwood Hwy.

JF Right.

ES The most traveled street in, the Town of Windsor.

JF Right.

ES So errant bullets happen and, uh, we tried our best to…

JF Okay.

ES … not have any go.

****

****

JF Right. Now, was this incident recorded by your body worn camera?

ES Yes.

JF All right. And have you reviewed the recording prior to this interview?

ES No.

JF Okay. Do you wish to view any video, it- it, the recording to, to this event now?

ES Not necessary.

JF Okay. You got any?

JT Yeah just, just a couple questions. So ERIC you talked about you deploying the, the less lethal and you referred to, uh, as being a forty, forty millimeter?

ES That's correct.

JT Can you just expand and, and tell us what the, what it is, what the purpose of it is and, and why it's deployed? Uh…

ES Uh, it…

JT … an, and, in respect to levels of force?

ES It's used, uh, as a less lethal device, by its name. It's a 40 millimeter, it shoots a projectile of different styles, um, this specific projectile that I was using is something referred to as a sponge round. Uh, it shoots I can't give you an equivalent but it would be like getting hit with a fastball. Uh, its… we don't aim at the head, um, just throws you, throws the person off causes an am-, an amount of pain and kind of a shock to them, not an electric shock but the shock being struck by something after a loud noise, uh, can th-, can throw off their concentration of what they're doing. And can also safely make somebody stop doing what they're doing. Maybe just from the fear kind of some of the similar things that a, that a canine has going for it. That the, that the dog doesn't always get a great bite, but the fear alone and the… I'm not a canine guy I, I don't have any, any, uh, expertise in this but, that's why we use the two of 'em together so that the dog can be successful for what it's doing. Uh, it all, the f-, the forty will also launch gas into the car if for some reason we find the need and we come up with a gas plan that, um, gas needs

****

****

to be put into the car to get, coerce this person to come out as another option. So I have all those things with me, uh, if it has to get even further than that we don't shoot, uh, hard projectiles that are meant to, that are meant to be lethal out of it but some of projectiles that do get shot from it can be a lethal, a lethal shot if they're shot at a person.

JT So…

ES So, we use it as a tool to deal with people, suicidal people because it's not, it- it, it's not a, it's not a f-, firearm in the, in the way that it's going to it… that's not meant to designed to kill people.

JT Yeah. I appreciate that, so it, it's pretty clear that you were developing a plan, excuse me, um, to use less, less lethal as a viable option and you mentioned, um, you-, you established that, when you made the decision, uh, if he came up and you- you, you mentioned grabbed the post, and you're, what, what are you talking about, when you said that?

ES The, the pillar at the, he basically had two hands at where the door closes at the roofline. So I was able to see 'em knowing, 'Hey we don't need to do-, if he comes out that way no force is necessary.'

JT Right.

ES If he's going to comply, take him into hand, take him into custody safely without any further incident.

JT Okay. And you're trained to use and been certified to use that forty millimeter?

ES Yes.

JT And you mentioned also the foggy windows and, and you demonstrated how you were at a disadvantage because you couldn't see in the, into the, the car, correct?

ES Correct.

JT And you also mentioned how easily it could've been and, and I believe you used your, your right hand to show us how quickly a person could come up and fire upon you.

****

****

ES Yes. I can't see him, action beats reaction. If he's formulated the plan to do so it's going to take nothin' for him to put, point it over his shoulder and shoot rounds at us and there's houses behind us too.

JT Right. Did you ever have any idea or- or, did, did you ever learn during the time that, that you were there that the subject was, was suicidal or threatening suicide?

ES I had no, no prior knowledge of that. Based on his actions, um, it appeared he was distraught but I have no reason to believe that he was suicidal or gonna turn his focus towards us.

JT Distraught, unpredictable?

ES Distraught, seemed, yeah, unpredictable would be an, an appropriate term.

JT And we talked about your training you've been through crisis intervention training as well?

ES Yes.

JT Like a forty hour block of training?

ES Yes.

JT Uh, to where you recognize things like that?

ES Yes.

JT And then you mentioned, you heard commands but you remember the commands to be in Spanish, did…?

ES They were in Spanish, I may have, uh, not heard the English, the ones that I can't remember appear to be in Spanish and they appeared to be something he moderately responded to.

JT And was anybody else besides, was it DEPUTY VALENICA?

ES I- I, can, uh… uh, I believe he's the only Spanish speaker we have on in the, on the shift and working at this time. So, yeah I believe it was him.

****

****

JT And was it iso-, was everybody yelling at him? Or was, was it…?

ES Just, just DEPUTY VALENCIA.

JT So very clear…?

ES Very clear, very concise, if I was a Spanish speaker it would've been… perfectly understandable.

JT Okay.

ES Not at a loud, he wasn't loud, but he wasn't quiet, he was perfect tone for everyone in the area to hear, I was equally as, I would say I was equally, I was pretty close to his, the same distance from him as he was from the, uh, suspect's car.

JT Okay. And then you mentioned also that, um, medical was staged at…

ES They were somewhere…

JT Somewhere…

ES … in the area. I had heard they were already staged. And, uh, at the conclusion of it someone had said, 'Move the spike strips.' And they there immediately.

JT Okay. If you had to estimate, uh, I don't want to hold you to a specific amount of time but from the time that, you got, when you, when you arrived on scene how many if you remember deputies were there?

ES Uh, I only know that there was or- or, roughly twelve is probably a, uh, fair number. Can't tell you how I know that number I didn't count them. Think that was some radio traffic that or as walking up hearing that there's twelve or some-, somebody said something in the… as I was going past.

JT And then if you had to estimate and I, and I know that things time goes by quickly during these incidents. If you had to estimate how much time and how much dialog went back and forth which w-, what would you say? Would you say that you were there…

ES Unintelligble.

****

*****

*****

****

ES Um- hmm.

JF … you weren't part of the, you weren't one of the deputies that had app-, that approached the subj-, suspect?

ES I did, I did approach…

JF Okay.

ES … from my side I caught up with them. We approached once the way it all… people started to move over and because of my angle I was a little bit further back. Now I had no shot if something did happen.

JF Okay.

ES Put my, let my firearm hang, stepped back, there was enough bodies doing the work. There wasn't any need for a, an additional one.

JF And when you say doing the work, what do you, what do you mean?

ES Meaning… getting rid of the gun.

JF Okay.

ES Getting, uh, the suspect f-, manipulated one way or the other where he couldn't reach the gun, and life saving measures at that point.

JF And do you recall who was pre-…?

ES DEPUTY MATTELI began some form of, uh, assistance.

JF Okay.

ES But I backed off and but there a was a wall of…

JF Okay.

ES … deputies in front of me, so I backed off knowing that I'm not going to start m-, fiddlin' around with somebody with a, with a rifle hanging from my neck.

Incident Synopsis

Suicidal subject occupying his vehicle called 9-1-1 and disconnected with the call taker. Per Office policy, deputies responded to the area of the disconnect and encountered a male subject inside his vehicle, in the parking lot of an occupied church. Subject appeared distraught and was observed to have a firearm in his possession. During an approximate 29 minute negotiation with the subject, he failed to respond to deputy commands in English and Spanish to drop the firearm and exit his vehicle. Subject exited his vehicle and brandished the firearm towards the deputies. Due to suspects actions, lethal force was deployed on the suspect and he was taken into custody. Suspect was transported to the hospital where he received medical treatment for a single gunshot defect sustained to his abdomen.

Luis Alberto Santiago Olmedo

INVESTIGATIVE CASE SUMMARY

The following is a summary narrative only, which will be followed by a complete chronological investigative report on a following date.

During the course of this investigation, I have learned the following through official law enforcement sources and my own investigation.

On 01/30/2017, at approximately 2033 hours Sonoma County Sheriff`s dispatch received a 9-1-1 wireless call from telephone number [redacted]. When the call was answered, there was no response and nothing heard. The caller`s cellular carrier was shown to be AT&T Mobility and the geographical location was identified to be in the proximity of Latitude 38.5442550, Longitude -122.799447. This location was identified to be in the area of [redacted] Alden Lane, Windsor, CA. Two Windsor Police patrol units were dispatched to respond to this area to investigate the emergency call.

During an immediate call back to the number, the Sheriff`s dispatch call taker received a Spanish outgoing message. The call taker left a message in English. At approximately 2039 hours, Sheriff`s dispatch received another 9-1-1 call from the same telephone number. A Spanish speaking male was heard asking for an interpreter and said he was at the [redacted] located at [redacted] Old Redwood Highway at Alden Lane Windsor. The Sheriff`s call taker immediately acquired a Spanish translator and through their communications, it was confirmed the caller was saying he was at [redacted].

Narratives

At approximately 2043 hours, Deputy Ryan Patrick and his Deputy trainee, Ryan Wang, arrived on scene at the church. Deputies Patrick and Wang walked into the courtyard of the church where they observed approximately 15 to 20 people inside of a conference room having a meeting. They contacted the subjects and confirmed none of them dialed 9-1-1.

The deputies exited the courtyard of the church and walked to the parking lot where they observed a maroon colored Nissan bearing CA. license plate number [redacted] which was parked facing west. They noted the windows were mostly fogged up, but they were able to determine it was occupied by a single Hispanic male who was seated in the driver`s seat crying, and talking on his cellular phone.

Deputy Patrick approached the vehicle and announced his presence, while knocking on the driver`s window. During this time, the deputies observed a black semi-automatic handgun in the subjects lap. Deputy Patrick drew his duty firearm towards the occupant of the driver`s seat while shouting commands to the subject to show his hands. At approximately 2050 hours, Deputy Patrick advised via radio broadcast he had a subject at gun point. The occupant of the vehicle did not physically, or verbally respond to the loud verbal commands. The deputies retreated to a safe position while maintaining sight on the subject in the vehicle.

A DMV records check on the license plate of the maroon Nissan revealed the registered owner was Luis Alberto Santiago Olmedo, a 25 year old male subject who was shown to reside at an address in Windsor.

Within minutes, deputies Maikranz, Gillette, and Valencia arrived on scene and established a safe perimeter around the occupied vehicle. At approximately 2053 hours, Deputy Valencia utilized the PA system in his patrol vehicle, Deputy Valencia began verbally engaging the subject in both the Spanish and English language, directing the subject to surrender by exiting his vehicle with his hands in the air. Deputy Valencia repeated these directives over the few minutes in English and Spanish, but the subject did not respond. Over the next few minutes, Deputies Aldridge, Houser, J. Peterson, Sergeant Salas, Blount, Seibold/Atallah, Mathias, Parks, Sergeant Jim Ryan and L. Matelli arrived on scene.

During a check of Santiago Olmedo`s listed residence in [redacted], his aunt, [redacted] was contacted. She was able to confirm Santiago Olmedo`s identity and she told deputies he has had previous suicide attempts. [redacted] told deputies that Santigo Olmedo currently resides at [redacted], CA. [redacted] was transported to the outer portion of the scene to potentionally assist with gaining Santiago Olmedos compliance. Deputy Valencia would later respond to this address and contact Santiago Olmedos roommate, who provided knowledge about him being suicidal.

At approximately 2104 hours, Sonoma County Sheriff`s Office Hostage Negotiation Deputy Bret Kidder was summoned and began responding to the scene. Deputy Valencia continued efforts to negotiate with Santiago

Narratives

Olmedo, now calling him by his first name, Luis, however Santiago Olmedo failed to comply as instructed. On two occasions, Santiago Olmedo opened the driver`s door and then closed it. At one point he threw a crumpled piece of paper onto the ground. At approximately 2106 hours, emergency medical personnel was summoned to stage in the area.

At approximately 2122 hours, after an approximate 29 minute negotiation attempt with Santiago Olmedo to surrender himself unarmed, he exited his vehicle and placed his hands on top of the driver door post. Santiago Olmedo then removed his hands from the door post and began reaching back into the driver`s compartment.

Based on Santiago Olmedo`s unwillingness to comply with verbal orders to keep his hands on the vehicle and his continued action to advance into the driver compartment of the vehicle, Deputy Eric Seibold deployed a single Sponge round from his Sheriff`s Office issued .40 mm Less Lethal Launcher at Santiago Olmedo. The sponge round struck Santiago Olmedo`s upper torso, but he continued to turn his body towards the deputies and he was now holding a black handgun. Santiago Olmedo turned his body and brandished the handgun towards the deputies.

Deputy Brian Parks deployed one round from his duty firearm at Santiago Olmedo, which struck his torso and caused him to fall to the ground. Santiago Olmedo was taken into custody. Deputy L. Matelli began rendering medical aid to Santiago Olmedo. Deputy Matelli was relieved in seconds by Windsor Fire personnel and Bells Ambulance paramedics. Ultimately, Santiago Olmedo was transported to Santa Rosa Memorial Hospital where it was determined he sustained a single non-life threatening gunshot defect to his abdomen.

Based on Santiago Olmedo`s noncompliance and actions with his firearm, I believe he was clearly in violation of 69 PC of the California Penal Code-Obstructing/delaying Peace Officer`s by means of threats, violence, etc.

Deputies Parks and Seibold were immediately sequestered and transported to [redacted] located at [redacted] Boulevard Santa Rosa, CA.

VCI Detective Jayson Fowler and I would later conduct independent interviews with Deputy Brian Parks and Eric Seibold. Utilizing the format of the Sonoma County Sheriff`s Office Critical Incident Guidelines Manual, these interviews were directed in accordance with the "Involved Officer Interviews". These interviews were conducted in the presence of Sonoma County Deputy District Attorney Jane Murray and District Attorney Investigator, Ed Hemphill. The statements obtained during these interviews will be contained in my chronological investigative report.

Narratives

During this investigation, members of the Sonoma County Sheriff`s Crime Scene Investigation Detectives responded to the scene for processing and gathering evidence. During this process, CSI Detective Troy Newton recovered the handgun used by Santiago Olmedo. The firearm was determined to be a .177 caliber BB gun with a moving slide, resembling a semi-automatic style handgun. Also recovered was the crumpled piece of paper that Santiago Olmedo threw from his vehicle.

Detective Newton later showed me paper which he had secured in a clear zip lock plastic bag and marked as evidence item TN4. The note appeared to be hand written in Spanish and was signed Luis. I photographed the note and later showed it to VCI Detective Horsman (Spanish speaking) for translation.

In essence the note read, "Thank you for doing me this favor because I didn`t have the courage to do it. My life no longer had meaning on this earth. This is the only way to leave behind this earth everything was a disaster for me. My family, I ask that you forgive me. I love you mom. I ask that you forgive me for doing this, but I also wish that you don`t feel sad for this. I will always be with you for life mom. I love you mom. Me Luis. Thank you Official.

During the evidence collection process, Santiago Olmedo`s vehicle was seized as evidence pursuant to 22655.5 CVC and it was towed to the Sonoma County Sheriff`s Office, where it was secured in the CSI vehicle bay. A search warrant related to this case was authored by VCI detective Joseph Horsman. The items seized during the search warrant will be documented in supplemental reports to follow.

On 01/31/2017, I attempted to contact Santiago Olmedo at Santa Rosa Memorial Hospital to obtain his statement. Upon arrival, I learned that due to his current health status, he was unable to speak. Nursing staff provided Santiago Olmedo`s prognosis as positive and said he would more than likely be discharged in a few days.

See attached supplemental reports authored by the witnessing deputies and detectives involved with this investigation.

Supplement Narrative

On Monday, 1/30/2017, at approximately 2033 hours, I heard Windsor Deputy Ryan Patrick get dispatched to [redacted] Old Redwood Hwy ([redacted]) in Windsor for a 911 wireless call. I was at the main office when Deputy Patrick stated he had one person at gunpoint in the parking lot. I immediately responded to Deputy Ryan`s location and arrived at approximately 2056 hours.

Upon my arrival, I used my patrol car to block the south entrance to the church parking lot by parking it at the northeast corner of the church. I then exited my patrol car and eventually joined other deputies who were engaging the suspect in the vehicle.

I was briefed that the suspect had a gun with him in his vehicle and was not complying with commands.

As I approached the scene, I took a position of cover behind a patrol car and to the left of Deputy Blount.

Deputy Patrick was giving dispatch updates on the suspect`s actions.

During the incident, the suspect would not comply with commands given by Deputy Valencia in Spanish. On one occasion the suspect exited his vehicle and appeared ready to give up but then got back in. I could see his left hand most of the time through the vehicle window but the suspect kept his right hand below the window and out of sight.

Eventually the suspect exited the vehicle again. He hesitated as he exited and when he fully came out he had a black handgun in his right hand. As Deputy Valencia gave commands in Spanish, the suspect began to raise the weapon. I then heard two loud `pops` and the suspect fell to the ground. When he went to the ground, his hands were concealed under his body, so Deputy Parks deployed his K9 partner.

After a short time, myself and several Deputies approached the suspect. Deputy Matelli controlled the suspect`s hands while I placed him into handcuffs. As I was placing the suspect into handcuffs, someone kicked the black handgun away from the suspect. As the handgun slid across the asphalt, I could hear that it was plastic. I later visually inspected the handgun where it came to rest and saw that it was a BB gun. The gun had no orange tip and resembled a real firearm.

I marked the handgun and a piece of paper discarded by the suspect with my business cards as evidence.

Deputy Houser and I canvased the area downrange in an attempt to locate any spent rounds with negative

results.

I then went to the front of the church and interviewed [redacted] and his wife [redacted] They both stated that they had arrived at the church for a meeting at approximately 1900 hours. When the incident took place, they told me they heard Deputies giving commands and then heard 3 shots. After the shots they said they did not hear anything else.

I then interviewed [redacted] He stated he lives next to the church at [redacted] Alden Lane. His residence is directly downrange from this incident. [redacted] stated that a deputy came to his house and told him to evacuate. [redacted] left his residence and went across Old Redwood Hwy to the store so he did not hear any gunshots. He did however hear deputies giving commands to the suspect. [redacted] could not remember exactly what those commands were.

After speaking with [redacted] I went back to the scene where I waited until I was released. Upon being released, I was ordered to relieve Deputy Valencia who was guarding the suspect at Memorial Hospital. I arrived on scene at approximately 0003 hours and was relieved by Deputy Jason Little at approximately 0218 hours. During my time at the hospital, the suspect was sedated and intubated.

This incident was recorded on my BWC. This report is a synopsis of what occurred and not an exact transcript.

Nothing further.

Supplement Narrative

On 01-30-17 at approximately 1948 hours, FTO E.Seibold and I were in the main office when I heard a deputy say "I`m out with a man with a gun in the parking lot" over the radio. FTO Seibold and I responded to [redacted] Old Redwood Hwy to assist.

Upon arrival, I made my way to the trunk where I assisted FTO Seibold in carrying a bag equipped with less lethal equipment to the active scene.

Soon after, we made our way to where Deputies were staged next to a patrol vehicle. I noticed the suspects` vehicle was parked in the middle of a lot, his driver side front and rear windows were rolled up and the back window was foggy. The suspect was later identified as (OF) Luis Alberto Santiago- Olmedo. While FTO Seibold was obtaining a position for a possible less lethal deployment, I was told to take cover behind a patrol vehicle. From my position I clearly heard Deputy J. Valencia giving verbal commands to Santiago-Olmedo in Spanish via a patrol car PA system.

Based on Santiago-Olmedo`s uncooperative behavior and possession of a firearm, it was determined there was a lack of adequate cover/protection for the Deputies on scene. I was instructed by a Sgt. J. Ryan and FTO Seibold to bring over our patrol vehicle to the right side of the staging area for more protection. I moved our patrol vehicle to the staging area. At the staging area I was instructed how to position the patrol vehicle. I parked the patrol vehicle on the far right side at an angle facing the suspect vehicle.

FTO Seibold instructed me to move to the driver side of our vehicle and to take cover behind the engine block for further protection and a better visual of the suspect.

Based on my positioning, I had K9 Deputy Brian Parks and Deputy Larry Matelli approximately 5 feet in front of me to the left. From my location I did not have a clear shot at Santiago-Olmedo. I was concerned that Deputy Parks and Deputy Matelli could move into my line of fire unannounced. I saw Santiago- Olmedo slowly move his left hand, open the door slightly then quickly shut it again. A few minutes later Santiago-Olmedo opened the door half way. At one point I observed Santiago-Olmedo throw a white piece of paper that appeared to look like a napkin outside his vehicle then once again quickly shut the door.

The third time Santiago-Olmedo opened his door, he slowly began to exit the vehicle. He was facing me and repeatedly moving his hands from his upper chest to his waist band. During this time Santiago- Olmedo`s past and current actions caused me to believe he was reaching for a gun. Santiago- Olmedo gestures and uncooperative behavior heightened made me think he was planning to shoot us.

Santiago-Olmedo was standing in the doorway opening of the vehicle and was staring in my direction. He continued to ignore verbal commands from Deputy Valencia and it appeared he was staling. Suddenly, Santiago-Olmedo turned his back to us and reached in to the car with his right hand. Based on his movement I believed his intention were to retrieve the firearm from the vehicle instead of sitting back inside of it. As this was unfolding, I heard the sound of what I thought was a gun shot fired from the right side of the patrol vehicle. I observed Santiago- Olmedo`s body tense up but he continued to reach into the vehicle. Almost immediately after the first shot was fired, I heard a second shot fired from the left side of my location.

Santiago-Olmedo fell to the ground and his hands were concealed underneath him. At that point, I saw a Sheriff`s K9 advancing towards Santiago- Olmedo. Once the dog engaged, Santiago-Olmedo`s hands became visible. Santiago-Olmedo did not comply with verbal commands and the decision was made to approach. Upon my approach I observed a black handgun laying on the ground next to Santiago-Olmedo.

By the time I approached Santiago- Olmedo several Deputies already began tending to his injuries and no further assistance was needed.

My BWC was activated during this event.

Nothing further.

Supplement Narrative

On Monday 1/30/2017 at approximately 2245 hours, I was advised by CSI Sergeant V. Eaton of an Officer Involved Shooting (OIS) in the Town of Windsor, and requested our response. Responding from my home, I arrived at the Sonoma County Sheriff`s main office at approximately 2359 hours. Upon my arrival, I met with Sergeant Eaton and CSI Detective D. Fong in the VCI Office.

It had been decided prior to my arrival, that CSI Detective T. Newton was headed to the "[redacted]" at [redacted] Old Redwood Highway in the Town of Windsor, so he could meet with other detectives and begin documenting the scene by taking video and photos as needed. Upon speaking with Sergeant Eaton, I was tasked with being the lead CSI detective for the case. He would then assist Detective Fong in processing Deputies Parks and Seibold, whom were being sequestered at [redacted] in Santa Rosa. Both Detective Fong and Sergeant Eaton would also set up the audio/video equipment in order to monitor the interview process.

On 1/31/2017 at 0043 hours, I arrived in the rear parking lot of the church and met with Detective Newton. The scene was secured with yellow "Sheriff`s" crime scene tape, and the major incident access log was held and monitored by Deputy C. McCreedy. Upon entering the scene, I noticed 4 marked sheriff`s vehicles positioned behind and to the side of a burgundy Nissan Maxima, with California license plate number [redacted] There appeared to be various items of evidentiary value in the area of the driver`s door, later collected by CSI Detective Newton.

On scene at this initial briefing were VCI Detectives J. Toney and J. Fowler, PCI Sergeant S. Murphy and Detective K. Petersen, and ADA J. Murray and DA Investigator Ed Hemphill. After Detectives Toney and Fowler walked ADA Murray and DA Investigator Hemphill through the scene (monitored by Detective Newton to maintain scene integrity), Detective Newton was tasked with video recording the scene as well as the still photography needed. I documented the scene using the FARO 360 scanner. I later processed the scans with the SCENE program to create a WebShare (an interactive photographic 360 degree presentation). The WebShare would be booked later under evidence item #8-1430.

While Detective Newton was photographing the scene, Detective Petersen directed me to the church office, inside the [redacted], where I met with office manager [redacted] I completed a surveillance download from camera 3, which showed the parking lot where this incident occurred. I was unable to determine the exact time difference between actual and surveillance footage time, as I was unfamiliar with the system used. I placed the footage onto a thumb drive where I would later convert the files extensions from a .DAV (unreadable on our computers) format to a .AVI format so they could be viewed with

our software. I later placed the footage onto a dual-layer DVD marked as evidence item #1-1430.

I completed the scans of the scene and Detective Newton collected items of evidentiary value outside the vehicle involved. Deputy J. Falberg arranged for Creams Tow Company to respond to the scene and ultimately followed the tow to the main office where Creams deposited the car into the CSI vehicle bay.

We completed processing the scene at approximately 0410 hours and I returned to the CSI office. At 0512 hours, Deputy Falberg had followed Creams Tow to the CSI Office where I took possession of the burgundy Nissan Maxima. Creams Tow placed the Nissan inside the secured vehicle bay so I could process the vehicle for possible evidence later, in accordance to a search warrant authored by VCI Detective Horsman and signed by the Honorable Judge P. Ottenweller.

At 1326 hours, I began processing the Nissan Maxima inside the vehicle bay. I began by taking overall photos of the exterior and interior, at times both with and without scale to show size and dimension. VCI Detectives Toney and Fowler joined in the search of the vehicle. Upon the request of Detective Toney, I collected the following items:

2-1430: LG Model GPLG306GB
3-1430: Apple iPhone model A1634 (6S plus)
4-1430: Wallet with various forms of indicia
5-1430: Passport
6-1430: 2 checkbooks (Wells Fargo and Redwood Credit Union)
7-1430: $34 in cash

We collected the phones as they may be of evidentiary value to the VCI detectives` case. We collected the wallet, cash, checkbooks and passport from the vehicle for safekeeping, as we didn`t want to leave them in Santiago-Olmedo`s vehicle while it was being stored.

On 2/1/2017 at 0920 hours, Creams Tow Company picked up Santiago-Olmedo`s vehicle from the CSI vehicle bay to be stored at their yard until it can be retrieved. I placed the vehicle processing photographs onto a CD and booked them under evidence item #9-1430.

Nothing further at this time

Supplement Narrative

On Monday January 30, 2017 at approximately 2035 hours, I was working patrol, in uniform driving a marked patrol vehicle.

I heard Windsor P.D. units, state that they had an uncooperative subject armed with a gun at the [redacted], [redacted] Old Redwood Hwy.

I responded, upon arrival I parked on the south side of the building, retrieved my rifle and walked to where the patrol cars were with deputies engaging the Subject.

I went to the patrol car closest to the Subject`s vehicle on the driver`s side, the patrol car was parallel to the Subject`s car and a little offset to the rear. I laid my rife on the hood of the patrol car and had a view of the Subject in the driver`s seat.

Commands were being given to the subject, via loud speaker in English and Spanish. The Subject did not comply. After some time the Subject got out of the car leaving the driver`s door open. He made a few steps towards the rear of the car. Commands were still being given in English and Spanish. I heard the sound of a 40mm launcher, I then immediately heard the sound of a handgun firing one shot. The Subject turned and went to the ground. A canine was sent and did engage the Subject. Deputies approached and handcuffed the Subject.

I cleared the scene. Later, at approximately 2205 hours, I was dispatched to Memorial Hospital. I met Deputy Valencia there, the Subject was being treated. I spoke with Sgt. Ryan updating him on the Subject`s condition. Sgt. Ryan told me to clear from the hospital. A technician in the ER gave me four brown paper bags that contained the Subject`s clothing. A nurse gave me a ring from the Subject`s hand as he was being taken to surgery. I later booked the ring for safekeeping. I placed the clothing in a drying cabinet at the main office, drying room B cabinet #4. The clothing consisted of the following: one pair of black and white sneakers, one white tee shirt, one pair of blue jeans, one pair of red underwear, two bandages.

Body camera used.

Nothing further.

Supplement Narrative

On 3/14/17 at 0900 hours, I removed several articles from the secure Property/Evidence drying locker (#4) for photographs and packaging. These items had been secured by Deputy Blount and placed in the drying locker on 1/31/17, at my direction due to saturation with blood.

On this date, I prepared a clean sheet of butcher paper for processing and photographed each item individually, then packaged them and submitted to the Property Room for storage.

Item cb-2: Pair of black/white Nike Air Jordan shoes
Item cb-3: Portion of white cotton undershirt (apparently cut and removed by medical staff). Strips of blood-stained bandage were dried onto the shirt and packaged together.
Item cb-4: Blue jeans (Aeropostale brand) and orange Hilfiger brand underwear (apparently cut and removed by medical staff).

Digital photos of these items were later burned to a CD and booked into evidence as Item #ve-1.

Supplement Narrative

On 1/30/2017 at approximately 2050 hours, I heard over the radio that Deputy Patrick advise he had a subject at gunpoint at the [redacted] located at [redacted] Old Redwood Highway in Windsor. Deputy Patrick radioed the subject had a gun.

At 2052 hours, I attached to the call and responded code 3, I arrived at approximately 2055 hours. I positioned my patrol car directly to the south of the driver`s door approximately 15` away and illuminated the subject`s vehicle.

I removed my department issued shotgun and took a position in my driver`s door, using my door as cover. Deputy Valencia was giving verbal instruction to the subject in Spanish over the P.A. The subject was not responding to any of Deputy Valencia`s commands. I could see the subject clearly from where I was positioned. He appeared to be crying at times and wiping his face with what appeared to be a tissue. After several minutes of ignoring Deputy Valencia`s commands the subject slowly opened the door and exited the vehicle. He continued looking back into his vehicle, I was concerned that he was going to retrieve the firearm. Before getting back into the driver`s seat the subject tossed what appeared to be a crumpled piece of paper to the rear of his vehicle.

Deputy Valencia continued to give verbal commands in Spanish over the P.A. The subject was initially not responding. He then slowly exited the vehicle but stayed near the open door. I could only see his right hand and did not see him carrying anything in it. Verbal commands continued when I heard a firearm discharge, which sounded like a 40 mm less lethal within seconds I heard a second firearm discharge. After the first discharge I saw the subject turn quickly to his right when the second discharge was heard the subject then fell to the ground. When he fell to the ground I observed a black semi-automatic handgun near his feet. K-9 Deputy Parks sent his K-9 "Jags" who was able to pull the subject away from the pistol.

The subject was handcuffed and Deputy Matelli began checking the subject for impact wounds. I observed a single gunshot wound to the left chest area. I began cutting off the subjects shirt and jacket to access the gunshot wound. Paramedic`s arrived on scene and took over medical aid.

PCI Detective K. Peterson requested I tow the subject`s vehicle pursuant to 22655.5 V.C. at 0348 hours, I requested an evidence tow and was advised Cream`s Towing was dispatched. At 0445 hours, Creams Towing arrived. At 0455 hours, I followed the tow truck to the Main Office arriving at 0511 hours. Deputy Baraz was awaiting my arrival took possession of the vehicle.

My BWC was activated throughout this incident.

Nothing further.

Supplement Narrative

On 1/30/17, at approximately 2245 hours, I was contacted by CSI Sgt. Vance Eaton who told me an officer involved shooting had occurred in the Town of Windsor and that CSI would be needed to process the scene and collect necessary evidence from sequestered deputies. Deputy Parks and Seibold were being sequestered and were currently at [redacted] in Santa Rosa.

I was tasked with responding to [redacted] to set up an interview room and to take pictures of the sequestered deputies in uniform and to collect Deputy Parks duty firearm, magazines and ammunition.

At approximately 0041 hours, I arrived at [redacted] along with Sgt. Eaton where we met with DSA President/Deputy Mike Vail. Deputy Vail told us that Deputy Parks was currently sequestered [redacted] and Deputy Seibold was sequestered [redacted]

At approximately 0100 hours, I made contact with Deputy Seibold [redacted]. I obtained his duty firearm along with two extra magazines. Sgt. Eaton also obtained from Deputy Seibold his back-up firearm. In a separate room, I photographed Deputy Seibold`s duty firearm which was a Glock, Model 17, [redacted] with a Streamlight TLR-1 light attachment. I also photographed both Glock magazines.

As I cleared the firearm I noted there was a 9mm round in the chamber and the magazine contained seventeen (17) 9mm rounds. I found the two extra magazines also each contained seventeen (17) 9mm rounds.

I photographed Deputy Seibold`s back-up firearm, a Smith and Wesson Airweight .38 cal revolver. I found the cylinder was filled to capacity with five (5) .38 rounds.

I returned the firearms and magazines to Deputy Seibold. I then took overall photographs of Deputy Seibold, in uniform, to document his overall appearance.

At approximately 0118 hours, I made contact with Deputy Parks [redacted] I took overall photographs of Deputy Parks in uniform to document his overall appearance. I then collected Deputy Parks duty firearm and his two extra magazines. I found his duty firearm was a Glock, Model 17, [redacted] with a Streamlight TLR-1 light attachment. As I later cleared the firearm I found one round in the chamber and sixteen (16) 9mm rounds in the magazine. I found that both of his extra magazines each contained sixteen (16) 9mm rounds. I seized his firearm, ammunition and magazines as evidence item DMF1. Deputy Parks was the only deputy who discharged his firearm during this incident.

I then assisted in setting up A/V equipment between [redacted] for interviews.

I later transferred all photos onto a CD-R disk, which was marked as evidence item DMF2.

Nothing further.

Supplemental Report
Sonoma County Sheriff`s Office
Detective Jayson Fowler
Violent Crime Investigations Unit (VCI)
Windsor Police Department Officer Involved Shooting
Case # WI170130-005

NOTIFICATION

On 01/30/2017, at approximately 2256 hours, I received a telephone call from fellow SCSO VCI Detective J. Toney informing me of an Officer Involved Shooting having just occurred in the town of Windsor involving SCSO Deputies. Detective Toney requested I respond to the SCSO Main Office.

BRIEFING

On 01/30/2017, at approximately 2325 hours, I arrived at the SCSO Main Office where I was briefed by Detective Toney about the circumstances around the Officer Involved Shooting. Detective Toney told me the following information in summary.

On 01/30/2017, at approximately 2033 hours, SCSO Dispatch received a 911 wireless call from the area of [redacted] Old Redwood Highway, Windsor [redacted]). WPD Deputy R. Patrick and his trainee Deputy R. Wang arrived on scene and located a maroon Nissan Maxima in the parking lot that had a lone male subject inside. While Deputies Patrick and Wang were attempting to contact the subject in the vehicle they discovered the subject appeared to be in possession of a black semi-automatic handgun. Deputies Patrick and Wang took positions of cover and requested additional deputies respond to the scene.

An approximate 40 minute stand-off ensued between the subject, later identified as Luis Santiago-Olmedo, and the deputies on scene. During the stand-off it was learned Santiago-Olmedo was potentially suicidal. The stand-off ended when Santiago-Olmedo exited his vehicle holding what appeared to be a black semi-automatic handgun in his hand, pointing it in the direction of the deputies. Deputy E, Seibold fired one less lethal 40mm

round at Santiago-Olmedo and Deputy B. Parks fired one round from his duty firearm striking Santiago-Olmedo in the abdomen.

Santiago-Olmedo was transported to Santa Rosa Memorial Hospital and was currently undergoing surgery for his gunshot wound. Santiago-Olmedo was expected to survive his injuries.

Deputies Parks and Seibold were both sequestered and transported [redacted] Santa Rosa.

Detective Toney requested I assist him with the interviews of both Deputy B. Parks and Deputy E. Seibold. Prior to responding to [redacted] I accompanied Detective Toney to the scene at the Our Lady of Guadalupe Church.

SCENE

Detective Toney and I arrived at the scene of the Officer Involved shooting on 01/31/2017, at approximately 0040 hours and signed into the Major Incident Access Log managed by Deputy S. Short. On scene Detective Toney and I met with Sonoma County Deputy District Attorney J. Murray, Sonoma County District Attorney Investigator E. Hemphill, and SCSO PCI Sgt. S. Murphy. Sgt. Murphy briefed DDA Murray and DAI Hemphill. We conducted an investigative walkthrough of the scene. At the end of the investigative walkthrough, Detective Toney and I left the scene, signing out on the Major Incident Log at approximately 0115 hours.

INTERVIEW WITH DEPUTY ERIC SEIBOLD by DETECTIVES FOWLER AND TONEY

On 01/31/2017, at approximately 0212 hours, Detective Toney and I arrived at [redacted] Santa Rosa to conduct interviews with Deputies Parks and Seibold. Detective Toney determined we would interview Deputy Seibold first and requested I conduct the interview.

On 01/31/2017, at approximately 0338 hours, I conducted an interview with Deputy E. Seibold [redacted] with the assistance of Detective Toney. I utilized the format of the Sonoma County Sheriff`s Office Critical Incident Guidelines Manual. The interview was conducted in accordance with the "Involved Officer Interviews". Present in the room during the interview was Deputy E. Seibold, his attorney, Michael Rains, Detective J. Toney, and I. The interview was monitored by closed circuit television from [redacted] by DDA J. Murray, DAI E. Hemphill, and SCSO PCI Sgt. S. Murphy. The interview was audio recorded and was later transferred to a CD-R, marked for future identification as JF01, and placed into evidence. The following, in essence, is what Deputy Seibold told us. For exact statements refer to the CD-R marked JF01.

I explained to Deputy Seibold we were conducting a criminal investigation, he was being interviewed as a witness, His statement was voluntary, he was free to leave at any time, and he was not obligated to answer any questions. Deputy Seibold stated he understood and he had ample time to gather his thoughts and prepare himself for the interview. Deputy Seibold advised there was nothing from hindering him from providing us a statement at the time. I also confirmed with Deputy Seibold there was no close friendship or relationship between he and I other than we both work at the Sonoma County Sheriff`s Office.

At the time of the incident, Deputy Seibold was not sick or injured. He did not receive any injuries as a result of the incident. He was not suffering from any medical condition or taking any medication that may have impaired his abilities as a law enforcement officer. Deputy Seibold slept the evening prior to the incident for approximately eight hours, waking at approximately 0900 hours on 01/30/2017 (day of the incident). Deputy Seibold ate a meal approximately 30 minutes prior to responding to the incident and had not consumed any alcohol in the 24 hours preceding the incident.

Deputy Seibold has been employed as a Deputy with the SCSO for approximately nine and a half years. Deputy Seibold has been employed in the field of law enforcement for approximately thirteen years. Deputy Seibold was employed by the Los Angeles County Sheriff`s Office for approximately three years prior to his employment at the SCSO.

Deputy Seibold holds the collateral assignments of SWAT team member, Use of force instructor, and Field Training Officer at the SCSO. Deputy Seibold attended an 80 hour SWAT School as part of his training as a SCSO SWAT team member. As a member of the SWAT team, Deputy Seibold has received extensive firearms and less lethal weapons system training including specific training on the use of the 40 mm less lethal munitions delivery system.

At the time of the incident, Deputy Seibold was working as a Field Training Officer and had Deputy Trainee Aziz Atallah with him. At the time of the incident, Deputy Seibold was assigned to Main Office cover shift Sunday through Wednesday 1400 until 0200 hours. Deputy Seibold started his shift on 01/30/2017 at 1400 hours and utilized the call sign J34. Deputy Seibold`s assignment was a uniformed assignment and he had been in the assignment for approximately five months. Deputy Seibold`s assigned patrol vehicle was A824 which he utilized as additional cover while the incident unfolded.

At the time of the incident Deputy Seibold was wearing his assigned uniform which consisted of a tan uniform shirt bearing Sonoma County Sheriff`s Office patches affixed to both shoulders and a cloth badge affixed to the front. Deputy Seibold was wearing green BDU pants and his duty belt. On his duty belt, Deputy Seibold had his department issued firearm, extra magazines, handcuffs, and his taser. Deputy Seibold was also carrying a .38 caliber back-up firearm in the left cargo pocket of his BDU pants. Deputy Seibold carried his issued SWAT rifle in his patrol vehicle which remained in his patrol vehicle. Deputy Seibold did not have his department issued shotgun, but his trainee, Deputy Atallah had his department issued shotgun in the vehicle. Deputy Seibold was also equipped with a forty millimeter less lethal munitions launcher he uses in both his roles as a SWAT team member and Patrol Deputy. Deputy Seibold deployed his 40 millimeter less lethal munitions launcher during the incident. Deputy Seibold was also equipped with a body worn camera.

I explained to Deputy Seibold the nature of the investigation concerned a significant incident he was recently involved in the area of the [redacted] Old Redwood Highway, Windsor). I asked Deputy Seibold to describe the event in as much detail as he could, including the time of the event, names of witnesses, names of officers as best as he could recall, including all the information he could remember relative to the circumstances.

Deputy Seibold and Deputy Atallah were at the SCSO Main Office report writing room when Deputy Seibold overheard via patrol radio a fellow deputy, who`s voice he didn`t recognize, transmit he was out with a man with a gun in a parking lot. Deputies Seibold and Atallah rushed to their patrol car and as they did so Deputy Seibold realized the parking lot the incident was occurring was at the [redacted] which Deputy Seibold was familiar with from prior patrol assignments. As Deputies Seibold and Atallah get into

their patrol car, Deputy Seibold heard the deputies on scene request a less lethal munitions launcher be brought to the scene. Deputy Seibold overheard via patrol radio that Sam-3 (Sergeant J. Ryan) had a less lethal munitions launcher and was responding to the scene. Not knowing where Sgt. Ryan was responding from, Deputy Seibold retrieved a less lethal munitions launcher from the SWAT locker at the SCSO Main Office and placed it in his patrol car. Hearing the circumstances the man was armed with a firearm, Deputy Seibold also retrieved his rifle. As Deputy Seibold was retrieving his equipment he remembered overhearing radio traffic something to the effect the armed subject in the vehicle was non-compliant.

Deputies Seibold and Atallah respond to the scene and pulled into the parking lot on the south side as they were requested to. Deputies Seibold and Atallah exited their patrol vehicle and started moving up to where the other deputies were positioned. As Deputy Seibold did this he realized there was no less lethal munitions launcher on scene so he ran back to his patrol car and retrieved the one he brought.

Deputy Seibold knew Deputy Parks and his canine partner were on scene from hearing radio traffic transmitted by Deputy Parks. Knowing Deputy Park`s canine partner, "Jags" was on scene, Deputy Seibold believed "Jags" would be the first line of defense if the subject got out of the vehicle. Deputy Seibold explained in a tactical situation it is common practice to simultaneously fire a sponge round/less lethal round the same time the canine is sent to engage the subject in an effort to effectively catch the subject by surprise, ultimately getting the subject away from the vehicle he was barricaded in. Deputy Seibold positioned himself to the side of the patrol car Deputies Parks and Matelli were using as cover. Deputy Seibold realized there were too many people using that patrol car as cover and the patrol car was positioned in such a way he was unable to locate adequate cover for he and Deputy Atallah for the circumstance the subject was armed with a firearm. Deputy Seibold had Deputy Atallah go back and retrieve their patrol car and bring it up closer to the scene so they could use it as cover. Deputy Seibold took a position of cover on the right side of the vehicle behind the passenger side door, leaving Deputies Parks and Matelli at the previous patrol vehicle. From his vantage point, Deputy Seibold had a good view of the foggy back window of the suspect vehicle and could see driver`s side back window, the driver`s window, and a view of the subject`s arm.

Deputies Parks, Matelli, and Seibold formulated a plan that if the subject exited his vehicle, moved approximately five feet from the vehicle and was still non-compliant Deputy Seibold would fire a less lethal sponge round while Deputy Parks released his canine partner "Jags" simultaneously. The goal in doing this would be to prevent the subject from re-entering his vehicle.

Deputy Seibold described how the subject would open and close the door to his vehicle several times throughout the duration of the incident. Deputy Seibold remembered that on each occasion of the subjects door opening, deputies on scene announced whether or not they could see the subject`s hands and if the subject was holding anything in his hands each time the door opened. Deputy Seibold believed if the subject turned towards Deputies Parks, Matelli, Atallah and him with the gun in his hand any one of them could have been shot. Deputy Seibold stated if the subject were to shoot through the back window of his vehicle the only thing between Deputy Seibold and the subject was the passenger door to his patrol car.

Deputy Seibold continued speaking about formulating the plan with Deputies Parks and Matelli and confirmed if the subject was exited his vehicle and was non-compliant, Deputy Seibold would fire a less lethal sponge round at the subject. If the subject were to exit his vehicle and complies. They would just use verbal commands to take the subject into custody.

Deputy Seibold remembered hearing Deputy Valencia using the PA system on a patrol car speaking in Spanish trying to coerce the subject into exiting his vehicle. Deputy Seibold described the tone utilized by

Deputy Valencia as being not aggressive, but was more of a sympathetic tone.

At one point the subject opened the door to his vehicle and put one of his feet out and Deputy Seibold could still only see one of the subject`s hands. Deputy Seibold described how the subject did this several times and believed the subject was contemplating exiting the vehicle because the subject kept looking at the deputies. While the subject did this Deputy Seibold overheard several of the deputies say they could see something seated in the lap of the subject which they ultimately determined to be a cell phone. The subject then closed the door to his vehicle and Deputy Seibold could no longer see the subject`s hands.

An unknown amount of time went by and the subject opened his door again, but this time the subject put both of his feet outside of the vehicle. Deputies Seibold and Parks had a conversation about only seeing the subject`s hands and one leg and how a sponge round at twenty yards is only going to bother the subject and not incapacitate or coerce him to exit his vehicle. It would more than likely make the subject retreat back into his vehicle so Deputy Seibold decided not to fire the sponge round at that time. The subject shut the door again.

Another unknown amount of time went by and Deputy Valencia continued to coerce the subject out of his vehicle. At this point Deputy Seibold remembered the door of the subject`s vehicle opened again and the subject stands up, but is still in the opening of the doorway. Deputy Seibold stated they needed the subject to clear (walk away from) the doorway of the vehicle so if Deputy Parks` canine partner "Jags" engages the subject the subject would not be able to pull "Jags" into the vehicle or retrieve the firearm from the vehicle.

Deputy Seibold knew there was information about approximately 20 people being in the church and he did not know if they had been evacuated or not at this point. Deputy Seibold was also mindful there were several houses/residences behind where the subject vehicle was located.

Deputy Seibold continued to explain how the subject was standing in the open doorway of his vehicle continuously changing where he would look between looking at the deputies and looking into the passenger compartment of his vehicle. Deputy Seibold described the subject as not looking confused, but more like he was trying to figure out what he was planning on doing.

Deputy Valencia convinced the subject to step away from his vehicle. As the subject began walking towards the deputies, not having cleared the door to his vehicle, Deputies Parks and Seibold said they couldn`t let the subject back in the car. Deputy Seibold remembered talk about the subject coming out of the vehicle with a gun at this point, but it was determined to be a cell phone. Deputy Seibold described the subject as standing in the doorway to his car with his hands on the post of the car and as he saw this he noticed there is nothing in the subject`s hands. The subject then starts to go back into the vehicle and knowing he couldn`t let the subject back into his car, Deputy Seibold fired one sponge round from his less lethal munitions launcher. The subject arched his body and the next thing Deputy Seibold heard was another round going off next to him. Deputy Seibold discarded the 40 mm less lethal munitions launcher and grabbed his rifle from the passenger seat of the patrol vehicle. Deputy Seibold came back on focus to the subject and heard talk of a gun and that "Jags" had been deployed. Deputy Seibold described "Jags" as doing a good job and eventually pulled the subject away so his hands came out from underneath him.

The subject did not respond to the deputies` commands to come back to them so Deputy Seibold stated they had to approach. Several deputies approached the subject from different angles and Deputy Seibold remembered one of them saying "Get the gun out of the way! Get the gun out of the way!" Deputy Seibold did not know who got the gun away and when he realized there were plenty of deputies tending to the subject he

stepped away, walked back, and kept away. Deputy Seibold saw Deputy Matelli get up on top of the subject, flip him over, and start life saving measures. Deputy Seibold knew that the fire department/EMS was already nearby and heard someone say clear the spike strips (which had been placed in the exits to the parking lot in case the subject attempted to drive his vehicle from the scene) so fire and EMS could enter the scene. Knowing the situation was secured, Deputy Seibold returned to his patrol car, checked on his trainee, Deputy Atallah, and sat down in his patrol car awaiting further instruction from supervisors on scene.

I told Deputy Seibold I was going to ask him some clarifying questions and he stated he understood. I was unclear on who, Deputy Seibold or Deputy Atallah, drove the patrol car from the SCSO Main Office to the scene so I asked him who drove. Deputy Seibold told me he initially began driving, but when he heard they needed less lethal at the scene he turned the patrol car around, parked, exited, and retrieved the less lethal from the SWAT locker. Deputy Seibold returned to the patrol car and told Deputy Atallah to drive. Deputy Atallah drove the patrol vehicle about 100 yards until Deputy Seibold thought better of it and told Deputy Atallah to stop the car so he could drive. Deputy Seibold switched positions with Deputy Atallah and drove the rest of the way to the scene.

I asked Deputy Seibold how the lighting conditions were in the parking lot of the scene when they arrived. Deputy Seibold described the parking lot as sporadically lit, but explained the scene was pretty well lit from the lights of the patrol cars, specifically the spotlights and takedown lights. Deputy Seibold described it being dark outside and knew the incident occurred after 1900 hours because he knew SCSO Graveyard deputies were on duty when the incident occurred.

Note: At the time of the incident the scheduled SCSO Graveyard shift was from 1900 hours until 0700 hours.

I asked Deputy Seibold to approximate how far he was from the subject after he took cover behind his patrol car after Deputy Atallah had moved it. Deputy Seibold estimated the distance at roughly 20 yards. Deputy Seibold also explained there was an island with a tree and light standard in it between his patrol vehicle and the subject`s vehicle.

I confirmed with Deputy Seibold he was on the passenger side of his patrol car using the passenger door as cover. I also confirmed that after firing the one round from the 40mm less lethal munitions launcher, he "ditched" it and retrieved a lethal firearm, but never fired it. I confirmed with Deputy Seibold the lethal firearm he pulled and never fired was his rifle and not his duty handgun.

I asked Deputy Seibold if he heard Deputy Valencia giving commands to the subject in both English and Spanish. Deputy Seibold told me once he arrived on scene Deputy Valencia was giving commands in Spanish, but while responding to the scene heard over the radio that deputies were giving commands in both English and Spanish.

I asked Deputy Seibold at what time during the incident did he hear the information the subject may have been armed with a firearm. Deputy Seibold said he learned that immediately when he was in the report writing room, prior to his response to the scene. While responding to the scene, Deputy Seibold remembered further updates over the radio about deputies seeing the firearm.

I asked Deputy Seibold at any time during the incident did he see the subjects firearm. Deputy Seibold stated he did not see the firearm, but at one point he saw the subject fumbling with something in his lap which was later determined to be a cell phone.

I asked Deputy Seibold if other than Deputies Parks and Matelli he had a conversation with deputies on scene about formulating a plan. Deputy Seibold explained how his main concern was his trainee, Deputy Atallah, because he was only six hours into his first shift. Deputy Seibold made sure Deputy Atallah had his firearm out and that they all were pointing in the same direction. I asked Deputy Seibold if it was safe to say any dialogue he had with deputies on scene was with the deputies in close proximity. Deputy Seibold replied, "Yeah, my immediate ten foot radius."

Deputy Seibold stated he had no prior knowledge of the subject. When asked if he had any specific training responding to calls with people armed with firearms Deputy Seibold said, "Yes. Endless hours of whether it be BLOC training, specialized SWAT training, in house training Um, Active Shooters, Hostage stit-, Situations. Uh, we- we, run a lot of those." I clarified with Deputy Seibold these trainings also encompassed suicidal subjects.

During the incident, Deputy Seibold felt the risk to the deputies on scene was "pretty high". Deputy Seibold further said, "There was not a lot of cover, um, the angles that we were on didn`t provide a lot, a lot of cover, I mean you had s-, you had to deal with what was available at the time. Now that you have a guy with a gun that we can`t see. Esp-, I definitely couldn`t see into the back of his car, so I s-, so my movement of him was limited. If he leaned to the right I know he leaned to the right he`s out of my view. So there`s a lot of risk that we were taking, uh, by being as we couldn`t back up but we couldn`t go forward. We`re stuck where we are because we can`t, we can`t turn and walk away because then you can`t see him. Uh, if he`d w-, went forward he would drive right into a house or shoot right into a house. Those are a ton of risks for the general public. There`s abandoned houses on that, that are, um, occupied by transients. We don`t have phone numbers into some of these places and there`s a churc-, and we`re in a church parking lot that has active people inside of it. The risk to, to public safety was, was pretty immense."

I stated that it sounded like there was risk to the general public as well. Deputy Seibold agreed and stated the incident was approximately 100 yards from Old Redwood Highway, the most travelled street in the Town of Windsor.

Deputy Seibold stated the incident was recorded on his Body Worn Camera and he had not reviewed the footage prior to the interview. I asked Deputy Seibold if he wished to view any video recording of the event now. Deputy Seibold declined by saying, "not necessary."

Detective Toney asked Deputy Seibold to expand on the purpose of the 40 millimeter less lethal munitions launcher and reasons why it`s deployed in respect to levels of force. Deputy Seibold replied, "It`s used, uh, as a less lethal device, by its name. It`s a 40 millimeter, it shoots a projectile of different styles, um, this specific projectile that I was using is something referred to as a sponge round. Uh, it shoots I can`t give you an equivalent but it would be like getting hit with a fastball. Uh, its we don`t aim at the head, um, just throws you, throws the person off causes an am-, an amount of pain and kind of a shock to them, not an electric shock but the shock being struck by something after a loud noise, uh, can th-, can throw off their concentration of what they`re doing. And can also safely make somebody stop doing what they`re doing. Maybe just from the fear, kind of some of the similar things that a, that a canine has going for it. That the, that the dog doesn`t always get a great bite, but the fear alone and the I`m not a canine guy I, I don`t have any, any, uh, expertise in this but, that`s why we use the two of `em together so that the dog can be successful for what it`s doing. Uh, it all, the f-, the forty will also launch gas into the car if for some reason we find the need and we come up with a gas plan that, um, gas needs to be put into the car to get, coerce this person to come out as another option. So I have all those things with me, uh, if it has to get even further than that we don`t shoot, uh, hard projectiles that are meant to, that are meant to be lethal out of it but some of projectiles that do get shot from it can be a lethal,

a lethal shot if they`re shot at a person. So, we use it as a tool to deal with people, suicidal people because it`s not, it- it, it`s not a, it`s not a f-, firearm in the, in the way that it`s going to it that`s not meant to designed to kill people."

Detective Toney asked Deputy Seibold to clarify what he meant when he mentioned the subject grabbed the post of his vehicle as he exited. Deputy Seibold explained the subject put his two hands on his vehicle where the door closes at the roofline.

Deputy Seibold stated he has been trained and certified in the use of the 40 millimeter less lethal munitions launcher.

Detective Toney clarified with Deputy Seibold the windows to the subject`s vehicle were foggy and he felt as if he was at a disadvantage because he couldn`t see into the vehicle. Detective Toney also clarified Deputy Seibold mentioned how easy it would have been for the subject to fire at them from inside his vehicle. Deputy Seibold replied, "Yes. I can`t see him, action beats reaction. If he`s formulated the plan to do so it`s going to take nothin` for him to put, point it over his shoulder and shoot rounds at us and there`s houses behind us too."

Detective Toney asked if Deputy Seibold had learned during the incident that the subject was suicidal or threatened suicide. Deputy Seibold replied, "I had no, no prior knowledge of that. Based on his actions, um, it appeared he was distraught but I have no reason to believe that he was suicidal or gonna turn his focus towards us."

Detective Toney confirmed with Deputy Seibold that he had attended a forty hour crisis intervention training where he learned how to recognize the behaviors he just spoke about.

Deputy Seibold confirmed he only remembered hearing commands given to the subject in Spanish and described the subject as moderately responding to them. Deputy Seibold believed that only Deputy Valencia was the one giving the subject commands in Spanish because he is the only Spanish speaker working on his shift. Deputy Seibold described the commands Deputy Valencia gave in Spanish as very clear and concise. Deputy Seibold described the commands given by Deputy Valencia as not too loud or too quiet, but a perfect tone. Deputy Seibold estimated he was the same distance from Deputy Valencia as the subject was and he could clearly hear the commands.

Detective Toney confirmed that Deputy Seibold was aware EMS was staged a short distance away from the scene.

Detective Toney asked Deputy Seibold to estimate how many deputies he remembered being on scene during the incident. Deputy Seibold estimated the number at 12, but stated he was unsure because he did count them.

Deputy Seibold estimated 25 to 30 minutes of dialogue went on during the incident and further described it as consistent dialogue with very few breaks. Deputy Seibold did not hear the subject audibly respond to the commands given by Deputy Valencia, but did see the subject turn his head from side to side in response.

I asked Deputy Seibold if there was anything else he would like to add. Deputy Seibold explained how the subject turning his head, covering his eyes, and looking around made Deputy Seibold believe the suspect was "target seeking". Deputy Seibold further described how he felt he was underpowered with the 40 millimeter less lethal munitions launcher since he didn`t have good coverage from the engine block of the patrol vehicle due to the way it was positioned.

Deputy Seibold stated he never saw the subject`s firearm and attributed not seeing it because the subject`s back was towards Deputy Seibold when he reached back into the vehicle. Deputy Seibold remembered hearing deputies saying during the incident that they saw the firearm, but Deputy Seibold never saw it.

Deputy Seibold explained how he approached the subject with other deputies after the subject was shot and lying on the ground, but realized there were plenty of deputies dealing with the subject so he turned around and walked back towards his patrol car. Deputy Seibold recalled seeing Deputy Matelli render life saving measures to the subject.

Having no further questions for Deputy Seibold I stopped my digital recorder at 0419 hours. Detective Toney and I left the room and quickly contacted DDA J. Murray and determined there were no further questions that needed to be asked of Deputy Seibold.

Detective Toney and I re-entered [redacted] at approximately 0421 hours and I started my digital recorder.

I asked Deputy Seibold if there was anything else he would like to add to which he replied. "No". I asked Mr. Rains if there was anything he would like to add to which he replied, "No there`s not". I ended the interview with Deputy Seibold at approximately 0422 hours, stopping my digital recorder.

INTERVIEW WITH DEPUTY BRIAN PARKS by DETECTIVE`S TONEY AND FOWLER

On 01/31/2017, at approximately 0436 hours, I assisted Detective Toney with the interview of Deputy Brian Parks [redacted] Santa Rosa. Present in the interview was Deputy B. Parks, his attorney Michael Rains, Detective Toney and I.

See Detective Toney`s report for information gleaned from the interview with Deputy Parks.

On 01/31/2017, at approximately 0709 hours, Detective Toney and I met with on duty WPD deputies and conducted a grid search of the parking lot of the [redacted] where the incident occurred the night prior. We were specifically looking for the expended round fired by Deputy Parks that ultimately went through Santaigo-Olmedo. We inspected the parking lot for approximately 40 minutes leaving at 0749 hours, not locating the expended projectile.

Nothing further.

Supplement Narrative

On 1/30/17 at approximately 2038 hrs, I was dispatched to the area of [redacted] for a wireless 911 call. Deputy Patrick advised via portable radio that he and his trainee, Deputy Wang would handle the call for service. I was cleared from the call.

At approximately 2039 hrs, dispatch advised they received another 911 call and were on the line with a Spanish speaking male asking for a translator. The male stated he was at the [redacted]. The line then disconnected.

At approximately 2050 hrs, Deputy Patrick advised via portable radio that he had one subject at gunpoint and that the subject had a gun. I arrived on scene within a minute and parked my patrol car at the North West entrance/exit where Deputy Patrick`s vehicle was parked. I activated my Body Worn Camera (BWC/later reviewed for supplemental report)

I could see Deputy Patrick standing in the parking lot with his gun pointed at a vehicle (maroon sedan) that was parked near the middle of the back parking lot. I removed my department issued shotgun and approached a Cadillac Escalade that was parked approximately 25 yards (south) of the suspect vehicle and took cover. Deputy`s Patrick and Wang both took cover behind this vehicle as well.

I could see a Hispanic male, later identified as Luis Santiago Olmedo, sitting in the driver`s seat of the patrol car. It appeared he was talking on a cell phone as he sat in the car. Deputy Patrick said that Luis had a handgun in his right hand. Deputy Patrick gave a loud and clear command for Luis to show us his hands. Luis ignored the command. Deputy Valencia arrived on scene and illuminated Luis` vehicle with his spotlight. Deputy`s Patrick and Wang moved their position to Deputy Valencia`s patrol car. Numerous other deputies arrived on scene and took up various positions.

Deputy Valencia (fluent in Spanish) began to give verbal commands in both Spanish and English to Luis (repeatedly). Deputy Valencia announce Sheriff`s department and to exit the car with his hands up (refer to Deputy Valencia`s supplemental report).

Luis ignored all commands given by Deputy Valencia. Other than appearing to be talking on a cell phone, it appeared Luis was crying. I saw Luis shake his head in a "no" fashion after one of Deputy Valencia`s commands.

For a good portion of the time we were on scene, Luis` right hand was out of sight. At one point Luis cracked

the driver`s door and then shut it. Several minutes later Luis opened the driver`s door and exited the car with his hands in plain view. It appeared Luis had a Kleenex or piece of paper in one of his hands. I did not see anything else in his hands. At some point while out of car it appeared Luis reached for his waist band, but moved his hand back up in plain view.
Luis threw whatever he had in his hand to the ground in what appeared to be disgust. He then got back into the driver`s seat of his vehicle and shut the door.

At some point, Sgt. Ryan asked that I remove the spike strip from my patrol car. This was to have them available in case Luis attempted to drive off and the spike strip could possibly be deployed. I moved to my patrol car, removed the spike strip and put them on the ground near my patrol car. I announced via portable radio the spikes were out in the event they were needed. I returned to the Cadillac Escalade and took cover. At this point Deputy Maikranz took a position of cover with me at the Escalade.

Deputy Valencia continued to give verbal commands over the P.A. system of a patrol car. Luis again opened the driver`s door and slowly exited his car. From my vantage point, it appeared Luis had his hands up and visible. Luis then moved his left hand down towards his waistband. Again because of my vantage point, I lost sight of Luis` left hand. At this point, I felt that Luis may being reaching for the mentioned gun. Within moments I heard a weapon discharge (sounded like a less lethal, 40mm) and within seconds heard a second weapon discharge (sounded like a firearm).

Luis immediately fell to the ground. Deputy Parks (K9) released his K9 partner Jagz who made contact with Luis. Jagz pulled Luis several feet from where he initially fell. I could see what appeared to be a black handgun lying on the ground where Luis originally fell. Luis was unresponsive as he lay on the ground.

Deputies moved forward and took Luis into custody. Windsor Fire Department and Bell`s Ambulance (staged in the area) entered the scene and rendered first aid to Luis and then transported him to the hospital.

Nothing further.

Supplement Narrative

SONOMA COUNTY SHERIFF`S OFFICE
VIOLENT CRIME INVESTIGATIONS
SUPPLEMENTAL REPORT
VCI DETECTIVE JOSEPH HORSMAN
WINDSOR POLICE DEPT. CASE # 170130-005

NOTIFICATION-

On 01/31/2017, at approximately 2258 hours, I received a phone call from Sgt. Shawn Murphy. He requested I respond to the Sheriff`s Main Office to assist with an investigation related to an Officer Involved Shooting which had occurred in Windsor.

INVESTIGATION-

I arrived at the Sheriff`s Main office at approximately 2225 hours. VCI Detective Jeff Toney briefed me on the case. I examined the call chronology and listened to the 911 call in the Dispatch Center. I in turn authored a Search Warrant for the suspect`s vehicle and for his person to obtain a blood sample for drug/alcohol testing (see that warrant for further details). Judge Peter Ottenweller authorized the mentioned Warrant at approximately 0212 hours.

I responded to Memorial Hospital and spoke with RN [redacted] who was the nurse in charge of the suspect`s medical care. I requested she provide me samples of blood from the suspect, Luis SantiagoOlmedo. I provided her a copy of the face sheet of the Search Warrant for her records. At approximately 0316 hours I witnessed her draw 3 vials of blood from Luis. I placed 2 of the vials into a drug testing kit (JH-1) for future analysis. I placed the remaining vial into an alcohol testing kit (JH-2) for future analysis. I later booked these samples into Evidence as Items JH-1 and JH-2. I left a Search Warrant notice and inventory sheet which reflected this collection of blood, and requested RN [redacted] place the papers into Luis` property. RN [redacted] did inform me Luis had been given Dilaudid and Propofol prior to the mentioned blood draw.

CSI Detective Michael Baraz ultimately completed the search of the suspect`s vehicle. See his supplemental report for further details. I ultimately completed a search warrant return in relation to the service of this warrant.

SUSPECT INTERVIEW-

On 02/02/2017, at approximately 1455 hours, I interviewed Luis at Memorial Hospital. VCI Detective Jeff Toney accompanied me. I spoke with Luis in Spanish and relayed what he was saying to Detective Toney. Prior to speaking with him I informed him that he would be under arrest upon being discharged from the hospital. I informed him of Miranda via a preprinted Spanish Miranda card. When asked if he understood the rights I explained to him he responded by saying, "si" (yes). Luis relayed the following in summary:

He remembered being in Windsor at the church. He wanted to die and didn`t have the courage to do it himself. He said it would be better if he wasn`t around. He said his family thinks he is different/odd. When I showed him the note recovered form the scene he confirmed he wrote it the evening in question, prior to arriving at the church (wrote the note at home). He explained how the Deputies did not shoot him the first time he emerged from his car, so he grabbed the air gun the second time he emerged from the car. He said he had the gun pointed downward and never actually pointed it at the Deputies. He admitted wanting the Deputies to shoot him though. He admitted he still wished he was dead. He admitted trying to commit suicide one year prior by ingesting pills.
Approximately 1 1/2 hours later Detective Toney and I returned to the hospital to ask Luis to provide us his password for his phone. Prior to this I asked Luis if he remembered all the rights I had previously explained to him. He replied, "si" (yes). He confirmed the phone shown to him was his and that the password was "[redacted].

I audio recorded both of the times I spoke with Luis. I later placed these recordings onto a Data CD and into Evidence as item JH-4.

DOJ TOX RESULTS-

On 02/22/2017, at approximately 1228 hours, I received a letter from the California Dept. of Justice. It contained results of analysis completed on JH-2 (blood sample from suspect). In summary it concluded that JH-2 contained 0.000% alcohol. I later booked this letter into Evidence as item JH-3.

Nothing further.

Incident/Investigation Report

Agency: Windsor Police Department **Case Number:** 170130-005

Supplement Narrative

On 01-30-17 at approximately 2050 hours, I heard Deputy Patrick advise via Sheriff`s radio that he was holding a suspect at gunpoint in the parking lot. I immediately activated the emergency lighting and siren on my patrol vehicle and began responding to his location at [redacted]. While I was driving, I heard Deputy Patrick provide additional information, indicating the suspect (later identified as S/LUIS OLMEDO) was in possession of a firearm and was not responding to commands. As I was arriving on scene, Deputy Patrick requested patrol vehicles at his location to provide additional cover. I drove into the parking lot and positioned my patrol vehicle to the rear driver`s side of the suspect vehicle and illuminated the suspect vehicle with the take down lights and spotlight on my vehicle.

After I positioned my vehicle to provide cover, Deputy Valencia began utilizing the public address system on it to give OLMEDO instruction in both English and Spanish. I took a position of cover behind another patrol vehicle and monitored OLMEDO`S movements while Deputy Valencia repeatedly asked him to come out of the vehicle with his hands up. I noted that OLMEDO appeared to be speaking on the phone and repeatedly moved his hands in and out of view. At one point OLMEDO opened the driver`s door and began to get out of his car. He appeared to be crying and repeatedly reached into areas where his hands could not be seen. While he was still seated, I saw a shiny object in his lap which I believed to be a firearm and began announcing to deputies around me what I saw. Deputy Valencia corrected me and indicated the item in OLMEDO`S lap was a phone. OLMEDO stood up, but refused to walk away from his car and come to us. He ultimately threw a white piece of paper onto the ground, got back into the driver`s seat and closed his door.

Deputy Valencia continued trying to encourage OLMEDO to come out of his car so we could help him. OLMEDO opened his door again, but remained seated. He began repeatedly reaching into areas of the car where his hands were not visible. As he stood up from the driver`s seat, he kept his left hand out of view for a moment and then began turning back toward the car and appeared to be reaching into it with his right hand. I heard the sound of two gunshots from somewhere on the passenger side of my patrol vehicle, and saw a single large projectile flying toward OLMEDO from the area where the gunshots came from. OLMEDO immediately fell to the ground just outside his car and I saw a black semi-automatic handgun fall to the ground next to him. When OLMEDO landed on the ground, he was lying face down with his hands tucked beneath his chest. A K9 was deployed and began dragging OLMEDO away from his car. While the K9 was dragging him, OLMEDO`S hands became visible and I saw that he did not appear to be in possession of any other weapons. I moved forward with additional personnel and provided cover while OLMEDO was handcuffed. Upon checking the interior of the vehicle, I saw no additional subjects inside. Medical personnel were immediately summoned to provide treatment for OLMEDO who had a single gunshot wound to his torso.

After OLMEDO was transported, I assisted in securing the scene by placing crime scene tape up at one entrance to the parking lot to restrict access. I was advised there had been a large number of people inside Our Lady of Guadalupe at the time this incident occurred, and that they needed to be interviewed so they could be released. I noted numerous people standing in a courtyard area and began making contact with them individually to obtain their statements.

W/[redacted] stated he had been in Room "Y" with several other people. A deputy came in to ask if anyone here had called 911, and everyone told him they did not. A short time later, [redacted] saw the lights from emergency vehicles through the window of the room he was in. W/[redacted] went outside to investigate. [redacted] ultimately came back in and told everyone that deputies wanted them all to go to the front of the church.

W/[redacted] stated he had been in the same room as [redacted] when a deputy came in to ask if anyone had called 911. Everyone in the room said they did not call. [redacted] ultimately went outside to the parking lot where he saw several deputies near a red car which had a single person inside (OLMEDO). [redacted] heard someone on a loud speaker talking in both English and Spanish, saying that he was here to help and was not going to hurt him. The deputy on the loud speaker was telling OLMEDO to get out of the car. [redacted] saw that the deputies were pointing their guns at OLMEDO so he went back inside and told everyone else to stay inside as well.

W/[redacted] stated she was taking a class in Room C when officers came in and asked if anyone called 911. Everyone else in the room checked their phones and told the officers they had not called. Shortly after the officers left, [redacted] heard sirens and saw the lights of emergency vehicles through the window. She stayed in the class until someone came in and told everyone to go out to the front of the church.

W/[redacted] stated he was in a room attending a class when two officers came in and asked if anyone called 911. He told the officers he did not. A few minutes later he heard sirens outside and came out to the parking lot. He saw several deputies and heard one of them talking in both Spanish and English over a loud speaker. The voice on the loud speaker was addressing a male inside a car, and was saying that we were there to help, and to come out with your hands up. [redacted] said he went back to the room he came from until someone else came and told everyone to go out to the front of the church.

W/[redacted] stated she was in Room C when two officers came in and asked if anyone called 911. She came out of the room to check the hallway for other people and saw lights on in the sacristy where people were praying. She went in and asked if anyone here called 911 and was told that no one did so she returned to the other room. Approximately 5 minutes later, someone in charge of the church came and told everyone that something was happening outside and to stay in the room. [redacted] returned to the sacristy to tell those people to stay inside as well, but police came in and told everyone to evacuate so they all went to the front of the church.

[redacted] told me that the second time she went into the sacristy, she looked out the window and saw a red car in the parking lot. She could see a male inside the car and believes he had a gun in his hand. She could hear commands being given in both English and Spanish, telling the male to come out with his hands up.

W/[redacted] provided his statement to me with the assistance of [redacted] who translated for us. He stated that he was in Room C when police came in to ask if anyone had called 911. After the police left, he saw the emergency lights of a patrol car through the window. [redacted] remained in the room until [redacted] came in and told everyone not to go outside. Then, they were all directed to go out to the front of the church. [redacted] said he never went out to the parking lot and did not hear any voices, but at one point he heard a small explosion.

W/[redacted] provided her statement to me with the assistance of [redacted] who translated for us. She stated that she was in Room C when someone came in and told everyone to stay there. She remained in the room until she was told to go to the front of the church. She did not see or hear anything that happened in the parking lot, and could provide no further information.

After completing my interviews, I remained on scene to assist with scene security until I was relieved by investigations personnel.

It should be noted this incident was recorded on my department issued body worn camera. The contents of

that recording were downloaded and stored pursuant to department policy.

No further information.

Supplement Narrative

On 01/30/2017 at approximately 2035 hours, Deputy Matelli and I responded to the [redacted]adalupe [redacted] parking lot located at [redacted] Old Redwood Hwy in Windsor. Deputy Patrick and his Trainee Wang were with an occupied vehicle in the area where a 911 disconnect had been dispatched. Deputy Patrick had radioed he was out with a man with a gun.

Deputy Matelli and I responded Code three. I saw a subject in the driver`s side of a vehicle where Deputy Patrick was focused toward the middle of the north side parking lot. I took cover behind a parked vehicle where I was initially head on with the subject. As more units arrived, I grabbed my rifle and repositioned behind another car which was parked at the south west area of the parking lot. I moved one more time to a closer position behind an Escalade which was parked a few spaces away from the subjects` vehicle.

The subject was not following commands to surrender which were being given in English and Spanish over a Patrol car`s P.A. After several minutes of the subject ignoring all commands the subject exited the car threw a paper and then got back into the same driver`s seat. The second time the subject exited the vehicle he turned around and reached into the car. I heard two shots ring out and the subject fell to the ground dropping a black handgun at his feet.

After a brief K9 deployment others rendered medical aid and medical was called into the scene. The subject was transported to the hospital.

Nothing further at this time.

Supplement Narrative

WINDSOR POLICE DEPARTMENT
SUPPLEMENTAL REPORT
W170130-005
DEPUTY L. MATELLI #2164

On 1/30/17 at approximately 2050 hours, Deputy Maikranz and I responded to assist Deputy Patrick and Deputy Wang after Deputy Patrick advised he had one subject at gunpoint who had a handgun. Deputy Patrick and Deputy Wang were working as a double unit. I overheard them, via police radio, respond to the [redacted] ([redacted] Old Redwood Hwy. in Windsor) for a 9-1-1 wireless call prior to their request for assistance.

As we arrived on-scene, I noticed a subject sitting in a red vehicle, with Deputy Patrick and Deputy Wang taking cover behind a silver or gold Escalade in the parking lot. They were yelling commands at the suspect in the vehicle. Based on the fact that the suspect was armed with a handgun, I grabbed a patrol rifle and setup with Deputy Gillette behind a vehicle for cover. Deputy Parks arrived with his K9 partner Jags. Deputy Parks and I setup behind an additional patrol vehicle. We had the suspect vehicle illuminated with takedown lights, headlights and spotlights. The parking lot was also illuminated with several street lights.

Deputy Valencia began making numerous commands via the P.A. system in both English and Spanish. The subject refused to follow commands. The subject exited the car but refused to follow commands. The subject got back into the car. He moved his hands out of my view numerous times. The subject again exited the vehicle. As Deputy Valencia was giving him commands to place his hands up, the subject turned like he was going to go back in the vehicle. The subject looked as if he was attempting to reach into the vehicle or re-enter the vehicle.

Deputy Seibold deployed a 40mm less lethal blue tip foam round at the subject. As the subject turned towards us, I heard one gunshot, which I believed came from Deputy Parks. The subject fell to the ground. The subjects` hands were concealed underneath him. Deputy Parks deployed Jags. Jags bit the subject and pulled him, revealing a black handgun. As we approached the subject, I kicked the black handgun away from the subject. We placed the subject into handcuffs. I immediately began rendering medical aid. Using my knife, I cut the subject`s shirt off. I located two wounds to both his back and front torso. I believed it was a through and through wound caused by the single gunshot. Deputy Short and I placed direct pressure to both wounds as I checked his pulse and airway. The subject was breathing although labored and had a pulse.

We continued providing medical aid until fire and paramedics arrived.

My BWC was activated during this incident.

Supplement Narrative

On 01/30/2017 at approximately 2350 hours, I heard a call go out that a Windsor Deputy had an individual with a gun at, [redacted] Old Redwood Highway in Windsor. As I was responding to this address I was diverted along with Deputy Short to [redacted] road in Windsor, to contact anyone there who may be associated with or have information regarding the subject (later identified as [redacted]

When I arrived on scene, Deputy Short and I contacted [redacted] and her son [redacted] and [redacted] said they were on their way to the church and they were familiar with Luis. They said Luis had formerly lived at the address on [redacted] Road, but had move out some time ago. In the past, Luis had attempted suicide by taking an excessive amount of prescription medication. [redacted] felt she would be able to talk to Luis and he would listen to her.

I transported [redacted] to the scene in the event she would be needed in the negotiation process.

Due to [redacted] not speaking English very well I had [redacted] translate. [redacted] gave me the following statement in summary:

[redacted] received a phone call from her brother-in-law [redacted] wanted [redacted] to check on his nephew (Luis). Luis had called his uncle [redacted] crying and told him his life didn`t have sense anymore, this troubled [redacted] because Luis was depressed. Luis had attempted to commit suicide approximately 10 months ago by taking an excessive amount of prescription pills. [redacted] said she had not seen Luis or talked to him for about a month. The last time she had seen Luis was when her son [redacted] fixed a computer for Luis. The last time [redacted] saw Luis he seemed fine.

End of statement.

I transported [redacted] to Windsor PD so she could be interviewed by detectives. After [redacted] Interview I transported her back to her residence on [redacted] Road.

I returned to the scene at [redacted] Old Redwood Highway, and took over the crime scene log from Deputy Short at 0115 hours. I remained on scene until I was advised I could clear the crime scene.

This incident was captured on my department issued body worn camera. My camera was turned off at times that were deemed fruitless to this investigation.

Nothing further.

Supplement Narrative

On 01-30-2017, at about 2245 hours, I was advised by CSI Sergeant V. Eaton of an Officer involved shooting in the Town of Windsor. Sergeant Eaton requested I respond to the scene at "[redacted]" [redacted] Old Redwood Highway).

Upon arrival, I saw the scene was secured with yellow Sheriff`s Crime Scene Tape and Deputy C. McCreedy maintained a crime scene security log. I conducted a brief video walk through of the scene to document how it appeared when I arrived.

I observed 4 marked sheriff`s patrol vehicles positioned behind and to the side of a burgundy Nissan Maxima (CA# [redacted] in a parking lot behind the church. There appeared to be numerous items of evidentiary value near the Nissan Maxima driver`s side door.

Next, I took overall photographs to document the scene. I observed several folded business cards from Deputy Mark Aldridge within the scene. It appeared Deputy Aldridge had placed his business card(s) beside item(s) of evidence to mark them and prevent them from being lost, damaged, or contaminated.

Finally, I placed numbered placards near items of evidence and again took overall photographs to document the scene.

Item #TN1 appeared to be a black handgun, on the ground, south-west of the Nissan Maxima driver`s door. Upon closer inspection, I saw the black handgun was a replica firearm.

Item #TN2 was clothing with apparent blood stains on them. The clothing appeared to be cut by medical staff at the scene. The clothing was south of the Nissan Maxima driver`s door.

Item #TN3 was a black Motorola cell phone. The cell phone was located on top of the clothing at the Nissan Maxima driver`s door.

Item #TN4 was a hand written note located south of the Nissan Maxima trunk.

Item #TN5 was an expended 9mm cartridge north of patrol vehicles #A805 and #A824.

Item #TN6 was a blue tip 40mm sponge round south-west of patrol vehicle #A839.

Item #TN7 was an expended 40mm cartridge chambered in the low-lethal launcher (serial number [redacted]. The low-lethal launcher was located on the hood of patrol car #A824.

Item #TN8 was medical waste located south of the Nissan Maxima.

I packaged, labeled, and sealed the items of evidence then transported it to the Sheriff`s Office for further investigation.

I saw item #TN4 was a hand written note in Spanish. Curious what the note said, I asked Deputy Juan Valencia to translate it for me. It should be noted that Deputy Valencia is fluent in Spanish. Deputy Valencia told me the letter was a "Suicide Note." In essence Deputy Valencia translated the note as follows:

****
****

"Thank you for doing this favor for me because I did not have the courage to do it. My life has no meaning on this land, this was the only way to leave this land that everything was a disaster for me. And to my family and mother, I ask forgiveness, I had to do this. But, I don`t want you to be sad for this and remember that I will always be with you my loving mother.

I love you my loving mother

Me Luis
Thank you Officer"

****
****

I downloaded my photographs onto a CD as evidence item #TDN.

I downloaded my video onto a DVD as evidence item #TDN1.

I submitted all items of evidence to Property/Evidence. Nothing further at this time.

Supplement Narrative

On 01/30/2017, at approximately 2035 hours, Deputy Wang and I responded to [redacted] Old Redwood Highway, Windsor, Ca. ([redacted]) on report of a 9-1-1 wireless hang up. While enroute, SCSO Dispatch advised via radio the same caller (AT&T [redacted] dialed 9-1-1 again and the male caller (later identified as Luis Alberto Olmedo) requested a Spanish interpreter and stated he was at the [redacted]. The line was then disconnected.

Upon our arrival, I parked my patrol vehicle at the N/W said of the parking lot and approached the church on foot. Deputy Wang and I walked into the courtyard of the church where I observed approximately 15 to 20 people inside of a conference room having a meeting. I contacted the subjects and asked if they dialed 9-1-1 to which they stated they did not.

Deputy Wang and I exited the courtyard of the church and we began walking to the parking lot where I observed a maroon colored Nissan (CA[redacted] parked in the parking lot. I observed the vehicle was facing west, the windows were almost completely fogged up and I could see a Hispanic male seated in the driver`s seat crying and talking on his cellular phone. I continued to walk towards the vehicle where I stood behind the B pillar of the door, knocked on the window and stated "Sheriff`s Office!" While I knocked on the window, Deputy Wang simultaneously walked from my right (east) behind me and to my left (west) looking through the windshield and stated "Gun!" I immediately drew my firearm pointing it at Olmedo and began walking backwards to a SUV in the parking lot approximately 30 feet south of Olmedo`s vehicle for cover. While walking backwards away from Olmedo, I observed a black semi-automatic style handgun in his lap on his right side while I continued to give him verbal commands to show me his hands.

I advised SCSO Dispatch via radio that Olmedo was armed with a firearm and was not responding to any of my verbal commands. Numerous SCSO Deputies arrived on scene and Deputy Valencia began giving verbal commands to Olmedo over the PA system in his patrol car in both Spanish and English.

After approximately thirty minutes, Olmedo opened the driver`s side door as if he were getting out and then closed the door. Olmedo then opened the driver`s door, exited the vehicle and continued to conceal his right hand and he threw a crumpled up piece of paper. After a few seconds, Olmedo got back into his vehicle where he continued to disobey commands and conceal his hands. Finally, Olmedo exited his vehicle a second time where he concealed his left hand and began to turn as if he were going back into the vehicle.

At this time, Deputy Seibold deployed a 40mm less lethal blue tip foam round at Olmedo. As Olmedo began to turn towards other Deputies, I heard one gun shot. Olmedo fell to the ground where both of his hands were

concealed under his torso and a black semi-automatic pistol fell near him.

Deputy Parks deployed his K9 partner "Jags." Deputy Parks` K9 "Jags" bit Olmedo and pulled him to his side revealing both of Olmedo`s hands. We approached Olmedo where he was placed into handcuffs. Deputy Matelli began cutting off Olmedo`s clothing to provide medical aid where I observed Olmedo had a through and through gunshot wound to the left side of his torso. Olmedo was unconscious and breathing.

I requested medical come into the scene where they took over medical aid and transported Olmedo to Santa Rosa Memorial Hospital.

Deputy Wang and I put crime scene tape up through the area.

It should be noted, throughout my involvement in this incident I was equipped with a Body Worn Camera and it was recording. This report is merely a summary of the incident and is not intended to be an exact transcript of the entire investigation.

Supplement Narrative

On 01/30/17 at about 2050 hours, I heard Deputy Patrick over the Sheriff`s Office Radio say that the subject in the vehicle he was out with, at the [redacted], [redacted] Old Redwood Highway, was in possession of a handgun.

I responded to the location and positioned my patrol car at the south exit of the rear parking lot, blocking the exit (I activated my body worn camera). There were three patrol vehicles in the rear lot, near a Nissan sedan, with a subject inside the vehicle. The vehicle was parked on the north of the three patrol cars and it was facing northwest. The suspect`s driver`s side door was facing the patrol cars. I could hear Deputy Valencia giving verbal commands over a patrol car`s PA system in English and Spanish. I grabbed my department issued Remington 870 Shotgun and advanced towards the patrol car on the north edge. I positioned myself at the passenger rear side of Deputy Falberg`s patrol car. Deputy Patrick and Deputy Blount were to the right of me.

The suspect in the vehicle was not responding to Deputy Valencia`s verbal commands. He appeared to be holding a piece of paper in his left hand and possibly talking on the cell phone. He began to open his door to his vehicle then the closed it. The suspect exited the vehicle and was not following Deputy Valencia`s verbal commands and threw the piece of paper he had in his hands. The suspect got back in his vehicle and closed the door. A short time later the suspect got out of his vehicle again. He was beginning to follow Deputy Valencia`s commands and began to walk out of the vehicle, but then started to hesitate. The suspect was facing towards the area where Deputy Valencia was located. I could see the right side of his body. I could not see his left hand. It almost appeared that he was turning to go back into his vehicle. I heard two shots and the subject fall to the ground, on his stomach. A K9 was deployed and began to pull the suspect away from the vehicle. We advanced on the suspect. I heard someone say gun and what appeared to be a black semi-automatic handgun slid across the asphalt away from the suspect.

Windsor Fire Department arrived and treated the suspect. The suspect was transported to Santa Rosa Memorial Hospital.

2570

Supplement Narrative

On 1/30/2017 at approximately 2043 hours I was the on-duty, graveyard shift sergeant assigned out of the Sheriff`s Main Office. I heard Windsor Police Officer/Deputy Patrick investigating a "911 wireless" call in the area of [redacted] Old Redwood Hwy, Windsor the "[redacted]" area. Within a short time, I heard Dep. Patrick advise he had a subject at gun point. I advised dispatch that I was monitoring the call.

Dep. Patrick requested a "40mm", less lethal unit respond to assist. I am qualified with the less lethal and had one with me in my duty vehicle "A827". I responded from the Roseland area, off Sebastopol Rd while continuing to monitor the updates on the radio. I heard updates that the suspect was not obeying commands. I requested "medical" to stage in the area for the call. I heard additional Windsor Police units arriving on scene including a canine unit "K-8" Dep. Parks.

Upon my arrival I heard Dep. Valencia using a patrol units P.A. system in effort to establish verbal contact with the suspect. I spoke with Dep. Patrick in brief as he described his earlier observations of the suspect being in possession of a black, automatic handgun. I noticed 3 patrol cars, parked behind the suspect vehicle a Nissan, Maxima, bearing Ca. License plate [redacted]. This registration on the Nissan returned to a subject out of Windsor, "Luis Alberto Santiagoolmedo" with an address of [redacted] Rd. I heard deputies responding to the residence to conduct welfare checks and to inquire about our suspect on scene.

I had a concern for the area residents, and the parishoners of the church, so I had several deputies make efforts to evacuate the immediate areas, and to establish a perimeter. I also had Dep. Gillette make ready a "Spike strip" on the west side of the parking lot as a secondary plan to contain the suspect. I requested "HNT" to be called out as well.

During the incident Dep. McCready advised me he had made contact with a female relative at the[redacted] [redacted] Rd, address who was willing to assist at the scene. I had him bring her to a safe area, near the scene for intelligence information and potentially verbal contact with our suspect should the need arise. (refer to Dep. McCreadys supp. for further).

I had dispatch notify Lt. Basurto (Chief of Police City of Windsor) regarding the incident.

During the verbal announcements toward the suspect on P.A., we received no verbal response only limited reactions initially. The suspect opened and cracked the drivers door partially, hesitated to exit several times, held his cell phone with his left hand while putting his right hand out of sight.

At the immediate scene, to my right I had Dep. Seibold with a 40mm, less lethal option. I had positioned myself with my 40mm near Dep. Valencia who was on the P.A.. During the incident the suspect appeared to being having an emotional break talking on his cell phone, putting his face into his hands, leaving his window up, and avoiding eye contact with us. I heard either a deputy or dispatch advise the suspect had a prior suicide attempt.

After several hesitation attempts to comply with order and direction by Dep. Valencia, the suspect exited the car faced towards us. At approx. 2120 hours the suspect exited the car a few feet slowly and without complete compliance. I could see his right hand, but not having a full view of his left, I heard Dep. Seibold deploy his 40mm, less lethal, which I felt spun the suspect a bit. The suspect went to the ground with both hands concealed under him, with no gun in my line of sight. Dep. Parks deployed his K-9, partner who drug the suspect a few to east. Several deputies to my right made a stack, lining up for an approach to make a hands on arrest. I came around in the line as well.

As the suspect was down, I heard a deputy announce a shot fired. I didn`t hear a sound of a particular shot as the 40mm deployment may have been close to simultaneous. We called in medics to administer aid, while Dep. Mattelli and others rendered aid. The suspect had his shirt cut open for first aid, at which point I believe I observed an exit wound at his torso. I confirmed with Dep. Parks that he had used his firearm during the incident. Dep.Parks told me he fired one round from his handgun. I noticed one spent shell casing in the area Dep. Parks had been positioned in. I had Dep. Negri sequester Dep. Parks ultimately checking out of the inner crime scene.

I had Dep. Valencia stay with the suspect during his medical transport to Memorial Hospital. Dep. Blount responded to Memorial Hospital as well to assist and secure any initial evidence clothing etc. (refer to Dep. Valencia and Dep. Blounts supplemental reports for further).

I remained on scene as the supervisor, coordinating scene security and notifications as needed.

During this incident, we provided the suspect with numerous opportunities to comply with our directions, offers of assistance, and reassurances to help him. These verbal efforts were conducted between approx. 2050 hrs and 2122 hrs, when we took the suspect into custody.

I had Dep. Short assigned to the scene log prior to my clearing the scene.

Lt. Basurto advised that I could clear from the inner perimeter as we only retained those units with vehicles inside this inner area that had direct involvement.

I was wearing my BWC during the incident, and turned it off only during tactical planning/or other call related conversations.

Supplement Narrative

On January 30th, 2017 at approximately 2045 hours I was coming into the local zone from the River, when I heard the Windsor Police Units responding to [redacted] for a 911 hang up. I listened to the call escalate into a subject with a gun in a vehicle in the rear parking lot of the Church.

I responded to the location to assist Sergeant Ryan if needed. Upon arrival I parked on Alden, fronting the Pastors house. I walked the perimeter of the church on the south west side, stopping in the main courtyard. The Bible Study that was in session had already been asked to stay indoors. I advised them to not allow anyone into the rear lot, and that we would contact them when the incident was secure.

I then continued to the south enterance on foot and approached the scene, from the south west. I observed approx. 10-12 deputies using patrol units and an SUV in the parking lot to engage a sedan in the lot. I made brief contact with Sergeant Ryan who was holding the 40 mm low lethal. Sergeant Ryan had arrived on scene a few minutes before me and he was making phone calls.

I approached the vehicle with Deputy Valencia and asked him if he was attempting to talk to the subject. Valencia said he had already given several commands in both Spanish and English and the subject was unresponsive. I told Deputy Valencia to continue to talk to the subject and attempt to engage him until HNT arrived.

Sergeant Ryan finished his call. I spoke with him briefly about the perimeter and if a plan was in place to engage the subject. Sgt. Ryan still needed to contact the on scene K9 and other units. I agreed to take the southern perimeter and meet the unit responding with a friend of the subject who may be able to help communicate with the subject in the vehicle.

I left the interior scene and posted at the south end of the main building on the front side, out of view from the rear lot. A few minutes later the Bible study got out and all the participants congregated fronting the main building on the south end.

While posted at the location, I heard the 40 mm deploy followed by the sound of a shot. Lt. Basurto arrived on scene and I was speaking to him, when a unit came on the air and advised shots fired and they were attending to the subject.

Deputy Blount arrived at the south location and the lane was blocked off. I moved the citizen group from the front of the building to the northside, where several deputies began interviews and coordinating release of

vehicles out of the lot.

I checked in with the interior perimeter and advised Lt. Basurto I was securing, that the south enterance was taped off. I also signed the crime scene log prior to securing. I was on scene for approx. 50 minutes.

Nothing further.

Supplement Narrative

On 01-30-2017 at approximately 2050 hours, I heard Deputy Patrick transmit over the radio he had one at gunpoint, who was in possession of a firearm, at [redacted] Old Redwood Highway in Windsor. I, as well as other deputies, responded to the scene to assist Deputy Patrick. There was an associated vehicle with the subject (who was later identified as Suspect Luis Santiagoolmedo) with a plate of CA/[redacted] which was registered to [redacted] Rd, Windsor.

During the investigation, I was wearing my Body Worn Camera (BWC). My BWC was deactivated at times during the investigation but only when the video was determined to have been fruitless, when it was not prudent to activate the camera, or while I discussed case strategy/tactical planning with my partner(s). This report is merely a summary of the incident and is not intended to be an exact transcript of the entire investigation.

While enroute, Deputy McCready and I were diverted to [redacted] Rd in an attempt to contact anyone who may be associated with the vehicle or Santiagoolmedo. I arrived on scene and contacted (Involved / Other) [redacted] and her son (Involved / Other) [redacted] At first, I believed [redacted] was Santiagoolmedo`s ex, however, it was later determined [redacted] is his aunt. [redacted] and [redacted] told me the following in essence.

Santiagoolmedo use to live at [redacted] Rd but has since moved out of the residence. Santiagoolmedo has attempted suicide in the past by overdosing on medication. [redacted] has a good relationship with Santaigoolmedo and believed he would listen to her if she was given the opportunity to speak with him.

I relayed the necessary information to deputies at [redacted] old Redwood Highway.

Deputy McCready transported [redacted] to [redacted] Old Redwood Highway while I remained at [redacted] Starr Rd with [redacted] to check on the welfare of the occupants. Once I discovered the occupants of the residence were okay and Santiagoolmedo had not been there, I left the residence and responded to [redacted] Old Redwood Highway.

I arrived on scene at the north/west side of [redacted] Old Redwood Highway and took a position of cover behind a wall approximately 50 yards west from Santiagoolmedo and the contacting deputies. Deputy Patrick had several deputies assisting him, so I maintained my position with Deputy Williams in case Santiagoolmedo were to flee in our direction.

From my vantage point, I was unable to see clearly what was going on. However, I did observe Santiagoolmedo outside of his vehicle on the driver`s side, and the contacting deputies were in close proximity behind their patrol vehicles. I was unable to see Santiagoolmedo`s hands and what/if he was holding anything. I heard deputies giving orders to Santiagoolmedo but due to the distance and ambient noise, I was unable to make out what exactly what the deputies were saying. I then heard two simultaneous gunshots and watched Santiagoolmedo fall to the ground. I saw a K9 get deployed and bite Santiagoolmedo. The contacting deputies approached Santiagoolmedo and placed him into handcuffs.

I approached and assisted Deputy Matelli and Falberg with medical aid. Deputy Falberg removed Santiagoolmedo`s shirt which revealed a single gunshot wound to his left chest/abdomen area. I rolled Santiagoolmedo onto his right side and saw an exit wound on his back. I applied pressure to the exit wound while Deputy Matelli applied pressure to the entrance wound. Paramedic`s arrived on scene and took over medical aid.

I started a crime scene log, documented everyone on scene and units who later arrived on scene to assist with the investigation. Deputy McCready relieved me and took over the log at approximately 0115 hours.

Nothing further.

Supplement Narrative

PATROL DIVISION
SUPPLEMENTAL REPORT
DEPUTY JUAN VALENCIA #1628
02/05/2017
CR# W170130-005
****

NARRATIVE:

On 01/30/2017, at approximately 2050 hours, Windsor Deputy Patrick advised via Sheriff`s radio he had a suspect at gunpoint in a parking lot [redacted]). Deputy Patrick advised that the suspect was armed with a handgun and not responding to commands.
Windsor K-9 Deputy Parks and I responded with lights and sirens from the Windsor Police Department to [redacted] Old Redwood Highway. Prior to our arrival someone on scene asked for the next incoming unit to approach the parking lot via the south entrance located on Old Redwood Highway. I arrived on scene at approximately 1852 hours, and activated my department issued Body Worn Camera (BWC). I drove to the back parking lot and observed a dark colored sedan in the middle of the lot. I illuminated the vehicle with the patrol vehicle`s overhead spot light and observed a male sitting in the driver seat, who was later identified as (OF) Luis Alberto Santiago Olmedo. Luis appeared to be distraught and crying. I parked my marked patrol vehicle with the front end-facing in a northern direction. I exited my patrol vehicle which was now being used as cover.

I was able to provide dispatch the vehicle`s license plate information. Dispatch stated the vehicle was registered to Luis. I began giving orders to Luis via-the P.A. in English and Spanish. Within a minute of arriving on scene, the driver`s door opened. I identified myself as a Deputy Sheriff. I observed a black phone on his lap, the phone was plugged in and on. Luis ignored my commands and closed the driver`s door. During the incident, I repeatedly ordered Luis to get out of the vehicle with his hands up and without a handgun. I also told Luis we were here to help him.

I requested for a Sheriff`s unit to respond to [redacted] Road, which was the address associated with the vehicle`s registration. At the residence they contacted a family member who stated Luis was suicidal and had attempted suicide in the past. It was also discovered that Luis only spoke Spanish. After obtaining this information, I only engaged Luis in Spanish. At times, I asked Luis to roll down his window to engage in a conversation.

At 23 minutes, Luis opened the driver`s door. I continued ordering Luis to exit the vehicle. During the contact he had a black item on his lap which I recognized as a cell phone. Luis shut the door to the vehicle at 27 minutes. A few seconds later, Luis then exited his vehicle and it appeared as if he was trying to see where patrol units were located. It appeared as if Luis was building up the courage to confront law enforcement. Luis had every opportunity to surrender. Luis was shot with a less lethal round and handgun during the incident. First Aid was provided to Luis for his gunshot wound. I notified dispatch that shots had been fired and medical personnel were needed.

Bells Ambulance Medic 681 responded to the scene and rendered aid to Luis. Luis was transported via-ambulance to Santa Rosa Memorial Hospital. EMT Chris Baker drove the ambulance, as Paramedic Nate Sussex and Windsor Fire Fighter Chris Curtin rode in the back rendering aid to Luis. I rode in the back of the

ambulance to obtain a dying declaration. It should be noted that I had my BWC on the entire ride to the hospital.

Once we arrived at Memorial Hospital, I deactivated my BWC as first-aid was rendered to Luis. Luis was placed into Trauma Room [redacted] Luis was being treated by Emergency Room Doctor [redacted] and Surgeon Medical Doctor [redacted] Luis was later taken into surgery for injuries he sustained by being shot. After surgery Luis was transferred to [redacted] All information was provided to Sergeant Murphy via-telephone.

Lieutenant Duke asked for my assistance in interviewing one of Luis` family members at the Windsor Police Department since they only spoke Spanish.

INTERVIEW WITH [redacted]

I met with [redacted] inside the Windsor Police Department lobby for an interview. I informed [redacted] that she was not under arrest and could leave at any time. On 01/31/2017, at approximately 0020 hours, I activated my BWC to capture the interview with [redacted] husband [redacted] is cousin`s with Luis` mother. Luis had lived with them at their residence in Windsor for approximately three years. Luis moved out of the residence a few months back and now resided in [redacted]. Luis visited [redacted] and her family approximately three weeks ago and received some help with downloading a program onto his computer. [redacted] stated that within the past year Luis attempted suicide by overdosing on pills. Luis was taken to the hospital via-ambulance. Luis told [redacted] that he was depressed and had a lot of problems. Luis told her husband [redacted] that he was gay and depressed over his sexuality.

Further, [redacted] stated that Luis had called her brother in law, [redacted] earlier and told him that he was coming to Windsor. Luis called [redacted] a second time crying and told him that he didn`t feel good. Luis told [redacted] that he was at the Church ([redacted]). During the incident [redacted] spoke with Luis on the phone. Luis didn`t say anything and was only heard crying. [redacted] provided me with [redacted] and Luis` roommate`s phone number to be contacted for an interview. The interview was concluded at approximately 0042 hours.

INTERVIEW WITH [redacted]

I initially called [redacted] to obtain his physical address to contact him for an interview. I responded to his residence in [redacted] and arrived at 0111 hours. [redacted] provided the following, in summary. [redacted] and Luis are related and speak often. On 01/30/2017, at approximately 2030 hours, [redacted] received a phone call from Luis. [redacted] invited Luis to come over and hangout with him. Luis stated that he might not make it to the residence. [redacted] stated that something did not seem right with Luis. After waiting approximately 15 minutes, [redacted] called Luis after he had not arrived. Luis did not answer. Luis then called [redacted] back and began asking for forgiveness. Luis told him that he was going to commit suicide. Luis stated that he was attempting to talk Luis out of it. [redacted] asked Luis if he was armed and he said, "No." Luis stated he couldn`t live any longer. Luis told [redacted] that he was at [redacted], in Windsor. [redacted] drove to the Church and when he got there observed the police activity. [redacted] was on the phone with Luis as negotiations were going on. [redacted] was afraid that Luis was possibly armed with a gun. [redacted] was trying to convince Luis to surrender. [redacted] stated Luis was afraid to surrender. [redacted] observed and heard me attempting to engage Luis and have him surrender. [redacted] stated he continued telling [redacted] that he wanted to die during the incident. [redacted] stated that he has spoken with Luis in the past and was aware of his prior suicide attempt. [redacted] stated that Luis was suicidal because of his

homosexuality.

[redacted] also mentioned that [redacted] Luis` roommate had located a hand written note which read, "Te amo quiquito Bebe E Y L." The shirt was located in Luis` bedroom on top of his bed. The interview was concluded 0126 hours.

INTERVIEW WITH [redacted]:

On 01/31/2017, at approximately 0205 hours, I responded to [redacted], to speak with [redacted] regarding Luis. [redacted] provided the following, in summary. Luis moved into the residence in April of 2016, and rents one of the bedroom located next to the kitchen. [redacted] met Luis through family and was aware of his prior suicide attempt. Luis has never given [redacted] any problems at the residence and keeps to himself. [redacted] has seen Luis in the past playing with a black handgun which he described as shooting a small round projectile similar to a bb gun. [redacted] told Luis not to play with the gun in the house because he has a young daughter. [redacted] stated the handgun looked real.

[redacted] last spoke with Luis on 01/30/2017 between 1800-1900 hours, as he exited the residence. Luis told he was going out. Luis did not seem distraught at the time.

[redacted] stated he received a call from [redacted] about what had happened. [redacted] walked into Luis`s bedroom and located a Grey T-shirt with a phrase written on it with a black marker. The shirt had "Te amo quiquito Bebe E Y L" written on it. The shirt said "I love you little baby." [redacted] gave the shirt to me. I later photographed the shirt. I booked the shirt into evidence as item # 1-JV. The interview was recorded by my BWC. The interview was concluded at 0219 hours.

Supplement Narrative

On Monday, January 30, 2017, at approximately 2040, FTO Deputy Patrick and I were dispatched to a wireless 911 call at [redacted] Old Redwood Highway at [redacted]hurch. As we were en route, dispatch advised the caller called back and requested a Spanish translator then hung up. When dispatch attempted to call back, no one answered.

When Deputy Patrick and I arrived, we checked the area around the church and inside the church. We made contact with a group in the east conference room. Deputy Patrick asked if any of them called 911. Everyone in the conference room denied calling 911.

We exited the church into the parking lot to the north of the church. Deputy Patrick noticed a suspicious Nissan sedan parked under a light post in the parking lot. We could see a Hispanic male sitting in the driver seat. As we got closer, we noticed the Hispanic male was crying in the driver seat.

Deputy Patrick knocked on the driver side window to get the Hispanic male`s attention. I saw the subject holding a black pistol in his right hand. He raised the pistol and pointed it at his head then lowered the pistol down toward his lap. I yelled "gun" and Deputy Patrick and I drew our guns and backed away from the Nissan. I moved back behind a silver SUV for cover. Deputy Patrick advised dispatch that we had one at gun point in the parking lot and requested additional deputies.

Several deputies arrived, including Deputy Valencia who started giving the subject commands to show us his hands and exit the vehicle in English and Spanish. The subject was not obeying any commands. He opened and closed the driver side door several times without exiting the car.

After approximately 30 minutes, the subject finally exited the vehicle with his hands out in front of him. He reached down to his left pants pocket with his left hand. I heard a 40 millimeter round deployed and saw the K-9 deployed.

The subject dropped to the ground and deputies approached and handcuffed him. They performed first aid to treat the subject`s wound. AMR arrived and took over treatment and transported him to Memorial.

It should be noted, my body worn camera was activated during this incident.

Supplement Narrative

On 1/30/17 at approximately 2052 hours, I responded to [redacted] Parking lot located at [redacted] Old Redwood Highway in Windsor for a subject with a gun.

Upon my arrival, I could see multiple Deputies with their spotlights facing a red car in the parking lot. I was tasked with evaluating all houses on the east side of Arden Lane from Old Redwood Highway to Harper Court. All houses which were accessible were asked to evaluate. As I was going house to house along Arden Lane, I could hear Deputy Valencia give multiple clear commands using the P.A system in English for the subject to surrender.

I also evaluated the [redacted].

I took coverage at the west portion of the Church when I heard two shots ring out.

I saw the subject on the ground as Deputies approached him. As I approached the subject, I saw a black handgun laying on the pavement, approximately 8 feet to the southwest of where the subject was laying. Deputies provided medical aid until relived by Windsor Fire Department, Engine 7281 occupied by Captain Ron Busch, Engineer Aron Levin, Firefighters Jorden Grove and Christian Curtin. The subject was transported to Santa Rosa Memorial Hospital by Bells Ambulance #681.

I later interviewed a few of the people who were in the Church at the time of the incident. During some of my interviews I used [redacted] or [redacted] as an interpreters.

[redacted] who was associated with a Blue Trailblazer (Lic#[redacted]) which was parked in the parking lot to the rear of the Church. The following is a summary what [redacted] told me. [redacted] was in a meeting in the north portion of the Church. While in the meeting, she could hear a deputy saying something in regards to, Get out of your car with your hands up. [redacted] said she heard the commands in both English and Spanish. [redacted] stated when she looked out the window she could see a black object in one of the hands of the subject. [redacted] could not identify what the object was though.

I contacted [redacted] who was associated with the Blue Trailblazer (Lic#[redacted]. [redacted] was also in the meeting in the north end of the Church. I used [redacted] to interpret for me since [redacted] only spoke Spanish. The following is a summary of what [redacted] told me. [redacted] heard the Deputies giving commands to come out with your hands up. [redacted] heard this in both English and Spanish. [redacted] also heard someone screaming.

Incident/Investigation Report

Agency: Windsor Police Department **Case Number:** 170130-005

I spoke to [redacted] who`s Chevy Pickup (Lic# [redacted]) was parked to the rear of the Church. The following is a summary of what [redacted] told me. [redacted] stated he was in a meeting in the north end of the Church. While in the Church, [redacted] could hear the deputies giving commands to surrender. Through the window, [redacted] could see the subject not following instructions and disobeying commands.

I spoke to [redacted] who was the son of [redacted] The following is a summary of what [redacted] told me. [redacted] was sitting in the truck in the rear of the parking lot when the red car pulled in. [redacted] stated he saw the subject in the red car doing something with hands. [redacted] heard the deputy give commands for the subject to come out of the vehicle in both and English and Spanish.

I spoke to [redacted] who is associated with the Chevy Pickup (Lic# [redacted] The following is a summary of what [redacted] told me. [redacted] stated she was praying during the incident and didn`t hear or see anything.

[redacted] stated he was southwest corner of the Church in a meeting. The following is a summary of what [redacted] told me. [redacted] blue Mini Cooper (Lic# [redacted]) was parked in the rear parking lot. [redacted] was in class when he said a Deputy come in and asked if anyone called 911. [redacted] stated he heard one loud bang while he was outside.

[redacted] who also was associate with the Mini Cooper (Lic# [redacted]. The following is a summary of what [redacted] told me. [redacted] was in class when a deputy came in and asked if anyone called 911. [redacted] did stated she heard one loud bang while she was outside.

[redacted] whose Gold Cadillac Escalade (Lic# [redacted]) was parked about two parking`s spots away from the red car. The following is a summary of what [redacted] stated. [redacted] stated when he arrived at approximately 1840 hours, he didn`t notice if the red car was there or not because there was other cars around him when he pulled up. [redacted] stated he didn`t hear or see anything.

I took pictures of where the Mini Cooper (Lic# [redacted]) and Chevy Pickup (Lic# [redacted]) in regards to where the red car was. I burned all pictures to a CD and booked it into evidence at the Main Office as MW1.

It should be noted this report is a summary of the events and that portions of this incident were recorded on my body worn camera (BWC). This report is not intended as a transcript of the entire investigations.

Nothing further.
