SEARCH OF VICTIM'S SILVERADO PICKUP:

On August 10, 2022, at approximately 1000 hours, I contacted [redacted] via telephone. [redacted] was the victim of the carjacking at [redacted] Tre Monte Lane and is the registered owner of the blue 2014 Chevrolet Silverado involved in this incident. It should be noted that the call was made through a Spanish telephonic interpreter since [redacted] is a native Spanish speaker.

During my conversation with [redacted], I explained that his vehicle was currently being stored at Yarborough Tow in Santa Rosa and being held for evidential purposes. I explained that my intention was to search the vehicle and obtain DNA and other items of evidence. I explained that the search could only be performed via court order (i.e., search warrant) or with his consent.

[redacted] verbally consented to a search of the vehicle.

I informed [redacted] that I expected to release his vehicle later in the afternoon after it was searched. I provided [redacted] with instructions on how to resume custody of his vehicle from the tow yard. [redacted] was appreciative and the call was ended.

It should be noted that my call with [redacted] was audio recorded and uploaded into Evidence.com. Please listen to the audio recording for further details.

Later that afternoon, at approximately 1230 hours, I met with FET Brady at Yarborough Tow. I stood by as FET Brady took photos of the vehicle, obtained DNA samples and dusted for fingerprints. After the evidence collection was completed, I conducted a secondary search of the vehicle and located no additional evidence.

I conducted a visual inspection of the vehicle and saw extensive damage around the entire exterior of the vehicle. The damage was consistent with ramming the vehicle through metal gates and fences. I also located what appeared to be wire fencing wrapped around the rear axle of the vehicle.

After the search of the vehicle was completed, I contacted [redacted] and told him that his vehicle was ready for pick-up.
