Date/Time: **08/10/2022 10:57:00**

SUPPLEMENT:

SCENE DIAGRAM:

On Wednesday, August 3, 2022, while on duty as a Field Evidence Technician, I downloaded the Pix4Dcatch App images from my iPhone and the images captured with the drone into Pix4Dmapper to create a (2) single orthomosaic images and (1) merged orthomosaic image. I then merged all of the orthomosaic images, including the point cloud, into FARO Focus 3D software to create 2D diagrams of the scene.

I booked the images from my iPhone into SRPD Property and Evidence, Evidence.com (22-8672 Pix4Dcatch Scene).

I then booked the scene video taken with the Axon App into SRPD Property and Evidence, Evidence.com (22-8672 Scene Video).

On Thursday, August 4, 2022, I booked the photographs taken with the drone into SRPD Property and Evidence, Evidence.com (22-8672 Drone).

On Tuesday, August 9, 2022, I completed all of the 2D diagrams of the scene. On Monday, August 29, 2022, I booked (1) USB Drive, with (6) project files and PDF's of the 2D diagrams and measurement logs of the scene into SRPD Property and Evidence (ITEM 60). I attached the (4) PDF's to my supplement in RMS.
