SUPPLEMENTAL REPORT
INITIAL RESPONSE, SEARCH WARRANTS, NISSAN SEDAN TOW

I am a Detective assigned to the SRPD Violent Crimes Investigation's Team. On 07/29/22 at approximately 1100 hours, I received a message from VCI Sgt Matthies that a critical incident occurred. Sgt Matthies requested my assistance and to meet at the Sonoma County Sheriff's Department for a briefing.

I was present at the briefing led by the Sonoma County Sheriff's Department. I viewed body worn camera footage, reviewed call for service notes, and saw maps of the involved locations. I returned to the Santa Rosa Police Department and began to author a search warrant for the critical incident located in the rural area east of Chalk Hill Rd. The warrant was reviewed by DDA Gotshall and signed by Judge Honigsberg.

At approximately 1800 hours, I drove to [redacted] Hwy 128 in Healdsburg, CA. Earlier in the morning of 07/29/22, it was reported that a Nissan sedan was abandoned on this property in event SD222100037. This location is close in proximity to the other related addresses and the abandoning of that vehicle is close in timeframe to the events leading up to the critical incident. It is believed that this vehicle is related to the unidentified deceased individual. I digitally attached that event printout to this report.

When I entered the property of [redacted] Hwy 128, I stopped at the main residence. I spoke with [redacted] with the assistance of a family member for Spanish translation. I asked about the Nissan sedan and it is location. I was directed further past the main residence and barn. I asked if I had permission to be on their property and to tow the vehicle away. [redacted] said yes.

I drove into the vineyard area and turned off the main dirt road west behind a section of vines. I located Deputy Goforth who was scene security for the vehicle. I photographed the vehicle. I used my department issued iPhone to locate GPS coordinates for the location of the vehicle as [redacted] I later typed these coordinates into a Google Map and it was accurate to my location. I attached a map to this report for reference.

I completed a CHP 180 and had the vehicle towed for evidence pursuant to 22655.5 VC. [redacted] with Yarbrough Tow arrived to take the vehicle. The secured scene was released at 2050 hours. I later uploaded the photos to the evidence.com digital evidence server.

On 07/30/2022, I authored a search warrant to have the Nissan Sentra processed in evidence. It was reviewed by DDA Gotshall and signed by Judge Honigsberg.

DISPOSITION

Attach to original report.
