On 3/12/17 I was assigned to work as the R module deputy, on Swing Shift.

Over the course of my work week, Inmate [redacted] had made multiple ~~sexual~~ comments towards me that were sexual in nature. I did not try to stop her from making these comments.

While in R module I searched for [redacted] on facebook, Crimnet and Socrata while at work. I did this out of personal interest.

On 3/12/17, my partner, Deputy Willis went to break around 1730. Closely following, I approached cell R-49 which housed [redacted] we spoke, and she suggested opening her door. I told her I would not. She suggested I open the closet door for cover. I opened the closet door and her cell door. We spoke, and eventually kissed for approximately one minute. [redacted] hands were on my chest. She moved one hand down towards my groin, which I moved back to my chest. I touched her breasts and butt over her clothes with my hands. I left the doorway and retrieved a bible from the closet, gave it to her ~~and left.~~ She asked if I would enter the cell and motioned towards the ~~bed~~, I told her no. I ~~then~~ told her instead she could give me a show next time. I shut the door and left.

I returned to the cell some time later, [redacted] removed all of her clothing with me ~~standing~~ outside of the cell. I watched ~~I opened the door and~~ She [redacted] put her clothes back on. I opened the door and she exited the cell and retrieved some tampons we spoke again. I shut the door and left.

I returned to the cell later to tell [redacted] this could not continue. I told [redacted] if she stayed sober I may contact her later. (via facebook).

The next day I ~~continued~~ conducted module operations as normal, and had no irregular or inappropriate contact with [redacted] I left work and blocked [redacted] on facebook.
