Supplemental:

[redacted] **BELL AVENUE LOWER LAKE**

On Monday, August 1, 2022, I assisted Detective Rantissi with follow-up regarding this incident. Detective Rantissi and I responded to [redacted] Bell Avenue in Lower Lake to interview David Pelaez's girlfriend, (W) [redacted]. Narcotics Detective Arredondo responded to assist with Spanish Translation.

During the interview, [redacted] provided consent to search her and Pelaez's home. Detective Rantissi tasked me with searching the residence.

I took overall photographs of the residence prior to beginning the search. I later booked the photographs in evidence.

I conducted a search of the residence. I located two pieces of burnt foil on top of a dresser in the bedroom on the north side of the residence. I also located a plastic pen tube on the top of the dresser. The plastic pen tube was clear with white residue inside of it. Based on my training and experience, I know that both the burnt foil and the plastic pen tube (tooter) are common drug paraphernalia and indicate the use of narcotics. I showed the items to Narcotics Detective Arredondo who agreed with my assessment. I also showed the items to Detective Rantissi and [redacted]. [redacted] denied any knowledge of the items and told Detective Rantissi that they were not hers.

On top of the same dresser described above, I located indicia for Pelaez. Inside the dresser, I located additional indicia for Pelaez including identifications under an alias, [redacted]. I photographed the indicia and identifications.

Based on his expertise, Detective Arredondo became concerned that Fentanyl may be present in the residence. We exited the residence and obtained proper PPE equipment prior to resuming the search.

Detective Rantissi took possession of the paraphernalia and later responded to SRPD where he booked the items for destruction.

Upon resuming the search, I located a bag of Hashish in a bedside stand drawer in the bedroom on the north side of home. In the same drawer, I located 1 .22 caliber long rifle cartridge. I photographed both items. I did not locate any additional evidence in the residence and completed my search.

Disposition: Attach to the original report.
